Allspring (Lux) Worldwide Fund - Climate Transition Global Buy and Maintain Fund, a Sub-Fund of Allspring (Lux) Worldwide Fund Class I (GBP) Shares - distr. (LU2562659404)

Management Company: Allspring Global Investments Luxembourg S.A.

Objectives and Investment Policy

The Sub-Fund seeks total return, maximising investment income while preserving capital by investing, under normal circumstances, at least two-thirds of its total assets in credit debt securities rated investment grade (i.e., BBB- and/or Baa- or equivalent and above from Standard & Poor's, Moody's or Fitch), which may be classified as Green Bonds, at the time of purchase issued by corporate issuers domiciled anywhere in the world. The Sub-Fund promotes environmental and/or social characteristics but does not have a sustainable investment objective.

The Sub-Fund invests up to one-third of its total assets in debt securities rated below investment grade (excluding securities rated as distressed or lower) at the time of purchase, which may be classified as Green Bonds, as well as agencies and Supranationals, taxable municipals and sovereign bonds. The Sub-Fund will not invest in distressed or defaulted securities (at the time of the purchase). The Sub-Fund may invest up to 5% of its total assets in contingent convertible bonds. The Sub-Fund may invest up to 30% of its total assets in perpetual bonds. The Sub-Fund may invest up to 15% of its total assets in emerging markets. The Sub-Fund will target to decarbonise by 2050. This is intended to be achieved by setting a decarbonisation profile for the Sub-Fund at inception that has a carbon intensity that is at least 30% lower than the ICE BofA Sterling Corporate Index. The assets within the Sub-Fund are then managed such that the decarbonisation profile will decline annually with a trajectory to decarbonise by 2050.

Through the use of a negative screening process, the Sub-Fund seeks to exclude certain securities in accordance with its exclusion policy. A copy of the methodology and list of excluded investments (including the revenue thresholds) is available under allspringglobal.com. Shareholders may also request a copy from the Fund or the Management Company.

The Sub-Fund will hedge non-GBP denominated investments to the GBP. The Sub-Fund may also use futures, forward contracts, options, or swap agreements, as well as other derivatives, for hedging, efficient portfolio management or investment purposes. The Sub-Fund focuses on bottom-up credit research with a focus on well-underwritten credits and relative value, with security selection as the primary driver of returns. This share class intends to distribute dividends net of expenses monthly.

You may sell your shares on each business day when banks in Luxembourg are open for normal business and the New York Stock Exchange is open for trading (a "Business Day").

The Sub-Fund is actively managed but uses the ICE BofA Sterling Corporate Index as a reference for selecting investments and performance comparison. The investments of the Sub-Fund may deviate significantly from the components of and their respective weightings in the benchmark.

Risk and Reward Profile

This rating system is based on the volatility of the Sub-Fund's returns over the past 5 years, using returns for an appropriate index for periods before the start of the class. Please note past returns may not be a reliable indicator of the future risk and reward profile of the Sub-Fund; the rating may change over time based on future returns; and category 1 does not mean a risk-free investment.

Lower Risk

< Typically Lower Rewards

Higher Risk

Typically Higher Rewards >

1	2	3	4	5	6	7
---	---	---	---	---	---	---

The class is in category 4 because the average amount returns varied each year over the past 5 years was equal to or above 5.0% and less than 10.0%.

The following additional risks may impact the Sub-Fund's returns:

Counter-Party Risk - The Sub-Fund may incur a loss if the other party to an investment contract, such as a repurchase or reverse repurchase agreement or certain derivative contracts, fails to fulfill its contractual obligation to the Sub-Fund.

Custodial and Sub-Custodial Risk - Since the Sub-Fund may invest in markets where custodian and/or settlement systems are not fully developed, the Sub-Fund's assets may be exposed to risk in circumstances whereby the custodian will have limited or no liability.

Debt Securities Risk - The issuer of a debt security may fail to pay interest or principal when due, and changes in market interest rates may reduce the value of debt securities or reduce the Sub-Fund's returns.

Derivatives Risk - The use of derivatives such as futures, options and swap agreements, can lead to losses, including those magnified by leverage, particularly when derivatives are used to enhance return rather than offset risk. In addition, there may be an absence of a liquid market for any particular instrument at any particular time.

Emerging Markets Risk - The risks for investments in non-U.S. securities are greater in emerging markets, which can be more vulnerable to recessions, currency volatility, liquidity risk, inflation and market failure.

The Sub-Fund may not achieve its objective and/or you could lose money on your investment in the Sub-Fund. For more information about the Sub-Fund's risks, please see "Risks" and "Risk Management Processes" in the prospectus, which is available at allspringglobal.com.

Charges for this Sub-Fund

The charges you pay are used to pay the costs of running the Sub-Fund, including the costs of marketing and distribution. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry Charge	None
Exit Charge	None
This is the maximum that might be taken out of your money before it is invested.	

Charges taken from the Sub-Fund over a year	
Ongoing Charges	0.25%
Charges taken from the Sub-Fund under certain specific conditions	
Performance Fee	None

The **entry** and **exit charges** shown are the highest possible charges you would pay. Please consult your advisor or distributor to find out your actual charges, which might be less. The **ongoing charges** reflect the total expense ratio cap put in place by the Investment Manager. Any costs that would cause this cap to be exceeded will be absorbed by the Investment Manager. The annual report for each financial year will include details on the effective charges made. **Ongoing charges** may vary from year to year. The **ongoing charges** do not include the portfolio transaction costs, except in the case of an entry/exit charge paid by the Sub-Fund when buying or selling units in another collective investment undertaking.

For more information about the Sub-Fund's charges, please see "Fees and Expenses" in the prospectus.

Past Performance

Past performance is not a guide to future performance. Performance calculations are based on the net asset value, include ongoing charges but exclude entry and exit charges, if any, and are calculated in GBP with income reinvested. The base currency of the Sub-Fund is GBP.

Sub-Fund launch date: 2023. Share Class launch date: 2023.

The chart shows performance against the ICE BofA Sterling Corporate Index (GBP). The Sub-Fund does not track the index.
