## What is this product?

<b>Type</b>	Allspring (Lux) Worldwide Fund (the "Fund") is a Societe d'Investissement à Capital Variable (SICAV) composed of several separate sub-funds organised under the laws of Luxembourg.
<b>Term</b>	The Fund has been established for an indefinite period of time. The PRIIP Manufacturer reserves the right to liquidate the Fund, subject to approval by the Board of Directors.

Allspring (Lux) Worldwide Fund - EUR Investment Grade Credit Fund (the "Sub-Fund") seeks total return, maximising investment income while preserving capital, by investing, under normal circumstances, at least two-thirds of its net assets in Euro-denominated credit debt securities rated investment grade (i.e., BBB- and/or Baa3 or equivalent and above from Standard & Poor's, Moody's or Fitch) at the time of purchase, issued by sovereign or corporate issuers. The Sub-Fund promotes environmental and/or social characteristics but does not have a sustainable investment objective. The Sub-Fund invests up to one-third of its net assets in currency-hedged non-Euro-denominated debt securities and debt securities rated below investment grade at the time of purchase as well as agencies, and up to 20% of its net assets in asset-backed securities including mortgage-backed securities. The Sub-Fund may invest up to 5% of its net assets in contingent convertible bonds. The Sub-Fund will utilise the Allspring ESGIQ (ESG Information Quotient), a proprietary rating system created to assess ESG risk and materiality. The Sub-Fund will invest at least two-thirds of its net assets in securities which have ESGIQ ratings that reflect high or leading ESG issuers and will exclude low or lagging ESG issuers. Securitised instruments, municipal securities, cash and cash equivalents, derivatives, investments in underlying funds, fixed income instruments linked to the performance of an index, ETF, mutual fund or commodity, and equity securities received in connection with issue debt restructuring will not be required to have an ESGIQ rating. The Sub-Fund targets to have a carbon intensity that is lower than the ICE BofA Euro Corporate Index. Through the use of a negative screening process, the Sub-Fund seeks to exclude certain securities in accordance with its exclusion policy. A copy of the methodology and list of excluded investments (including the revenue thresholds) is available under [allspringglobal.com](https://www.allspringglobal.com). Shareholders may also request a copy from the Fund or the Management Company.

**Objectives**

The Sub-Fund may use futures, forward contracts, options or swap agreements, as well as other derivatives, for hedging, efficient portfolio management or investment purposes; provided, however, that the Sub-Fund will only invest in credit default swaps when covered by the actual underlying investment on which the swap is based or other liquid assets.

The Sub-Fund's fundamental credit research combined with active top-down allocation decisions within a controlled risk framework seek to generate superior investment returns. The Sub-Fund favours companies with strong or improving ESG positions and incorporates this emphasis into its rigorous fundamental analysis. The Sub-Fund is actively managed but uses the ICE BofA Euro Corporate Index for performance comparison. The investments of the Sub-Fund may deviate significantly from the components of and their respective weightings in the benchmark.

You may redeem your investment upon demand on each business day when banks in Luxembourg are open for normal business and the New York Stock Exchange is open for trading (a "Business Day").

This share class does not distribute dividends. Income is reinvested in the Sub-Fund.

This share class will seek to be 100% hedged against the base currency of the Sub-Fund with the objective of minimising currency risk exposure. It may not be possible to always hedge the class 100% against fluctuations of the reference currency.

<b>Depository</b>	Brown Brothers Harriman (Luxembourg) S.C.A.

**Additional information**

This document describes a share class of a sub-fund of Allspring (Lux) Worldwide Fund. The assets and liabilities of each sub-fund are segregated and no sub-fund is responsible for the liabilities of another. The prospectus and financial reports are prepared for Allspring (Lux) Worldwide Fund as a whole. You may obtain free copies of these documents in English, French, and German from Allspring (Lux) Worldwide Fund, c/o Brown Brothers Harriman (Luxembourg) S.C.A., 80 Route d'Esch, L-1470 Luxembourg or at [allspringglobal.com](https://www.allspringglobal.com). Price Publication: Net asset value per share is calculated on each Business Day and is available in local media and/or with the Fund's local agent in certain countries and at the registered office of the Fund.

**Intended investor**

This product is intended for institutional investors of all knowledge and/or experience levels who are prepared to experience higher levels of volatility in pursuit of higher returns, who have an investment horizon of 5 years or longer and who have a risk tolerance compatible with the product's SRI rating.

## Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods. We have assumed: in 2027 you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

Investment USD 10,000		
Scenarios	If you exit after 1 year	If you exit after 5 years
<b>Total costs</b>	51 USD	260 USD
<b>Annual cost impact(*)</b>	0.5%	0.5%

(\*) This illustrates how costs reduce your return each year over the holding period. For example, it shows that if you exit at maturity your average return per year is projected to be 0.6% before costs and 0.1% after costs.

## Composition of costs
