All investing involves risks, including the possible loss of principal. Stock values fluctuate in response to the activities of individual companies and general market and economic conditions. Foreign investments may be subject to lower liquidity; greater price volatility; and risks related to adverse political, regulatory, market, or economic developments and may be affected by changes in foreign currency exchange rates. Style factor exposure, including but not limited to beta, growth, value, liquidity, etc., can perform differently and shift in and out of favor through a market cycle.

Investment objective

The Large Select Growth Managed Account seeks long-term capital appreciation by investing primarily in large-cap companies on the "right side of change," with robust and sustainable growth.

Investment process

Long-term performance starts with identifying companies on the "right side of change."

- Right side of change: We seek to provide clients with long-term compounding through robust growth businesses on the "right side of change."
- Fundamental "edge": Innovative growth companies are frequently mispriced in equity markets. We seek to capture the market's mispricing of future growth through all-cap bottom-up fundamental research. This provides unique insights into a company's true growth rate.
- Balanced risk management: Portfolio construction is structured to emphasize diversification and balance. This is achieved through a barbell allocation to "core growth" and "developing growth" holdings that allow for style-pure portfolios with a balanced risk and return profile.
- Sell discipline: A quantified sell discipline uniquely positions the team to manage risk through both its buy and sell decisions.

Annualized returns (%)

	3 months ¹	YTD ¹	1 year	3 years	5 years	10 years	Since inception
Composite — Pure Gross ² (incept 8-1-04)	-8.16	-8.16	1.28	5.03	14.22	13.18	10.83
Composite — Net ³	-8.86	-8.86	-1.75	1.89	10.85	9.85	7.56
Russell 1000® Growth Index	-10.00	-10.00	7.72	10.09	20.08	15.12	12.06

Performance shown prior to January 1, 2005 represents results achieved by the Growth Equity Team prior to joining Allspring. Although the composition of the investment team has evolved since the strategy's inception date, the team has managed the strategy in a consistent manner over time.

The Russell 1000® Growth Index measures the performance of those Russell 1000 companies with higher price/book ratios and higher forecasted growth values. You cannot invest directly in an index.

Performance is historical and does not guarantee future results. For more information, please refer to the attached GIPS composite report. Sector weightings, portfolio characteristics, holdings, and return and risk characteristics are based on a representative account within the Allspring Global Investments composite. Allspring Global Investments provides the sub-advisory services for the Allspring Funds Management retail managed account product. **1.** Returns of less than one year are not annualized. **2.** The gross performance data is a pure gross-of-fees return and does not reflect the deduction of any management fees or transaction costs. **3.** The net return is calculated based on the gross returns reduced by a typical 3% maximum annual wrap fee that could be charged to an account. **4.** Sector weightings may not add up to 100% due to rounding.

Allspring Global Investments (Allspring) claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. Allspring has been independently verified for the periods January 1, 1997 - December 31, 2023. The verification reports are available upon request. A firm that claims compliance with the GIPS standards must establish policies and procedures for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm's policies and procedures related to composite and pooled fund maintenance, as well as the calculation, presentation and distribution of performance, have been designed in compliance with the GIPS standards and have been implemented on a firm-wide basis. Verification does not provide assurance on the accuracy of any specific performance report.

For the purpose of complying with GIPS, the GIPS firm is defined as Allspring. Since the GIPS firm's creation in 1996, the firm has acquired a number of investment teams and/or assets through mergers or acquisitions which include assets and/or investment teams from Wells Capital Management, EverKey Global Partners, Wells Fargo Asset Management (International) Limited, Analytic Investors, LLC, Golden Capital Management, LLC, Wells Fargo Asset Management Luxembourg S.A. and Wells Fargo Funds Management, LLC (WFFM).

The Large Select Growth Managed Account Composite (Composite) contains all discretionary client portfolios typically investing in a focused portfolio of companies that the portfolio managers believe have superior growth prospects. The portfolio managers seek to identify companies that have the prospect for improving sales and earnings growth rates, enjoy a competitive advantage and that are believed to have effective management with a history of making investments that are in the best interests of shareholders. The portfolio managers take a surround the company approach by surveying a company's vendors, distributors, competitors and customers to obtain multiple perspectives that help them make better investment decisions. The portfolio composition is closely monitored because the portfolio managers believe that constructing a well-diversified portfolio consisting of core holdings, developing situations, and valuation opportunities reduces risk while enhancing return. Market capitalizations of these companies will span the capitalization spectrum but will tend to be in the large capitalization range. Also, the portfolio managers pay close attention to several risk parameters, such as underlying growth fundamentals and valuation levels. Portfolios tend to be fully invested, but cash may be held in modest amounts to manage risk during adverse market conditions. Investment results are measured versus the Russell 1000® Growth Index. The portfolios in this discipline have been sub-advised by Allspring Global Investments, LLC since inception. The Composite was included in the Wells Fargo Managed Account Services (WF MAS) GIPS Firm from inception through June 30, 2018. From a GIPS firm perspective, WF MAS joined Allspring on July 1, 2018, and as such the "Total Firm Assets" are only applicable since that date. The Composite creation date is July 1, 2004; the Composite inception date is August 1, 2004. Wrap accounts represent 100% of the Composite assets since inception. On May 31, 2024, Senior Portfolio Manager Bob Gruendyke was added to the investment team.

Composite returns are expressed in US dollars and reflect the reinvestment of dividends and other earnings. A wrap-fee account is an account under which a client is charged a specified fee or fees not based directly on transactions in the client's account for investment advisory services and execution of client transactions. A typical wrap-fee account client pays an all-inclusive "wrap fee" for the advisory, brokerage, custody and other services associated with the account. Net returns are net of the maximum wrap account fee, which includes commissions and transaction costs and are calculated by deducting 1/12th of the annual wrap fee from the Composite's monthly pure gross return. Actual fees may vary depending on the applicable fee schedule. The maximum fee used for the portfolios in the strategy is 3.00%. Some accounts in the Composite may pay commissions in addition to the wrap fee. Additional information regarding Allspring's policies for valuing investments, calculating performance, and preparing GIPS Composite Reports is available upon request. A list of composite descriptions, a list of limited distribution pooled fund descriptions, and a list of broad distribution pooled funds are available upon request.

Internal dispersion is the equal weighted standard deviation of the annual pure gross returns of all accounts included in the Composite for the entire year. For years where there are 5 or fewer accounts in the Composite for the entire year, dispersion is not presented as it is not a meaningful statistical calculation. The 3-year annualized standard deviation measures the variability of the pure gross Composite returns and the index returns over the preceding 36-month time period.

Actual performance results may differ from Composite returns, depending on the size of the account, investment guidelines and/or restrictions, inception date and other factors. Performance for some accounts in this Composite may be calculated by third parties that use different security pricing and performance methodologies. **Past performance is not indicative of future results.** As with any investment vehicle, there is always the potential for gains as well as the possibility of losses. Allspring Managed Account Services (the firm) is a unit within Allspring Global Investments and is responsible for the management and administration of the Allspring Funds Management, LLC, retail separately managed account portfolios (wrap portfolios). Allspring Funds Management acts as a discretionary manager for separately managed accounts ("SMA") and as a non-discretionary model provider in a variety of managed account or wrap fee programs ("MA Programs") sponsored by third party investment advisers, broker-dealers, or other financial services firms (a "Sponsor"). When acting as non-discretionary model provider, Allspring Funds Management responsibility is limited to providing non-discretionary investment recommendations (in the form of model portfolios) to the Sponsor. The Sponsor may use these recommendations in connection with its management of MA Program accounts. In these "model-based" programs, the Sponsor serves as the investment manager and maintains trade implementation responsibility.

Allspring Global Investments™ is the trade name for the asset management firms of Allspring Global Investments Holdings, LLC, a holding company indirectly owned by certain private funds of GTCR LLC and Reverence Capital Partners, L.P. These firms include but are not limited to Allspring Global Investments, LLC, and Allspring Funds Management, LLC. Certain products managed by Allspring entities are distributed by Allspring Funds Distributor, LLC (a broker-dealer and Member FINRA/SIPC). MID-25Q1-MAFS002
