What is this product?

Type	Allspring (Lux) Worldwide Fund (the "Fund") is a Societe d'Investissement à Capital Variable (SICAV) composed of several separate sub-funds organised under the laws of Luxembourg.
Term	The Fund has been established for an indefinite period of time. The PRIIP Manufacturer reserves the right to liquidate the Fund, subject to approval by the Board of Directors.

Allspring (Lux) Worldwide Fund - Emerging Markets Equity Fund (the "Sub-Fund") seeks long-term capital appreciation by investing, under normal market conditions, at least 80% of its total assets in emerging market equity securities. Equity exposure is achieved directly through investment in equity securities and/or indirectly through participatory notes, convertible securities, equity linked notes and/or certificates. The Sub-Fund may also invest in equity securities through ADRs, CDRs, EDRs, GDRs, IDR's and similar depositary receipts as well as U.S. dollar-denominated equity securities of non-U.S. issuers. Emerging market equity securities are securities issued by companies that are traded in, have their primary operations in, are domiciled in or derive a majority of their revenue from emerging market countries as defined by the MSCI Emerging Markets Index. The Sub-Fund may have exposure to stocks across all capitalisations and styles and will be diversified across countries and sectors. The Sub-Fund promotes environmental and/or social characteristics but does not have a sustainable investment objective. The Sub-Fund may invest in equity securities of Chinese companies, including those listed on the Shanghai Stock Exchange or Shenzhen Stock Exchange (commonly known as China A shares). The Sub-Fund expects to maintain an allocation to China within 15 percentage points of the allocation of the MSCI Emerging Markets Index and will not invest more than 50% of its net assets in China A shares. Equity securities of Chinese companies are securities issued by companies with their registered offices in the People's Republic of China or exercising a predominant part of their economic activities in the People's Republic of China.

The Sub-Fund may use futures, forward contracts, options or swap agreements, as well as other derivatives, for hedging or efficient portfolio management purposes. The Sub-Fund may invest in assets denominated in any currency and currency exposure may be hedged. However, under normal circumstances, the Sub-Fund will not engage in extensive foreign currency hedging.

Utilizing a bottom-up, research driven stock selection process, the Sub-Fund seeks to invest in quality companies at prices below their intrinsic value, focusing only on those quality companies that are able to sustain high profitability over a long period of time. The Sub-Fund will invest at least 64% of its assets in companies that it has determined either have strong current performance on environmental, social or governance issues tied to long term value creation, or improvement catalysts in place demonstrating that they are on track to meet improvement expectations around environment, social or governance issues tied to long term value creation. Through the use of a negative screening process, the Sub-Fund seeks to exclude certain securities in accordance with its exclusion policy. A copy of the methodology and list of excluded investments (including the revenue thresholds) is available under [allspringglobal.com](https://www.allspringglobal.com). Shareholders may also request a copy from the Fund or the Management Company. The Sub-Fund is actively managed but uses the MSCI Emerging Markets Index as a reference for selecting investments and for performance comparison. The investments of the Sub-Fund may deviate significantly from the components of and their respective weightings in the benchmark.

You may redeem your investment upon demand on each business day when banks in Luxembourg are open for normal business and the New York Stock Exchange is open for trading (a "Business Day").

This share class does not distribute dividends. Income is reinvested in the Sub-Fund.

Depository	Brown Brothers Harriman (Luxembourg) S.C.A.
-------------------	---

This document describes a share class of a sub-fund of Allspring (Lux) Worldwide Fund. The assets and liabilities of each sub-fund are segregated and no sub-fund is responsible for the liabilities of another. The prospectus and financial reports are prepared for Allspring (Lux) Worldwide Fund as a whole. You may obtain free copies of these documents in English, French, and German from Allspring (Lux) Worldwide Fund, c/o Brown Brothers Harriman (Luxembourg) S.C.A., 80 Route d'Esch, L-1470 Luxembourg or at [allspringglobal.com](https://www.allspringglobal.com). Price Publication: Net asset value per share is calculated on each Business Day and is available in local media and/or with the Fund's local agent in certain countries and at the registered office of the Fund.

This product is intended for institutional investors of all knowledge and/or experience levels who are prepared to experience higher levels of volatility in pursuit of higher returns, who have an investment horizon of 5 years or longer and who have a risk tolerance compatible with the product's SRI rating.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods. We have assumed: in 2025 you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

Investment SEK 10,000		
Scenarios	If you exit after 1 year	If you exit after 5 years
Total costs	119 SEK	726 SEK
Annual cost impact(*)	1.2 %	1.2 %

(*) This illustrates how costs reduce your return each year over the holding period. For example, it shows that if you exit at maturity your average return per year is projected to be 4.9% before costs and 3.6% after costs.
