The Management Company in turn sub-delegates such functions to Allspring Funds Management, LLC ("**Funds Management**"), which serves as the Investment Manager of the Sub-Funds. Funds Management in turn sub-delegates the portfolio management of the Sub-Funds to one or both of Allspring Global Investments, LLC ("**AGI LLC**") and Allspring Global Investments (UK) Limited ("**AGI UK**") which serve as the Sub-Investment Manager(s) to the Sub-Funds, as indicated in the chart below.

As from 1 April 2026, the appointment of Funds Management as Investment Manager and the appointment of AGI LLC and AGI UK as Sub-Investment Managers will be terminated and AGI LLC and AGI UK will be appointed as the Investment Managers to the Sub-Funds for which they currently serve as Sub-Investment Managers. Accordingly, the Fund's prospectus will be updated to reflect the changes mentioned above.

Please note that the above changes will have no effect on the portfolio management, investment objectives, policies and strategies of the Sub-Funds.

II. CHANGE OF PROVISION OF FACILITIES SERVICES

According to Article 92 of the Directive 2009/65/EC of 13 July 2009, as amended by Directive (EU) 2019/1160 of 20 June 2019, the Fund makes available, in each Member State where it intends to market its shares, facilities to perform the tasks required by the Directives.

Effective 1 April 2026, the required tasks will be provided by a combination of efforts from the Fund, Brown Brothers Harriman Luxembourg S.C.A. in its capacity as the Fund's Administrator, Registrar and Transfer Agent, Allspring Global Investments Luxembourg S.A. in its capacity as the Fund's Management Company, and Arendt Regulatory & Consulting S.A.

III. EUR INVESTMENT GRADE CREDIT FUND and EUR SHORT DURATION CREDIT FUND

Effective 1 April 2026, each Sub-Fund listed above will undergo a change to include sovereign issuers in the Allspring ESGiQ framework utilised by the Sub-Fund which means that sovereign issuers will be required to have an ESGiQ rating. The investment strategy of each Sub-Fund has

been revised as follows to reflect those changes (deletions are underlined and additions are in **bold**):

- The Sub-Fund will utilise the Allspring ESGiQ (ESG Information Quotient), a proprietary rating system created to assess ESG risk and materiality. The methodology enhances data from third-party providers with Allspring’s research analysts’ in-depth sector knowledge and expertise. The Sub-Fund will invest at least two-thirds of its net assets in securities which have ESGiQ ratings that reflect high or leading ESG issuers and will exclude low or lagging ESG issuers. Sovereign issuers, Securitised instruments, municipal securities, cash and cash equivalents, derivatives, and investments in underlying funds, fixed income instruments linked to the performance of an index, ETF, mutual fund or commodity, and equity securities received in connection with issuer debt restructuring will not be required to have an ESGiQ score rating.

In addition, please note that the changes above will also be reflected in ‘Section 3 — SFDR regulatory technical standards (RTS) Disclosure Requirements’ of the prospectus of the Fund.

IV. CLIMATE TRANSITION GLOBAL HIGH YIELD FUND

Effective 1 April 2026, the Sub-Fund will undergo the following changes:

- a) Change investment objective/strategy to remove the ‘climate transition’ approach. With this change, the following disclosure will be removed;
 - The Sub-Investment Managers will target to decarbonise the Sub-Fund by 2050. This is intended to be achieved by setting a decarbonisation profile for the Sub-Fund at inception that has a carbon intensity that is at least 30% lower than the ICE BofA Developed Markets High Yield Constrained Index (USD Hedged). The net assets within the portfolio are then managed such that the decarbonisation profile will decline annually with a trajectory to decarbonise by 2050. The Sub-Investment Managers will utilise carbon intensity data from a third party ESG data provider.
- b) Change its name to “**Global High Yield Fund**” in order to better reflect the revised investment strategy of the Sub-Fund;
- c) Change the strategy so that it employs the Allspring ESGiQ framework and ratings. Accordingly, its investment strategy will be revised to include the following additions:
 - **The Sub-Fund will utilise the Allspring ESGiQ (ESG Information Quotient), a proprietary rating system created to assess ESG risk and materiality. The methodology enhances data from third-party providers with Allspring’s research analysts’ in-depth sector knowledge and expertise. The Sub-Fund will invest at least two-thirds of its net assets in securities which have ESGiQ ratings that reflect high or leading ESG issuers and will exclude low or lagging ESG issuers. Securitised instruments, municipal securities, cash and cash equivalents, derivatives, investments in underlying funds, fixed income instruments linked to the performance of an index, ETF, mutual fund or commodity, and equity securities received in connection with issuer debt restructuring will not be required to have an ESGiQ rating.**
 - **Further information on Allspring’s proprietary ESGiQ is detailed in the Sustainability-related Disclosures which is available under <https://www.allspringglobal.com/assets/edocs/lux/legal/lux-fund-sustainability-related-disclosures.pdf>.**

In addition, please note that the changes above will also be reflected in ‘Section 3 — SFDR regulatory technical standards (RTS) Disclosure Requirements’ of the prospectus of the Fund.

V. U.S. SHORT-TERM HIGH YIELD BOND FUND

Effective 1 April 2026, the Sub-Fund will change its name to “**U.S. Short-Term High Income Fund**” in order to better align with other sub-funds that employ similar investment strategies.

VI. CLIMATE TRANSITION GLOBAL EQUITY FUND and GLOBAL EQUITY ENHANCED INCOME FUND

Effective 1 April 2026, the disclosure in the prospectus for each sub-fund listed above will be updated to provide additional transparency regarding the investment process and to harmonize disclosure across sub-funds managed by the same investment team.

It is further rectified, for the **Climate Transition Global Equity Fund** that the investment universe of the Sub-Fund is not constrained to the MSCI All Country World Index.

These clarifications do not affect the investment objectives, policies, strategies or portfolio management of the Sub-Funds.

VII. EMERGING MARKETS EQUITY FUND, EMERGING MARKETS EQUITY ADVANTAGE FUND, GLOBAL SMALL CAP EQUITY FUND AND U.S. ALL CAP GROWTH FUND

Shareholders are informed of a clarification in the pre-contractual disclosure in the Annex of the prospectus for each sub-fund listed above which aims at better reconciling the binding elements and the asset allocation sections. The asset allocation currently refers to an alignment of “at least 64%” with the environmental and/or social characteristics promoted. Given that this is true for some of the binding elements, but that for other binding elements the alignment is 80%, the wording in the planned asset allocation section is amended as follows:

“The planned asset allocation of the investments of the Sub-Fund will be at least 80% in alignment with one or more of the environmental/social characteristics promoted.”

This clarification does not change the investment policy or ESG promotion of the Sub-Funds concerned.

Please note that the above changes (i) will not lead to an increase of the fees to be borne by the aforementioned Sub-Funds, and (ii) will not materially prejudice any of your rights or interests.

Shareholders in the Sub-Funds who consider that their investment requirements are no longer met as a result of the changes mentioned above may request redemption of their shares, free of any applicable redemption charges, until 10 p.m. Luxembourg time on 31 March 2026.

The above changes will be reflected in a new version of the prospectus of the Fund dated 1 April 2026.
