## What is this product?

<b>Type</b>	Allspring (Lux) Worldwide Fund (the "Fund") is a Societe d'Investissement à Capital Variable (SICAV) composed of several separate sub-funds organised under the laws of Luxembourg.
<b>Term</b>	The Fund has been established for an indefinite period of time. The PRIIP Manufacturer reserves the right to liquidate the Fund, subject to approval by the Board of Directors.

Allspring (Lux) Worldwide Fund - Climate Transition Global Investment Grade Credit Fund (the "Sub-Fund") seeks total return, maximising investment income while preserving capital by investing, under normal circumstances, at least two-thirds of its total assets in credit debt securities rated investment grade (i.e., BBB- and/or Baa- or equivalent and above from Standard & Poor's, Moody's or Fitch) at the time of purchase issued by corporate issuers domiciled anywhere in the world. The Sub-Fund promotes environmental and/or social characteristics but does not have a sustainable investment objective. The Sub-Fund invests up to one-third of its total assets in debt securities rated below investment grade (excluding securities rated as distressed or lower) at the time of purchase as well as agencies and Supranationals, taxable municipals, sovereign bonds and up to 10% of its total assets in asset-backed securities including commercial mortgage-backed securities. The Sub-Fund may invest up to 5% of its total assets in contingent convertible bonds. The Sub-Fund will target to decarbonise by 2050. This is intended to be achieved by setting an initial decarbonisation profile for the Sub-Fund that has a carbon intensity that is at least 30% lower than the Bloomberg Global Aggregate Corporate Index (USD Hedged). The assets within the Sub-Fund are then managed such that the decarbonisation profile will decline annually with a trajectory to decarbonise by 2050. Through the use of a negative screening process, the Sub-Fund seeks to exclude certain securities in accordance with its exclusion policy. A copy of the methodology and list of excluded investments (including the revenue thresholds) is available under [allspringglobal.com](https://www.allspringglobal.com). Shareholders may also request a copy from the Fund or the Management Company.

## Objectives

The Sub-Fund will hedge non-US Dollar-denominated investments to the US Dollar. The Sub-Fund may also use futures, forward contracts, options, or swap agreements, as well as other derivatives, for hedging, efficient portfolio management or investment purposes.

The Sub-Fund focuses on bottom-up credit research with a focus on well-underwritten credits and relative value, with security selection as the primary driver of returns, and seeks to balance income while targeting a competitive yield to drive total returns. The Sub-Fund is actively managed but uses the Bloomberg Global Aggregate Corporate Index (USD Hedged) as a reference for selecting investments, performance comparison and carbon intensity comparison. The investments of the Sub-Fund may deviate significantly from the components of and their respective weightings in the benchmark.

You may redeem your investment upon demand on each business day when banks in Luxembourg are open for normal business and the New York Stock Exchange is open for trading (a "Business Day").

This share class intends to distribute dividends net of expenses monthly.

<b>Depository</b>	Brown Brothers Harriman (Luxembourg) S.C.A.
-------------------	---

This document describes a share class of a sub-fund of Allspring (Lux) Worldwide Fund. The assets and liabilities of each sub-fund are segregated and no sub-fund is responsible for the liabilities of another. The prospectus and financial reports are prepared for Allspring (Lux) Worldwide Fund as a whole. You may obtain free copies of these documents in English, French, and German from Allspring (Lux) Worldwide Fund, c/o Brown Brothers Harriman (Luxembourg) S.C.A., 80 Route d'Esch, L-1470 Luxembourg or at [allspringglobal.com](https://www.allspringglobal.com). Price Publication: Net asset value per share is calculated on each Business Day and is available in local media and/or with the Fund's local agent in certain countries and at the registered office of the Fund.

This product is intended for institutional investors of all knowledge and/or experience levels who are prepared to experience higher levels of volatility in pursuit of higher returns, who have an investment horizon of 5 years or longer and who have a risk tolerance compatible with the product's SRI rating.

## Intended investor

## Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods. We have assumed: in 2025 you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

Investment USD 10,000		
Scenarios	If you exit after 1 year	If you exit after 5 years
<b>Total costs</b>	45 USD	263 USD
<b>Annual cost impact(*)</b>	0.5 %	0.5 %

(\*) This illustrates how costs reduce your return each year over the holding period. For example, it shows that if you exit at maturity your average return per year is projected to be 3.5% before costs and 3.0% after costs.
