Allspring (Lux) Worldwide Fund - Global High Yield Fund (formerly Climate Transition Global High Yield Fund), a Sub-Fund of Allspring (Lux) Worldwide Fund Class S (USD) Shares - acc. (LU2690008219) Management Company: Allspring Global Investments Luxembourg S.A.

Objectives and Investment Policy

The Sub-Fund seeks total return, by investing, under normal circumstances, at least two-thirds of its net assets in credit debt securities rated below-investment grade (i.e., BB+ or lower by Standard & Poor's or Ba1 or lower by Moody's or an equivalent quality rating from another internationally recognised credit ratings organisation or are deemed by the Investment Managers to be of comparable quality) at the time of purchase, which may include Green Bonds and perpetual bonds, issued by corporate issuers domiciled anywhere in the world. The Sub-Fund promotes environmental and/or social characteristics but does not have a sustainable investment objective.

The Sub-Fund will invest no more than 10% of its net assets in securities issued or guaranteed by a single government issuer. The Sub-Fund may also invest up to 10% of its net assets in equity securities including those acquired as a result of an issuer's compulsory conversion of its debt instruments into equity, participation in a rights offering, or the Investment Managers' decision to convert convertible debt instruments into equities.

The Sub-Fund may invest up to 15% of its net assets in contingent convertible bonds.

The Sub-Fund may invest no more than 10% of its net assets in unrated, distressed or defaulted debt securities. Distressed securities are those debt securities rated below Caa2 by Moody's or CCC by Standard & Poor's. Defaulted securities are those debt securities rated C by Moody's or D by Standard & Poor's. The Sub-Fund will utilise the Allspring ESGiQ (ESG Information Quotient), a proprietary rating system created to assess ESG risk and materiality. The methodology enhances data from third-party providers with Allspring's research analysts' in-depth sector knowledge and expertise. The Sub-Fund will invest at least two-thirds of its net assets in securities which have ESGiQ ratings that reflect high or leading ESG issuers and will exclude low or lagging ESG issuers. Securitised instruments, municipal securities, cash and cash equivalents, derivatives, investments in underlying funds, fixed income instruments linked to the performance of an index, ETF, mutual fund or commodity, and equity securities received in connection with issuer debt restructuring will not be required to have an ESGiQ rating.

Through the use of a negative screening process, the Sub-Fund seeks to exclude certain securities in accordance with its exclusion policy. A copy of the methodology and list of excluded investments (including the revenue thresholds) is available under allspringglobal.com. Shareholders may also request a copy from the fund or the Management Company.

The Sub-Fund will hedge non-US Dollar-denominated investments to the US Dollar. The Sub-Fund may also use futures, forward contracts, options, or swap agreements, as well as other derivatives, for hedging, efficient portfolio management or investment purposes.

The Sub-Fund focuses on bottom-up credit research with a focus on well-underwritten credits and relative value, with security selection as the primary driver of returns, and seeks to balance income while targeting a competitive yield to drive total returns.

This share class does not distribute dividends. Income is reinvested in the Sub-Fund.

You may sell your shares on each business day when banks in Luxembourg are open for normal business and the New York Stock Exchange is open for trading (a "Business Day").

The Sub-Fund is actively managed but uses the ICE BofA Developed Markets High Yield Constrained Index (USD Hedged) as a reference for selecting investments and for performance comparison. The investments of the Sub-Fund may deviate significantly from the components of and their respective weightings in the benchmark.

Risk and Reward Profile

This rating system is based on the volatility of the Sub-Fund's returns over the past 5 years, using returns for an appropriate index for periods before the start of the class. Please note past returns may not be a reliable indicator of the future risk and reward profile of the Sub-Fund; the rating may change over time based on future returns; and category 1 does not mean a risk-free investment.

Lower Risk

< Typically Lower Rewards

Higher Risk

Typically Higher Rewards >

1	2	3	4	5	6	7
---	---	---	---	---	---	---

The class is in category 3 because the average amount returns varied each year over the past 5 years was equal to or above 2.0% and less than 5.0%.

The following additional risks may impact the Sub-Fund's returns:

Counter-Party Risk - The Sub-Fund may incur a loss if the other party to an investment contract, such as a repurchase or reverse repurchase agreement or certain derivative contracts, fails to fulfill its contractual obligation to the Sub-Fund.

Custodial and Sub-Custodial Risk - Since the Sub-Fund may invest in markets where custodian and/or settlement systems are not fully developed, the Sub-Fund's assets may be exposed to risk in circumstances whereby the custodian will have limited or no liability.

Debt Securities Risk - The issuer of a debt security may fail to pay interest or principal when due, and changes in market interest rates may reduce the value of debt securities or reduce the Sub-Fund's returns.

Derivatives Risk - The use of derivatives such as futures, options and swap agreements, can lead to losses, including those magnified by leverage, particularly when derivatives are used to enhance return rather than offset risk. In addition, there may be an absence of a liquid market for any particular instrument at any particular time.

The Sub-Fund may not achieve its objective and/or you could lose money on your investment in the Sub-Fund. For more information about the Sub-Fund's risks, please see "Risks" and "Risk Management Processes" in the prospectus, which is available at allspringglobal.com.

Charges for this Sub-Fund

The charges you pay are used to pay the costs of running the Sub-Fund, including the costs of marketing and distribution. These charges reduce the potential growth of your investment.

ONE-OFF CHARGES TAKEN BEFORE OR AFTER YOU INVEST		CHARGES TAKEN FROM THE SUB-FUND OVER A YEAR	
Entry Charge	None	Ongoing Charges	0.40%
Exit Charge	None	CHARGES TAKEN FROM THE SUB-FUND UNDER CERTAIN SPECIFIC CONDITIONS	
This is the maximum that might be taken out of your money before it is invested.		Performance Fee	None

The **entry** and **exit charges** shown are the highest possible charges you would pay. Please consult your advisor or distributor to find out your actual charges, which might be less. The **ongoing charges** figure is based on the expenses for the period ending August 2025. **Ongoing charges** may vary from year to year. The **ongoing charges** do not include the portfolio transaction costs, except in the case of an entry/exit charge paid by the Sub-Fund when buying or selling units in another collective investment undertaking.

For more information about the Sub-Fund's charges, please see "Fees and Expenses" in the prospectus.

Past Performance

Past performance is not a guide to future performance. Performance calculations are based on the net asset value, include ongoing charges but exclude entry and exit charges, if any, and are calculated in USD with income reinvested. The base currency of the Sub-Fund is USD.

Sub-Fund launch date: 2023. Share Class launch date: 2023.

The chart shows performance against the ICE BofA Developed Markets High Yield Constrained Index (USD Hedged). The Sub-Fund does not track the index.
