Allspring (Lux) Worldwide Fund - Global Long/Short Equity Fund,
a sub-fund of Allspring (Lux) Worldwide Fund
Class IP (GBP) Shares - acc. (LUI665121825)
Management Company: Allspring Global Investments Luxembourg S.A.

Objectives and Investment Policy

The fund seeks long-term capital appreciation while preserving capital in down markets, by investing at least two-thirds of its total assets in equity securities of companies located worldwide. The fund employs a strategy of gaining long and short exposure in equity securities of issuers in developed markets (i.e., countries included in the MSCI World Index). The fund will gain "long" exposure to equity securities (including through participatory notes, swaps, convertible securities, equity linked notes and/or certificates) that it believes will outperform the equity market on a risk-adjusted basis, and will gain "short" exposure to equity securities that it believes will underperform the equity market on a risk-adjusted basis. The fund uses a quantitative investment process which evaluates multiple fundamental, statistical, and technical characteristics covering stock valuation, growth, return history, risk, liquidity and economic sensitivity. The fund may also gain exposure to equity securities by investing in ADRs, CDRs, EDRs, GDRs, IDR and similar depository receipts as well as equities denominated in US Dollars issued by Non-US Issuers. The fund may have long equity exposure of up to 100% of its net assets. "Short" exposure is achieved through the use of total return swaps (on eligible financial indices with first class financial institutions and baskets of eligible securities)/contracts for difference and other types of derivatives. The fund may have a short equity exposure of up to 50% of its assets.

The fund's long-short exposure will vary over time based on its assessments of market conditions and other factors, and it may increase its short equity exposure when it believes that market conditions are particularly favourable for a short strategy, such as during periods of heightened volatility in the global equity markets, or when the market is considered to be overvalued. The fund may invest in the equity securities of companies of any market capitalisation. The fund will invest in no fewer than three countries, which may include the United States, and may invest more than 25% of its total assets in any one country.

The fund may also use futures, forward contracts, options, or swap agreements, as well as other derivatives, for hedging or efficient portfolio management purposes.

This share class does not distribute dividends. Income is reinvested in the fund.

You may sell your shares on each business day when banks in Luxembourg are open for normal business and the New York Stock Exchange is open for trading (a "Business Day").

The fund is actively managed but uses the MSCI World Index as a reference for selecting investments and a composite of 50% of the MSCI World Index + 50% of the ICE BofA US 3-Month Treasury Bill Index for calculating the performance fee and for performance comparison. The investments of the fund may deviate significantly from the components of and their respective weightings in the benchmarks.

Risk and Reward Profile

This rating system is based on the volatility of the fund's returns over the past 5 years. Please note past returns may not be a reliable indicator of the future risk and reward profile of the fund; the rating may change over time based on future returns; and category 1 does not mean a risk-free investment.

Lower Risk

< Typically Lower Rewards

Higher Risk

Typically Higher Rewards >

1	2	3	4	5	6	7
---	---	---	---	---	---	---

The class is in category 5 because the average amount returns varied each year over the past 5 years was equal to or above 10.0% and less than 15.0%.

The following additional risks may impact the fund's returns:

Counter-Party Risk - The fund may incur a loss if the other party to an investment contract, such as a repurchase or reverse repurchase agreement or certain derivative contracts, fails to fulfill its contractual obligation to the fund.

Derivatives Risk - The use of derivatives, such as futures, options and swap agreements, can lead to losses, including those magnified by leverage, particularly when derivatives are used to enhance return rather than offset risk. In addition, there may be an absence of a liquid market for any particular instrument at any particular time.

Market Risk - The market price of securities owned by the fund may go up or down, sometimes rapidly or unpredictably. A security may decline in value due to factors affecting the issuer or securities markets generally or particular industries represented in the securities markets.

Smaller Company Securities Risk - Securities of companies with smaller market capitalisations tend to be more volatile and less liquid than larger company stocks.

The fund may not achieve its objective and/or you could lose money on your investment in the fund. For more information about the fund's risks, please see "Risks" and "Risk Management Processes" in the prospectus, which is available at allspringglobal.com.

Charges for this Fund

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distribution. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry Charge	None
Exit Charge	None
This is the maximum that might be taken out of your money before it is invested.	

Charges taken from the fund over a year	
Ongoing Charges	1.00%
Charges taken from the fund under certain specific conditions	
Performance Fee*	No performance fee paid for fiscal year ended 2023.

* The performance fee equals 20% of annual outperformance over a composite that consists of 50% of the MSCI World Index + 50% of the ICE BofA US 3-Month Treasury Bill Index (both expressed in USD).

The **entry** and **exit charges** shown are the highest possible charges you would pay. Please consult your advisor or distributor to find out your actual charges, which might be less. The **ongoing charges** figure is based on the expenses for the period ending August 2023. **Ongoing charges** may vary from year to year. The **ongoing charges** do not include the portfolio transaction costs, except in the case of an entry/exit charge paid by the fund when buying or selling units in another collective investment undertaking.

For more information about the fund's charges, please see "Fees and Expenses" in the prospectus.

Past Performance

Past performance is not a guide to future performance. Performance calculations are based on the net asset value, include ongoing charges but exclude entry and exit charges, if any, and are calculated in GBP with income reinvested. The base currency of the fund is USD.

Fund launch date: 2017. Share Class launch date: 2017.

The chart shows performance against the MSCI World Index (GBP) (Index 1) and a composite of 50% of the MSCI World Index + 50% of the ICE BofA US 3-Month Treasury Bill Index (GBP) (Index 2). Prior to 1 May 2023, Index 2 was comprised of 50% of the MSCI World Index plus 50% of the 3-Month Libor. The fund does not track either index.

Effective 1 May 2023 the 3-Month Libor portion of Index 2 was changed to the ICE BofA US 3-Month Treasury Bill Index.
