

Small Cap Innovation Fund

OBJECTIVES AND PROCESS

- Seeks long-term capital appreciation.
- Invests in at least two-thirds of its assets in equity securities of US small-capitalisation companies.
- Seeks to identify companies that embrace innovation and foster disruption using technology to maximise efficiencies, gain pricing advantages and take market share from competitors.
- Seeks to identify companies with potential for capital growth, improving sales, effective management and a competitive advantage, taking a surround-the-company approach.
- Uses a negative screen to exclude securities issued by companies based on their exposure to ESG risks.
- The fund may invest:
 - principally in equity securities of small-capitalisation companies (within the Russell 2000 Index market-cap range at the time of purchase)
 - in up to 15% of total assets in equity securities of non-US issuers including through ADRs, CDRs, EDRs, GDRs, IDRs and similar depositary receipts
 - by using futures/derivatives for hedging or efficient portfolio management purposes

KEY RISKS

Market risk: securities may decline in value due to factors affecting securities markets generally, and equity securities generally have greater price volatility than debt securities.

Global investment risk: securities of certain jurisdictions may experience more rapid and extreme changes in value and may be affected by uncertainties such as international political developments, currency fluctuations and other developments in the laws and regulations of countries in which an investment may be made.

Smaller company securities risk: securities of companies with smaller market capitalisations tend to be more volatile and less liquid than securities of larger companies. **ESG risk:** applying an ESG screen for security selection may result in lost opportunity in a security or industry resulting in possible underperformance relative to peers, ESG screens are dependent on third party data and errors in the data may result in the incorrect inclusion or exclusion of a security.

² Subject to the discretion of the Board of Directors to determine otherwise, shareholders should note that the dealing deadline is by the close of regular trading of the NYSE (normally 4pm New York time and 10pm Luxembourg time) for all applications for subscription, redemption and switching that are sent directly to and received by the registrar and transfer agent. For all such applications that are sent to and received by the Hong Kong representative, the Hong Kong dealing deadline will apply and such applications will be processed by reference to the net asset value per share of the relevant class of the relevant sub-fund determined as at the close of regular trading of the NYSE (normally 4pm New York time and 10pm Luxembourg time) later that valuation day (or, if that day is not a valuation day, on the next day that is a valuation day). Applications for subscription, redemption and switching that are sent to and received by the Hong Kong representative after such Hong Kong dealing deadline (or on a day that is not a Hong Kong business day) will be forwarded to the registrar and transfer agent on the next Hong Kong business day, to be effected on the next valuation day. A business day shall be a day on which banks in Luxembourg and the NYSE are open for business. For the avoidance of doubt, half-closed bank business days in Luxembourg are considered closed for business.

³ While the Sub-Funds listed above have access to both internal and external ESG research and integrate financially material sustainability risks into their investment decision-making processes, ESG-related factors are considered but not determinative, permitting the relevant Sub-Investment Managers to invest in issuers that do not embrace ESG; as such, sustainability risks may have a more material impact on the value of the Sub-Fund's investments in the medium to long term. The investments underlying these Sub-Funds do not take into account the EU criteria for environmentally sustainable economic activities.
