

# Allspring Utilities and High Income Fund (ERH)

Semi-Annual Report

FEBRUARY 28, 2025

## Managed Distribution Plan

Pursuant to an exemptive order issued by the Securities and Exchange Commission (“Order”), the Fund is authorized to distribute long-term capital gains to shareholders more frequently than once per year. Pursuant to the Order, the Fund’s Board of Trustees approved a Managed Distribution Plan (“MDP”) for the Fund pursuant to which the Fund makes monthly cash distributions to common shareholders, stated in terms of a fixed amount per common share.

The Fund’s Board has adopted a managed distribution plan for the Fund at an annual minimum fixed rate of 8% based on the Fund’s average monthly NAV per share over the prior 12 months. The Fund makes distributions monthly. You should not draw any conclusions about the Fund’s investment performance from the amount of these distributions or from the terms of the MDP. The MDP will be subject to regular periodic review by the Board and the Board may amend or terminate the MDP at any time without prior notice to Fund shareholders. However, at this time there are no reasonably foreseeable circumstances that might cause the termination of the MDP.

The Fund may distribute more than its income and net realized capital gains and, therefore, a portion of your distribution may be a return of capital. A return of capital may occur, for example, when some or all of the money that you invested in the Fund is paid back to you. A return of capital distribution does not necessarily reflect the Fund’s investment performance and should not be confused with ‘yield’ or ‘income’.

With each distribution, the Fund will issue a notice to shareholders and a press release containing information about the amount and sources of the distribution and other related information. The amounts and sources of distributions reported in the notice and press release are only estimates and are not provided for tax reporting purposes. The actual amounts and sources of the amounts for tax reporting purposes will depend upon the Fund’s investment experience during its fiscal year and may be subject to changes based on tax regulations. The Fund will send you a Form 1099-DIV for the calendar year that will tell you how to report these distributions for federal income tax purposes.

## Shareholder Proposals

Proposals intended to be presented by a Shareholder at the annual meeting of Shareholders to be held in 2025 must be received by the Fund’s Secretary at the Fund’s principal executive office by July 3, 2025 in order to be considered for inclusion in the Fund’s proxy statement and proxy card relating to that meeting pursuant to Rule 14a-8 under the Exchange Act. If a Shareholder wishes to present a proposal at the annual meeting of Shareholders to be held in 2025 without having the proposal included in the Fund’s proxy statement, including a proposal to nominate any persons for election to the Board, such proposal must be delivered to the Fund’s Secretary at the Fund’s principal executive office not earlier than the close of business on July 3, 2025 and not later than the close of business on August 4, 2025. Timely receipt or delivery of a proposal does not necessarily mean that such proposal will be included in the Fund’s proxy statement or presented at the meeting, given that such inclusion and presentation are subject to various conditions and requirements, including those specified by applicable law and by the Fund’s governing documents. The Chair of the meeting may refuse to acknowledge a nomination or other proposal by a Shareholder that is not made in the manner described above.

## Notice to Shareholders

On November 14, 2024, the Fund announced a renewal of its open-market share repurchase program (the “Buyback Program”). Under the renewed Buyback Program, the Fund may repurchase up to 5% of its outstanding shares in open market transactions during the period beginning on January 1, 2025 and ending on December 31, 2025. The Fund’s Board of Trustees has delegated to Allspring Funds Management, LLC, the Fund’s adviser, discretion to administer the Buyback Program, including the determination of the amount and timing of repurchases in accordance with the best interests of the Fund and subject to applicable legal limitations.

# Performance highlights

Investment objective	The Fund seeks a high level of current income and moderate capital growth, with an emphasis on providing tax-advantaged dividend income.
Strategy summary	The Fund allocates its assets between two separate investment strategies, or sleeves. Under normal market conditions, the Fund will allocate approximately 70% of its total assets to a sleeve that places a focus on common, preferred and convertible preferred stocks of utility companies and approximately 30% of its total assets to a sleeve of U.S. dollar denominated below investment grade (high yield) debt.
Adviser	Allspring Funds Management, LLC
Subadviser	Allspring Global Investments, LLC

**Figures quoted represent past performance, which is no guarantee of future results, and do not reflect taxes that a shareholder may pay on an investment in a fund. Investment return and principal value of an investment will fluctuate so that an investor's shares, when sold, may be worth more or less than their original cost. Current performance may be lower or higher than the performance data quoted, which assumes the reinvestment of dividends and capital gains. Performance figures of the Fund do not reflect brokerage commissions that a shareholder would pay on the purchase and sale of shares. If taxes and such brokerage commissions had been reflected, performance would have been lower. To obtain performance information current to the most recent month-end, please call 1-800-222-8222.**

The Fund’s annualized expense ratio for the six months ended February 28, 2025, was 2.46% which includes 1.48% of interest expense.

<sup>1</sup> Total returns based on market value are calculated assuming a purchase of common stock on the first day and a sale on the last day of the period reported. Total returns based on NAV are calculated based on the NAV at the beginning of the period and at the end of the period. Dividends and distributions, if any, are assumed for the purposes of these calculations to be reinvested at prices obtained under the Fund’s Automatic Dividend Reinvestment Plan.

<sup>2</sup> Source: Allspring Funds Management, LLC. The ERH Blended Index is weighted 70% in the S&P 500 Utilities Index and 30% in the ICE BofA U.S. High Yield Constrained Index. Effective October 15, 2019, the ERH Blended Index changed the high yield component of the index from the ICE BofA U.S. High Yield Index with the ICE BofA U.S. High Yield Constrained Index in order to better match the Fund’s investment strategy. <sup>3</sup> The Russell 3000® Index measures the performance of the 3,000 largest U.S. companies based on total market capitalization, which represents approximately 98% of the investable U.S. equity market. You cannot invest directly in an index.

GROWTH OF \$10,000 INVESTMENT AS OF FEBRUARY 28, 2025<sup>1</sup>

<sup>1</sup> The chart compares the performance of the Fund for the most recent ten years with the ERH Blended Index and Russell 3000® Index. The chart assumes a hypothetical investment of \$10,000 investment and reflects all operating expenses of the Fund.

COMPARISON OF NAV VS. MARKET VALUE<sup>1</sup>

<sup>1</sup> This chart does not reflect any brokerage commissions charged on the purchase and sale of the Fund's common shares. Dividends and distributions paid by the Fund are included in the Fund's average annual total returns but have the effect of reducing the Fund's NAV.

## Risk summary

This closed-end fund is no longer available as an initial public offering and is only offered through broker-dealers on the secondary market. A closed-end fund is not required to buy its shares back from investors upon request. Shares of the Fund may trade at either a premium or discount relative to the Fund's net asset value, and there can be no assurance that any discount will decrease. The values of, and/or the income generated by, securities held by the Fund may decline due to general market conditions or other factors, including those directly involving the issuers of such securities. Equity securities fluctuate in value in response to factors specific to the issuer of the security. Debt securities are subject to credit risk and interest rate risk, and high yield securities and unrated securities of similar credit quality have a much greater risk of default and their values tend to be more volatile than higher-rated securities with similar maturities. Funds that concentrate their investments in a single industry or sector may face increased risk of price fluctuation due to adverse developments within that industry or sector. The Fund is also subject to risks associated with any concentration of its investments in the utility sector. The Fund is leveraged through a revolving credit facility and also may incur leverage by issuing preferred shares in the future. The use of leverage results in certain risks, including, among others, the likelihood of greater volatility of net asset value and the market price of common shares. Foreign investments may contain more risk due to the inherent risks associated with changing political climates, foreign market instability, and foreign currency fluctuations. Derivatives involve additional risks, including interest rate risk, credit risk, the risk of improper valuation, and the risk of noncorrelation to the relevant instruments they are designed to hedge or closely track.

## MANAGER'S DISCUSSION

### Overview

The Fund's return based on market value was 8.73% for the six-month period that ended February 28, 2025. During the same period, the Fund's return based on net asset value (NAV) was 6.82%. The ERH Blended Index returned 5.06%. Based on its NAV return, the Fund outperformed the ERH Blended Index for the six-month period that ended February 28, 2025.

### Utilities performance relative to the S&P 500 Index\* reflected broader market volatility. The sector finished the period nearly even.

The Fund's equity sleeve strategy benchmark, the S&P 500 Utilities Index,\*\* increased more than 5% for the period, trailing the S&P 500 Index by less than 1%. The equity sleeve outperformed its benchmark by more than 1%. Utilities performed well for much of the second half of 2024 as investors rallied behind the theme of increasing electricity demand, turning away for a time from a narrow group of large growth stocks that had led the market higher. Investors also anticipated that lower interest rates could help rate-sensitive sectors, including utilities.

#### TEN LARGEST HOLDINGS (%) AS OF FEBRUARY 28, 2025<sup>1</sup>

NextEra Energy, Inc.	12.37
Constellation Energy Corp.	6.65
Southern Co.	5.98
Duke Energy Corp.	4.80
DTE Energy Co.	4.44

CMS Energy Corp.	3.94

<sup>1</sup> Figures represent the percentage of the Fund's net assets. Holdings are subject to change and may have changed since the date specified.

### The equity sleeve sold PG&E and AES Corporation.

The equity sleeve managers sold PG&E Corporation (PCG), a California utility, after devastating wildfires ravaged parts of Southern California. These fires were not in PCG's service territory but reminded investors of the physical dangers as well as the state's improved but imperfect legal and regulatory system regarding wildfire liability. They also sold The AES Corporation (AES), a leader in renewable power development, on the premise that the Trump administration's uncertain stance on renewables and related tax credits will continue to dampen investor sentiment. They added to positions on weakness in several utilities that stand to benefit from demand growth.

The Fund did not own Edison International (EIX), a California utility that experienced wildfires in its service territory. EIX, an index stock, significantly underperformed and was the largest contributor to relative performance. The largest detractor from performance was an

underweight position in Vistra Corporation (VST). This stock has benefited from the improving outlook for electricity demand and the managers opportunistically added to the position during the period.

### The utilities equity outlook is healthy.

A combination of slower economic growth, geopolitical factors including tariffs, and improving demand for electricity could continue to support utilities' performance given their stable earnings growth. Fundamentals remain strong and the managers continue to expect healthy mid-single-digit percentage earnings and dividend growth going forward. In fact, targeted earnings growth has inched up for some utilities, driven in part by rapid growth in data centers that require significant quantities of electricity. Meanwhile, valuation continues to look attractive. On a price/earnings basis, the S&P 500 Utilities Index recently traded at close to a 25% discount to the S&P 500 Index versus a 15-year average premium of about 7%.

#### SECTOR ALLOCATION AS OF FEBRUARY 28, 2025<sup>1</sup>

<sup>1</sup> Figures represent the percentage of the Fund's long-term investments. Allocations are subject to change and may have changed since the date specified.

### Within high income, lower-quality credits outperformed.

Over the past six months, U.S. economic growth has remained resilient, rising 2.5% year over year, while inflation remained at elevated levels with

\* The S&P 500 Index consists of 500 stocks chosen for market size, liquidity, and industry group representation. It is a market-value-weighted index with each stock's weight in the index proportionate to its market value. You cannot invest directly in an index.

\*\* The S&P 500 Utilities Index is a market-value-weighted index that measures the performance of all stocks within the utilities sector of the S&P 500 Index. You cannot invest directly in an index.

the Core Consumer Price Index (CPI)\* unchanged at 3.3% year over year. The Federal Reserve (Fed) cut rates by 100 basis points (bps; 100 bps equal 1.00%) to a target range of 4.25–4.50% but paused its rate-cutting cycle based on the lack of improvement in core inflation and receding labor market risks. Economic fundamentals remain healthy, with the U.S. unemployment rate at 4.0%, real disposable income growth remaining solid, and positive wealth effects stemming from solid home price growth and equity appreciation. Healthy economic fundamentals and Fed cuts have produced accommodative financial conditions in capital markets, allowing the lowest-quality credits to outperform among high yield bonds. The beginning of the second Trump administration has brought greater uncertainty, which has led the market to begin pricing greater growth and inflation risks.

CREDIT QUALITY AS OF FEBRUARY 28, 2025<sup>1</sup>

<sup>1</sup> The credit quality distribution of portfolio holdings reflected in the chart is based on ratings from Standard & Poor’s, Moody’s Investors Service, and/or Fitch Ratings Ltd. Credit quality ratings apply to the underlying holdings of the Fund and not to the Fund itself. The percentages of the portfolio with the ratings depicted in the chart are calculated based on the market value of fixed income securities held by the Fund. If a security was rated by all three rating agencies, the middle rating was utilized. If rated by two of the three rating agencies, the lower rating was utilized, and if rated by one of the rating agencies, that rating was utilized. Standard & Poor’s rates the creditworthiness of bonds, ranging from AAA (highest) to D (lowest). Ratings from A to CCC may be modified by the addition of a plus (+) or minus (-) sign to show relative standing within the rating categories. Standard & Poor’s rates the creditworthiness of short-term notes from SP-1 (highest) to SP-3 (lowest). Moody’s rates the creditworthiness of bonds, ranging from Aaa (highest) to C (lowest). Ratings Aa to B may be modified by the addition of a number 1 (highest) to 3 (lowest) to show relative standing within the ratings categories. Moody’s rates the creditworthiness of short-term U.S. tax-exempt municipal securities from MIG 1/VMIG 1 (highest) to SG (lowest). Fitch rates the creditworthiness of bonds, ranging from AAA (highest) to D (lowest). Credit quality distribution is subject to change and may have changed since the date specified.

The high income sleeve added to telecommunications and financial services while trimming autos and energy.

Security selection, particularly at the bottom end of the credit spectrum, continues to be the focal point of the high income sleeve. During the six-month period that ended in February, we remained about even in yield and

spread relative to the ICE BofA U.S. High Yield Constrained Index\*\* and slightly shorter in duration. At the sector level, we increased our allocations to telecommunications and financial services and reduced our exposure to autos and energy. The increased allocation to telecommunications is based on the thesis that certain issuers stand to benefit from rapid expansion of data center capacity. Holdings in financial services include a diverse mix of businesses and company-specific investment theses. We reduced auto holdings, reflecting our concern over Western manufacturers losing share to Chinese manufacturers in electric vehicles and the resulting volume declines stemming from this market shift. Valuation and price attainment led us to reduce the sleeve’s energy holdings.

The previous year’s worst detractors were the two top performers in the six-month period that ended February 28, 2025. Enviva, a wood pellet manufacturer, completed its restructuring and exit financing, unlocking value for debt holders who had supported the company through that process. Multiplan, a data provider to health insurers, completed an out-of-court debt exchange that allowed debt holders to move up the capital structure and let the company extend maturities. The two worst-performing positions were ModivCare and Altice USA. ModivCare’s efforts to restructure its customer contracts weakened its working capital position and cash flow. In Altice USA, relative to the benchmark, our overweight to structurally senior debt and underweight to structurally subordinate debt, which offer better downside protection in the event of a restructuring, underperformed during the six-month period.

GEOGRAPHIC ALLOCATION AS OF FEBRUARY 28, 2025<sup>1</sup>

<sup>1</sup> Figures represent the percentage of the Fund’s long-term investments. Allocations are subject to change and may have changed since the date specified.

The high income outlook is positive overall.

Macroeconomic uncertainty has pushed interest rates and equity markets lower and loosened high yield spreads, allowing some value back into the market, in our view. The trailing 12-month default rate is 1.4%, the ninth consecutive month that default rate has been below 2%. Absent the realization of a tail risk, which could stem from trade or fiscal policy, we believe defaults are unlikely to sharply accelerate. Macroeconomic fundamentals and high yield issuer credit metrics are healthy, although we believe recent weakness in economic data bears monitoring.

Leverage had a positive impact on performance.

The Fund’s use of leverage through bank borrowings had a positive impact on the NAV total return performance during this reporting period. As of

\* The Core Consumer Price Index (CPI) is a measure of the average change over time in the prices paid by urban consumers for a market basket of consumer goods and services excluding energy and food prices. You cannot invest directly in an index.

\*\* The ICE BofA U.S. High Yield Constrained Index is a market-value-weighted index of all domestic and Yankee high-yield bonds, including deferred interest bonds and payment-in-kind securities. Issues included in the index have maturities of one year or more and have a credit rating lower than BBB-/Baa3 but are not in default. The ICE BofA U.S. High Yield Constrained Index limits any individual issuer to a maximum of 2% benchmark exposure. Returns shown are net of transaction costs beginning on July 1, 2022. You cannot invest directly in an index. Copyright 2025. ICE Data Indices, LLC. All rights reserved.

February 28, 2025, the Fund had 21.1% leverage as a percent of total assets.

## Fund distributions

Pursuant to an exemptive order issued by the Securities and Exchange Commission (the "Order"), the Fund is authorized to distribute long-term capital gains to shareholders more frequently than once per year. Pursuant to the Order, the Fund's Board of Trustees approved a managed distribution plan pursuant to which the Fund makes monthly cash distributions to common shareholders. The Fund's managed distribution plan had no effect on the Fund's investment strategy during the six months ended February 28, 2025 and is not expected to have such an effect in

future periods. If distributions exceed Fund returns, they will cause its NAV per share to erode. Shareholders should not draw any conclusions about the Fund's investment performance from the amount of its distribution or from the terms of its managed distribution plan. For the six months ended February 28, 2025, the Fund's total distributions were \$0.41 per share. The Fund's distributions may be comprised of amounts characterized for federal income tax purposes as qualified and non-qualified ordinary dividends, capital gains and non dividend distributions, also known as return of capital distributions. The federal income tax character of distributions is determined after the end of the calendar year and reported to shareholders on Form 1099-DIV.

- 144A The security may be resold in transactions exempt from registration, normally to qualified institutional buyers, pursuant to Rule 144A under the Securities Act of 1933.
- $\dagger$  Non-income-earning security
- $\ddagger$  Security is valued using significant unobservable inputs.
- $\pm$  Variable rate investment. The rate shown is the rate in effect at period end.
- $\yen$  A payment-in-kind (PIK) security is a security in which the issuer may make interest or dividend payments in cash or additional securities or a combination of both. The rate shown is the rate in effect at period end.
- $\blacklozenge$  The security is fair valued in accordance with procedures approved by Allspring Funds Management, LLC.
- $\cup$  Security is perpetual in nature and has no stated maturity date. The date shown reflects the next call date.
- $\clubsuit$  The issuer of the security is an affiliated person of the Fund as defined in the Investment Company Act of 1940.
- $\infty$  The rate represents the 7-day annualized yield at period end.

Abbreviations:

LIBOR	London Interbank Offered Rate
REIT	Real estate investment trust
SOFR	Secured Overnight Financing Rate

**Investments in affiliates**

An affiliated investment is an investment in which the Fund owns at least 5% of the outstanding voting shares of the issuer or as a result of other relationships, such as the Fund and the issuer having the same adviser or investment manager. Transactions with issuers that were affiliates of the Fund at the end of the period were as follows:

	VALUE, BEGINNING OF PERIOD	PURCHASES	SALES PROCEEDS	NET REALIZED GAINS (LOSSES)	NET CHANGE IN UNREALIZED GAINS (LOSSES)	VALUE, END OF PERIOD	SHARES, END OF PERIOD	INCOME FROM AFFILIATED SECURITIES
<b>Short-term investments</b>

Year ended August 31, 2020	0.41%

<sup>1</sup> Calculated based upon average shares outstanding

<sup>2</sup> Total returns based on net asset value are calculated based on the net asset value at the beginning of the period and at the end of the period. Total returns based on market value are calculated assuming a purchase of common stock on the first day and a sale on the last day of the period reported. Dividends and distributions, if any, are assumed for the purposes of these calculations to be reinvested at prices obtained under the Fund's Automatic Dividend Reinvestment Plan. Total returns do not reflect brokerage commissions that a shareholder would pay on the purchase and sale of shares.

## Notes to financial statements

### 1. ORGANIZATION

Allspring Utilities and High Income Fund (the “Fund”) was organized as a statutory trust under the laws of the state of Delaware on February 4, 2004. Originally classified as non-diversified, the Fund was reclassified as a diversified closed-end management investment company in September 2014. As an investment company registered under the Investment Company Act of 1940, as amended (the “1940 Act”), the Fund follows the accounting and reporting guidance in Financial Accounting Standards Board (“FASB”) Accounting Standards Codification Topic 946, *Financial Services – Investment Companies*.

### 2. SIGNIFICANT ACCOUNTING POLICIES

The following significant accounting policies, which are consistently followed in the preparation of the financial statements of the Fund, are in conformity with U.S. generally accepted accounting principles (“GAAP”) which require management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of income and expenses during the reporting period. Actual results could differ from those estimates.

#### Securities valuation

All investments are valued each business day as of the close of regular trading on the New York Stock Exchange (generally 4 p.m. Eastern Time), although the Fund may deviate from this calculation time under unusual or unexpected circumstances.

Equity securities and exchange-traded funds that are listed on a foreign or domestic exchange or market are valued at the official closing price or, if none, the last sales price.

Debt securities are valued at the evaluated bid price provided by an independent pricing service (e.g., taking into account various factors, including yields, maturities, or credit ratings) or, if a reliable price is not available, the quoted bid price from an independent broker-dealer.

Investments in registered open-end investment companies (other than those listed on a foreign or domestic exchange or market) are valued at net asset value.

Investments which are not valued using the methods discussed above are valued at their fair value, as determined in good faith by Allspring Funds Management, LLC (“Allspring Funds Management”), which was named the valuation designee by the Board of Trustees. As the valuation designee, Allspring Funds Management is responsible for day-to-day valuation activities for the Allspring Funds. In connection with these responsibilities, Allspring Funds Management has established a Valuation Committee and has delegated to it the authority to take any actions regarding the valuation of portfolio securities that the Valuation Committee deems necessary or appropriate, including determining the fair value of portfolio securities. On a quarterly basis, the Board of Trustees receives reports of valuation actions taken by the Valuation Committee. On at least an annual basis, the Board of Trustees receives an assessment of the adequacy and effectiveness of Allspring Funds Management’s process for determining the fair value of the portfolio of investments.

#### Foreign currency translation

The accounting records of the Fund are maintained in U.S. dollars. The values of other assets and liabilities denominated in foreign currencies are translated into U.S. dollars at rates provided by an independent foreign currency pricing source at a time each business day specified by the Valuation Committee. Purchases and sales of securities, and income and expenses are converted at the rate of exchange on the respective dates of such transactions. Net realized foreign exchange gains or losses arise from sales of foreign currencies, currency gains or losses realized between the trade and settlement dates on securities transactions, and the difference between the amounts of dividends, interest and foreign withholding taxes recorded and the U.S. dollar equivalent of the amounts actually paid or received. Net unrealized foreign exchange gains and losses arise from changes in the fair value of assets and liabilities other than investments in securities resulting from changes in exchange rates. The changes in net assets arising from changes in exchange rates of securities and the changes in net assets resulting from changes in market prices of securities are not separately presented. Such changes are included in net realized and unrealized gains or losses from investments.

#### When-issued transactions

The Fund may purchase securities on a forward commitment or when-issued basis. The Fund records a when-issued transaction on the trade date and will segregate assets in an amount at least equal in value to the Fund’s commitment to purchase when-issued securities. Securities purchased on a when-issued basis are marked-to-market daily and the Fund begins earning interest on the settlement date. Losses may arise due to changes in the market value of the underlying securities or if the counterparty does not perform under the contract.

#### Loans

The Fund may invest in direct debt instruments which are interests in amounts owed to lenders by corporate or other borrowers. The loans pay interest at rates which are periodically reset by reference to a base lending rate plus a spread. Investments in loans may be in the form of participations in loans or assignments of all or a portion of loans from third parties. When the Fund purchases participations, it generally has no rights to enforce compliance with the terms of the loan agreement with the borrower. As a result, the Fund assumes the credit risk of both the borrower and the lender that is selling the participation. When the Fund purchases assignments from lenders, it acquires direct rights against the borrower on the loan and may enforce compliance by the borrower with the terms of the loan agreement. Loans may include fully funded term loans or unfunded loan commitments, which are

contractual obligations for future funding. Unfunded loan commitments represent the remaining obligation of the Fund to the borrower. At any point in time, up to the maturity date of the issue, the borrower may demand the unfunded portion. Unfunded amounts, if any, are marked to market and any unrealized gains or losses are recorded in the Statement of Assets and Liabilities.

## Security transactions and income recognition

Securities transactions are recorded on a trade date basis. Realized gains or losses are recorded on the basis of identified cost.

Interest income is accrued daily and bond discounts are accreted and premiums are amortized daily. To the extent debt obligations are placed on non-accrual status, any related interest income may be reduced by writing off interest receivables when the collection of all or a portion of interest has been determined to be doubtful based on consistently applied procedures and the fair value has decreased. If the issuer subsequently resumes interest payments or when the collectability of interest is reasonably assured, the debt obligation is removed from non-accrual status. Interest income is recorded net of foreign taxes withheld where recovery of such taxes is not assured.

Dividend income is recognized on the ex-dividend date.

Interest earned on cash balances held at the custodian is recorded as interest income.

## Distributions to shareholders

Under a managed distribution plan, the Fund pays monthly distributions to shareholders at an annual minimum fixed rate of 8% based on the Fund's average monthly net asset value per share over the prior 12 months. The monthly distributions may be sourced from income, paid-in capital, and/or capital gains, if any. To the extent that sufficient investment income is not available on a monthly basis, the Fund may distribute paid-in capital and/or capital gains, if any, in order to maintain its managed distribution level.

Distributions to shareholders from net investment income and net realized gains, if any, are recorded on the ex-dividend date. Such distributions are determined in accordance with income tax regulations and may differ from U.S. GAAP. Dividend sources are estimated at the time of declaration. The tax character of distributions is determined as of the Fund's fiscal year end. Therefore, a portion of the Fund's distributions made prior to the Fund's fiscal year end may be categorized as a tax return of capital at year end.

## Federal and other taxes

The Fund intends to continue to qualify as a regulated investment company by distributing substantially all of its investment company taxable income and any net realized capital gains (after reduction for capital loss carryforwards) sufficient to relieve it from all, or substantially all, federal income taxes. Accordingly, no provision for federal income taxes was required.

The Fund's income and federal excise tax returns and all financial records supporting those returns for the prior three fiscal years are subject to examination by the federal and Delaware revenue authorities. Management has analyzed the Fund's tax positions taken on federal, state, and foreign tax returns, as applicable, for all open tax years and does not believe that there are any uncertain tax positions that require recognition of a tax liability.

As of February 28, 2025, the aggregate cost of all investments for federal income tax purposes was \$112,891,423 and the unrealized gains (losses) consisted of:

Gross unrealized gains	\$29,993,305
Gross unrealized losses	(1,990,889)
<b>Net unrealized gains</b>	<b>\$28,002,416</b>

As of August 31, 2024, the Fund had capital loss carryforwards which consisted of \$760,409 in short-term capital losses and \$4,393,751 in long-term capital losses.

## 3. FAIR VALUATION MEASUREMENTS

Fair value measurements of investments are determined within a framework that has established a fair value hierarchy based upon the various data inputs utilized in determining the value of the Fund's investments. The three-level hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The Fund's investments are classified within the fair value hierarchy based on the lowest level of input that is significant to the fair value measurement. The inputs are summarized into three broad levels as follows:

- Level 1—quoted prices in active markets for identical securities
- Level 2—other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)
- Level 3—significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

The inputs or methodologies used for valuing investments in securities are not necessarily an indication of the risk associated with investing in those securities.

The following is a summary of the inputs used in valuing the Fund's assets and liabilities as of February 28, 2025:

	QUOTED PRICES (LEVEL 1)	OTHER SIGNIFICANT OBSERVABLE INPUTS (LEVEL 2)	SIGNIFICANT UNOBSERVABLE INPUTS (LEVEL 3)	TOTAL
<b>Assets</b>				
<b>Investments in:</b>				
<b>Asset-backed securities</b>	\$ 0	\$ 224,059	\$ 0	\$ 224,059
<b>Common stocks</b>				
<i>Communication services</i>	0	332	0	332
<i>Energy</i>	0	0	482,034	482,034
<i>Investment Companies</i>	0	0	19,026	19,026
<i>Utilities</i>	97,247,590	0	0	97,247,590
<b>Corporate bonds and notes</b>	0	31,329,639	0	31,329,639
<b>Loans</b>	0	3,355,760	105,257	3,461,017
<b>Yankee corporate bonds and notes</b>	0	5,981,797	0	5,981,797
<b>Short-term investments</b>				
<i>Investment companies</i>	2,148,345	0	0	2,148,345
<b>Total assets</b>	<b>\$99,395,935</b>	<b>\$40,891,587</b>	<b>\$606,317</b>	<b>\$140,893,839</b>

Additional sector, industry or geographic detail, if any, is included in the Portfolio of investments.

The following is a reconciliation of assets in which significant unobservable inputs (Level 3) were used in determining fair value:

	BALANCE, BEGINNING OF PERIOD	NET PURCHASES	NET SALES/ SETTLEMENTS	ACCRUED DISCOUNTS (PREMIUMS)	REALIZED GAINS (LOSSES)	NET CHANGE IN UNREALIZED GAINS (LOSSES)	TRANSFERS INTO LEVEL 3	TRANSFERS OUT OF LEVEL 3	BALANCE, END OF PERIOD
<b>Investments in:</b>									
Common stocks	\$ 9,306	\$166,440	\$ 0	\$ 0	\$ 0	\$325,314	\$0	\$ 0	\$501,060
Loans	484,518	105,043	(174,856)	4,953	63,780	(58,902)	0	(319,279)	105,257
	493,824	271,483	(174,856)	4,953	63,780	266,412	0	(319,279)	606,317
									NET CHANGE IN UNREALIZED GAINS (LOSSES) ON INVESTMENTS HELD AT FEBRUARY 28, 2025
<b>Investments in:</b>									
Common stocks									\$325,314
Loans									1,575
									326,889

The investment types categorized above were valued using indicative broker quotes. These indicative broker quotes are considered Level 3 inputs. Quantitative unobservable inputs used by the brokers are often proprietary and not provided to the Fund and therefore the disclosure that would address these inputs is not included above.

## 4. TRANSACTIONS WITH AFFILIATES

### Advisory fee

Allspring Funds Management, a wholly owned subsidiary of Allspring Global Investments Holdings, LLC, a holding company indirectly owned by certain private funds of GTCR LLC and Reverence Capital Partners, L.P., is the adviser to the Fund and is entitled to receive a fee at an annual rate of 0.50% of the Fund's average daily total assets, which is generally paid monthly. Total assets consist of the net assets of the Fund plus borrowings or other leverage for investment purposes to the extent excluded in calculating net assets.

Allspring Funds Management has retained the services of a subadviser to provide daily portfolio management to the Fund. The fee for subadvisory services is borne by Allspring Funds Management. Allspring Global Investments, LLC, an affiliate of Allspring Funds Management and a wholly owned subsidiary of Allspring Global Investments Holdings, LLC, is the subadviser to the Fund and is entitled to receive a fee from Allspring Funds Management at an annual rate of 0.40% of the Fund's average daily total assets.

## Administration fee

Allspring Funds Management also serves as the administrator to the Fund, providing the Fund with a wide range of administrative services necessary to the operation of the Fund. Allspring Funds Management is entitled to receive an annual administration fee from the Fund equal to 0.05% of the Fund's average daily total assets and generally paid monthly.

## Interfund transactions

The Fund may purchase or sell portfolio investment securities to certain affiliates pursuant to Rule 17a-7 under the 1940 Act and under procedures adopted by the Board of Trustees. The procedures have been designed to ensure that these interfund transactions, which do not incur broker commissions, are effected at current market prices. Pursuant to these procedures, the Fund did not have any interfund transactions during the six months ended February 28, 2025.

## 5. CAPITAL SHARE TRANSACTIONS

The Fund has authorized an unlimited number of shares with no par value. For the six months ended February 28, 2025 and year ended August 31, 2024, the Fund did not issue any shares.

Under an open-market share repurchase program (the "Buyback Program"), the Fund is authorized to repurchase up to 5% of its outstanding shares in open market transactions. The Fund's Board of Trustees has delegated to Allspring Funds Management full discretion to administer the Buyback Program including the determination of the amount and timing of repurchases in accordance with the best interests of the Fund and subject to applicable legal limitations. During the six months ended February 28, 2025, the Fund repurchased 121,004 of its shares on the open market at a total cost of \$1,335,397 (weighted average price per share of \$11.01). The weighted average discount of these repurchased shares was 11.38%. During the year ended August 31, 2024, the Fund repurchased 277,946 of its shares on the open market at a total cost of \$2,630,124 (weighted average price per share of \$9.46). The weighted average discount of these repurchased shares was 13.05%.

## 6. BORROWINGS

The Fund has borrowed \$30,000,000 through a revolving line of credit administered by a major financial institution (the "Facility"). The Facility has a commitment amount of up to \$30,000,000. The Fund is charged interest at the 1 Month Secured Overnight Financing Rate (SOFR) plus a spread and a commitment fee based on the unutilized amount of the commitment amount. The financial institution holds a security interest in all the assets of the Fund as collateral for the borrowing. Based on the nature of the terms of the Facility and comparative market rates, the carrying amount of the borrowings at February 28, 2025 approximates its fair value. If measured at fair value, the borrowings would be categorized as a Level 2 under the fair value hierarchy.

During the six months ended February 28, 2025, the Fund had average borrowings outstanding of \$30,000,000 (on an annualized basis) at an average interest rate of 5.48% and recorded interest in the amount of \$814,529, which represents 1.48% of its average daily net assets (on an annualized basis).

## 7. INVESTMENT PORTFOLIO TRANSACTIONS

Purchases and sales of investments, excluding U.S. government obligations (if any) and short-term securities, for the six months ended February 28, 2025 were \$20,427,845 and \$23,993,681, respectively.

## 8. CONCENTRATION RISKS

As of the end of the period, the Fund invested a concentration of its portfolio in the utilities sector. A fund that invests a substantial portion of its assets in any sector may be more affected by changes in that sector than would be a fund whose investments are not heavily weighted in any sector.

## 9. INDEMNIFICATION

Under the Fund's organizational documents, the officers and Trustees have been granted certain indemnification rights against certain liabilities that may arise out of performance of their duties to the Fund. The Fund has entered into a separate agreement with each Trustee that converts indemnification rights currently existing under the Fund's organizational documents into contractual rights that cannot be changed in the future without the consent of the Trustee. Additionally, in the normal course of business, the Fund may enter into contracts with service providers that contain a variety of indemnification clauses. The Fund's maximum exposure under these arrangements is dependent on future claims that may be made against the Fund and, therefore, cannot be estimated.

## 10. SUBSEQUENT DISTRIBUTIONS

Under the managed distribution plan, the Fund declared the following distributions to common shareholders:

DECLARATION DATE	RECORD DATE	PAYABLE DATE	PER SHARE AMOUNT
February 25, 2025	March 13, 2025	April 1, 2025	\$0.07724
March 28, 2025	April 11, 2025	May 1, 2025	0.07849

These distributions are not reflected in the accompanying financial statements.

## II. OPERATING SEGMENTS

The Fund has adopted FASB Accounting Standards Update 2023-07, *Segment Reporting (Topic 280) - Improvements to Reportable Segment Disclosures* ("ASU 2023-07"). Adoption of the standard impacted financial statement disclosures only and did not affect the Fund's financial position or the results of its operations. An operating segment is defined in Topic 280 as a component of a public entity that engages in business activities from which it may recognize revenues and incur expenses, has operating results that are regularly reviewed by the public entity's chief operating decision maker ("CODM") to make decisions about resources to be allocated to the segment and assess its performance, and has discrete financial information available. The President of the Fund acts as the Fund's CODM. For the periods presented, the Fund operated as a single operating segment. The CODM monitors the operating results of the Fund as a whole and the Fund's long-term strategic asset allocation from which it derives its revenue is determined as outlined in the Fund's prospectus which is executed by the Fund's portfolio management team. The portfolio composition, total return and expense ratios, and the components of total increase/decrease in net assets are used by the CODM to assess the segment's performance and to make resource allocation decisions for the Fund's single segment. This information is consistent with that presented within the Fund's financial statements. Segment assets are reflected on the accompanying Statement of assets and liabilities as "total assets" and significant segment revenue and expenses are listed on the accompanying Statement of operations.

## Other information

### Proxy voting information

A description of the policies and procedures used to determine how to vote proxies relating to portfolio securities is available, upon request, by calling **1-866-259-3305**, visiting our website at **allspringglobal.com**, or visiting the SEC website at **sec.gov**. Information regarding how the proxies related to portfolio securities were voted during the most recent 12-month period ended June 30 is available on the website at **allspringglobal.com** or by visiting the SEC website at **sec.gov**.

### Quarterly portfolio holdings information

The Fund files its complete schedule of portfolio holdings with the SEC for the first and third quarters of each fiscal year as an exhibit to its reports on Form N-PORT. Shareholders may view the filed Form N-PORT by visiting the SEC website at **sec.gov**. The Fund's portfolio holdings information is also available on our website at **allspringglobal.com**.

### Delaware statutory trust act – control share acquisitions

Because the Fund is organized as a Delaware statutory trust, it is subject to the control share acquisition statute (the "Control Share Statute") contained in Subchapter III of the Delaware Statutory Trust Act (the "DSTA"), which became automatically applicable to listed closed-end funds, such as the Fund, upon its effective date of August 1, 2022 (the "Effective Date").

The Control Share Statute provides for a series of voting power thresholds above which shares are considered control shares. The first such threshold is 10% or more, but less than 15%, of all voting power. Voting power is defined by the Control Share Statute as the power to directly or indirectly exercise or direct the exercise of the voting power of Fund shares in the election of trustees. Whether a voting power threshold is met is determined by aggregating the holdings of the acquirer as well as those of its "associates," as defined by the Control Share Statute.

Once a threshold is reached, an acquirer has no voting rights under the DSTA or the governing documents of the Fund with respect to shares acquired in excess of that threshold (i.e., the "control shares") unless approved by shareholders or exempted by the Fund's Board of Trustees. Approval by shareholders requires the affirmative vote of two-thirds of all votes entitled to be cast on the matter, excluding shares held by the acquirer and its associates as well as shares held by certain insiders of the Fund. The Control Share Statute provides procedures for an acquirer to request a shareholder meeting for the purpose of considering whether voting rights shall be accorded to control shares. Further approval by the Fund's shareholders would be required with respect to additional acquisitions of control shares above the next applicable threshold level. In addition, the Fund's Board of Trustees is permitted, but not obligated to, exempt specific acquisitions or classes of acquisitions of control shares, either in advance or retroactively.

The Control Share Statute does not retroactively apply to acquisitions of shares that occurred prior to the Effective Date. However, such shares will be aggregated with any shares acquired after the Effective Date for purposes of determining whether a voting power threshold is exceeded, resulting in the newly acquired shares constituting control shares.

The Control Share Statute requires shareholders to disclose to the Fund any control share acquisition within 10 days of such acquisition and, upon request, to provide any information that the Fund's Board of Trustees reasonably believes is necessary or desirable to determine whether a control share acquisition has occurred.

The foregoing is only a summary of certain aspects of the Control Share Statute. Shareholders should consult their own legal counsel to determine the application of the Control Share Statute with respect to their shares of the Fund and any subsequent acquisitions of shares.

## Board of trustees and officers

The following table provides basic information about the Board of Trustees (the “Trustees”) and Officers of the Fund. Each of the Trustees and Officers listed below acts in identical capacities for each fund in the Allspring family of funds, which consists of 91 mutual funds comprising the Allspring Funds Trust, Allspring Variable Trust, Allspring Master Trust, and four closed-end funds, including the Fund (collectively the “Fund Complex”). The mailing address of each Trustee and Officer is 1415 Vantage Park Drive, 3rd Floor, Charlotte, NC 28203. The Board of Trustees is classified into three classes of which one is elected annually. Each Trustee serves a three-year term concurrent with the class from which the Trustee is elected. Each Officer serves an indefinite term.

### Independent Trustees

NAME AND YEAR OF BIRTH	POSITION HELD AND LENGTH OF SERVICE*	PRINCIPAL OCCUPATIONS DURING PAST FIVE YEARS OR LONGER	CURRENT OTHER PUBLIC COMPANY OR INVESTMENT COMPANY DIRECTORSHIPS

## Automatic dividend reinvestment plan

All common shareholders are eligible to participate in the Automatic Dividend Reinvestment Plan ("the Plan"). Pursuant to the Plan, unless a common shareholder is ineligible or elects otherwise, all cash dividends and capital gains distributions are automatically reinvested by Computershare Trust Company, N.A., as agent for shareholders in administering the Plan ("Plan Agent"), in additional common shares of the Fund. Whenever the Fund declares an ordinary income dividend or a capital gain dividend (collectively referred to as "dividends") payable either in shares or in cash, nonparticipants in the Plan will receive cash, and participants in the Plan will receive the equivalent in common shares. The shares are acquired by the Plan Agent for the participant's account, depending upon the circumstances described below, either (i) through receipt of additional unissued but authorized common shares from the Fund ("newly issued common shares") or (ii) by purchase of outstanding common shares on the open-market (open-market purchases) on the NYSE Amex or elsewhere. If, on the payment date for any dividend or distribution, the net asset value per share of the common shares is equal to or less than the market price per common share plus estimated brokerage commissions ("market premium"), the Plan Agent will invest the amount of such dividend or distribution in newly issued shares on behalf of the participant. The number of newly issued common shares to be credited to the participant's account will be determined by dividing the dollar amount of the dividend by the net asset value per share on the date the shares are issued, provided that the maximum discount from the then current market price per share on the date of issuance may not exceed 5%. If on the dividend payment date the net asset value per share is greater than the market value ("market discount"), the Plan Agent will invest the dividend amount in shares acquired on behalf of the participant in open-market purchases. There will be no brokerage charges with respect to shares issued directly by the Fund as a result of dividends or capital gains distributions payable either in shares or in cash. However, each participant will pay a pro rata share of brokerage commissions incurred with respect to the Plan Agent's open-market purchases in connection with the reinvestment of dividends. The automatic reinvestment of dividends and distributions will not relieve participants of any federal, state or local income tax that may be payable (or required to be withheld) on such dividends. All correspondence concerning the Plan should be directed to the Plan Agent at P.O. Box 505000, Louisville, Kentucky 40233 or by calling 1-800-730-6001.
