Allspring (Lux) Worldwide Fund - EUR Short Duration Credit Fund,
a Sub-Fund of Allspring (Lux) Worldwide Fund
Class X (USD) Shares - acc. (hedged) (LU1963835811)
Management Company: Allspring Global Investments Luxembourg S.A.

Objectives and Investment Policy

The Sub-Fund seeks to maximize investment income while preserving capital, by investing at least two-thirds of its total assets in Euro-denominated credit debt securities, rated investment grade at the time of purchase, issued by sovereign or corporate issuers. Investment grade means bearing a credit rating of BBB- and/or Baa3 or equivalent and above from any one of the following credit rating agencies: Standard & Poor's, Moody's or Fitch, where an investment is not rated by either Standard & Poor's, Moody's or Fitch and where the Sub-Investment Manager consults with such other external sources that are available and uses its professional judgement, supported by at least one external opinion that such investment is of investment grade rating. While the Sub-Fund may purchase securities of any maturity or duration, under normal circumstances, its average weighted duration is expected to be up to 3.5 years or less. The Sub-Fund promotes environmental and/or social characteristics but does not have a sustainable investment objective. The Sub-Fund may invest up to one-third of its total assets in currency-hedged non-Euro-denominated debt securities and foreign agencies; up to 10% of its total assets in investment grade asset-backed securities including mortgage-backed securities and commercial mortgage-backed securities; up to 10% of its total assets in debt securities rated below investment grade at the time of purchase; and up to 7.5% of its total assets in contingent convertible bonds. The Sub-Fund will not invest in assets rated below B-/B3. In the case of a downgrade on an existing investment below B-/B3, the downgraded assets must be sold by the Sub-Fund in an orderly and timely manner in accordance with the general applicable principles. The Sub-Fund will utilise the Allspring ESGiQ (ESG Information Quotient), a proprietary rating system created to assess ESG risk and materiality. The Sub-Fund will invest at least two-thirds of its total assets in issuers that have an overall ESGiQ score of 3+ or higher and will exclude issuers that have an ESGiQ score that is rated 2 or lower or not rated at all. Sovereign issuers, cash, derivatives and investments in underlying funds will not be required to have an ESGiQ score. The Sub-Fund targets to have a carbon intensity that is lower than the Bloomberg Euro Aggregate Corporate Bonds 1-5 Yr. Index (EUR Unhedged). Through the use of a negative screening process, the Sub-Fund seeks to exclude certain securities in accordance with its exclusion policy. A copy of the methodology and list of excluded investments (including the revenue thresholds) is available under allspringglobal.com. Shareholders may also request a copy from the Fund or the Management Company. The Sub-Fund may also use futures, forward contracts, options, or swap agreements, as well as other derivatives, for hedging, efficient portfolio management or investment purposes. The Sub-Fund's fundamental credit research combined with active top-down allocation decisions within a controlled risk framework seek to generate superior investment returns. This share class does not distribute dividends. Income is reinvested in the Sub-Fund. This share class will seek to be 100% hedged against the base currency of the Sub-Fund with the objective of minimising currency risk exposure. It may not be possible to always hedge the class 100% against fluctuations of the reference currency. You may sell your shares on each business day when banks in Luxembourg are open for normal business and the New York Stock Exchange is open for trading (a "Business Day").

The Sub-Fund is actively managed but uses the Bloomberg Euro Aggregate Corporate Bonds 1-5 Yr. Index (EUR Unhedged) for performance comparison. The investments of the Sub-Fund may deviate significantly from the components of and their respective weightings in the benchmark.

Risk and Reward Profile

This rating system is based on the volatility of the Sub-Fund's returns over the past 5 years. Please note past returns may not be a reliable indicator of the future risk and reward profile of the Sub-Fund; the rating may change over time based on future returns; and category 1 does not mean a risk-free investment.

Lower Risk

< Typically Lower Rewards

Higher Risk

Typically Higher Rewards >

1	2	3	4	5	6	7
---	---	---	---	---	---	---

The class is in category 3 because the average amount returns varied each year over the past 5 years was equal to or above 2.0% and less than 5.0%.

The following additional risks may impact the Sub-Fund's returns:

Counter-Party Risk - The Sub-Fund may incur a loss if the other party to an investment contract, such as a repurchase or reverse repurchase agreement or certain derivative contracts, fails to fulfill its contractual obligation to the Sub-Fund.

Debt Securities Risk - The issuer of a debt security may fail to pay interest or principal when due, and changes in market interest rates

may reduce the value of debt securities or reduce the Sub-Fund's returns.

Derivatives Risk - The use of derivatives, such as futures, options and swap agreements, can lead to losses, including those magnified by leverage, particularly when derivatives are used to enhance return rather than offset risk. In addition, there may be an absence of a liquid market for any particular instrument at any particular time.

The Sub-Fund may not achieve its objective and/or you could lose money on your investment in the Sub-Fund. For more information about the Sub-Fund's risks, please see "Risks" and "Risk Management Processes" in the prospectus, which is available at allspringglobal.com.
