Ultra Short-Term Municipal Income Fund Summary

Investment Objective

The Fund seeks current income exempt from federal income tax, consistent with capital preservation.

Fees and Expenses

These tables are intended to help you understand the various costs and expenses you will pay if you buy, hold and sell shares of the Fund.

Shareholder Fees (fees paid directly from your investment)

Maximum sales charge (load) imposed on purchases (as a percentage of offering price)	None
Maximum deferred sales charge (load) (as a percentage of offering price)	None

Annual Fund Operating Expenses (expenses that you pay each year as a percentage of the value of your investment)¹

Management Fees	0.25%
Distribution (12b-1) Fees	0.00%
Other Expenses	0.31%
Total Annual Fund Operating Expenses	0.56%
Fee Waivers	(0.16)%
Total Annual Fund Operating Expenses After Fee Waivers²	0.40%

1. Expenses have been adjusted as necessary from amounts incurred during the Fund's most recent fiscal year to reflect current fees and expenses.
2. The Manager has contractually committed through October 31, 2025, to waive fees and/or reimburse expenses to the extent necessary to cap Total Annual Fund Operating Expenses After Fee Waiver at 0.40% for Class A2. Brokerage commissions, stamp duty fees, interest, taxes, acquired fund fees and expenses (if any), and extraordinary expenses are excluded from the expense cap. Prior to or after the commitment expiration date, the cap may be increased or the commitment to maintain the cap may be terminated only with the approval of the Board of Trustees.

Example of Expenses

The example below is intended to help you compare the costs of investing in the Fund with the costs of investing in other funds. The example assumes a \$10,000 initial investment, 5% annual total return, and that fees and expenses remain the same as in the tables above. To the extent that the Manager is waiving fees or reimbursing expenses, the example assumes that such waiver or reimbursement will only be in place through the date noted above. Although your actual costs may be higher or lower, based on these assumptions, your costs would be:

After:	
1 Year	\$41
3 Years	\$163
5 Years	\$297
10 Years	\$686

Portfolio Turnover

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or "turns over" its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in annual fund operating expenses or in the example, affect the Fund's performance. During the most recent fiscal year, the Fund's portfolio turnover rate was 42% of the average value of its portfolio.

Principal Investment Strategies

Under normal circumstances, we invest:

- at least 80% of the Fund's net assets in municipal securities whose interest is exempt from federal income tax, but not necessarily federal alternative minimum tax (AMT);
- up to 20% of the Fund's total assets in securities whose interest is subject to federal AMT; and
- up to 10% of the Fund's total assets in below investment-grade municipal securities.

We invest principally in short-term municipal securities of states, territories and possessions of the United States whose interest is exempt from federal income tax, but not necessarily federal AMT. Some of the securities may be below investment grade or may be unrated and deemed by us to be of comparable quality. We may also invest a portion of the Fund's assets in securities whose interest is subject to federal AMT. We may use futures for duration and yield curve management. While we may purchase securities of any maturity, under normal circumstances, we expect the Fund's dollar-weighted average effective maturity to be 1 year or less.

We use a combination of top-down and bottom-up research to cover the four main elements of total return: duration management, yield curve positioning, sector and credit quality allocation, and security selection. Our top-down analysis involves an evaluation of macroeconomic factors that may include, among others, the pace of economic growth, employment conditions, inflation, and monetary and fiscal policy. Our bottom-up analysis, which involves intensive research into the credit fundamentals of individual issuers and the relative value of individual issues, is used to uncover solid investment opportunities. Securities are selected based on several factors, including, among others, improving financial trends, positive industry and sector dynamics, improving economic conditions, and specific demographic trends. Securities may be sold based on relative value considerations and could be replaced with a security that presents a better value or risk/reward profile. A security may also be sold due to changes in credit characteristics or outlook, as well as changes in portfolio strategy or cash flow needs.

Principal Investment Risks

An investment in the Fund may lose money, is not a deposit of a bank or its affiliates, is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other governmental agency, and is primarily subject to the risks briefly summarized below.

Market Risk. The values of, and/or the income generated by, securities held by the Fund may decline due to general market conditions or other factors, including those directly involving the issuers of such securities. Securities markets are volatile and may decline significantly in response to adverse issuer, regulatory, political, or economic developments. Different sectors of the market and different security types may react differently to such developments.

Debt Securities Risk. Debt securities are subject to credit risk and interest rate risk. Credit risk is the possibility that the issuer or guarantor of a debt security may be unable, or perceived to be unable or unwilling, to pay interest or repay principal when they become due. In these instances, the value of an investment could decline and the Fund could lose money. Credit risk increases as an issuer's credit quality or financial strength declines. Interest rate risk is the possibility that interest rates will change over time. When interest rates rise, the value of debt securities tends to fall. The longer the terms of the debt securities held by a Fund, the more the Fund is subject to this risk. If interest rates decline, interest that the Fund is able to earn on its investments in debt securities may also decline, which could cause the Fund to reduce the dividends it pays to shareholders, but the value of those securities may increase. Very low or negative interest rates may magnify interest rate risk.

Municipal Securities Risk. Municipal securities may be fully or partially backed or enhanced by the taxing authority of a local government, by the current or anticipated revenues from a specific project or specific assets, or by the credit of, or liquidity enhancement provided by, a private issuer. Various types of municipal securities are often related in such a way that political, economic or business developments affecting one obligation could affect other municipal securities held by a Fund.

Derivatives Risk. The use of derivatives, such as futures, options and swap agreements, can lead to losses, including those magnified by leverage, particularly when derivatives are used to enhance return rather than mitigate risk. Certain derivative instruments may be difficult to sell when the portfolio manager believes it would be appropriate to do so, or the other party to a derivative contract may be unwilling or unable to fulfill its contractual obligations.

Futures Contracts Risk. A Fund that uses futures contracts, which are a type of derivative, is subject to the risk of loss caused by unanticipated market movements. In addition, there may at times be an imperfect correlation between the movement in the prices of futures contracts and the value of their underlying instruments or indexes, and there may at times not be a liquid secondary market for certain futures contracts.

High Yield Securities Risk. High yield securities and unrated securities of similar credit quality (commonly known as “junk bonds”) are considered speculative and have a much greater risk of default or of not returning principal and their values tend to be more volatile than higher-rated securities with similar maturities.

Management Risk. Investment decisions, techniques, analyses or models implemented by a Fund’s manager or sub-adviser in seeking to achieve the Fund’s investment objective may not produce expected returns, may cause the Fund’s shares to lose value or may cause the Fund to underperform other funds with similar investment objectives.

Performance

The following information provides some indication of the risks of investing in the Fund by showing changes in the Fund’s performance from year to year. The Fund’s average annual total returns are compared to the performance of one or more indices. The Fund’s Regulatory Benchmark is a broad-based index that represents the overall securities markets relative to the Fund’s asset category while the Fund’s Strategy Benchmark is most closely aligned with the Fund’s investment universe based on its investment strategy. Past performance before and after taxes is no guarantee of future results. Current month-end performance is available on the Fund’s website at allspringglobal.com.

Calendar Year Total Returns for Class A2 as of 12/31 each year¹

Average Annual Total Returns for the periods ended 12/31/2023

	Inception Date of Share Class	1 Year	5 Year	10 Year
Class A2 (before taxes) ¹	5/29/2020	3.46%	1.06%	0.75%
Class A2 (after taxes on distributions)	5/29/2020	2.60%	0.71%	0.57%

Bloomberg 1 Year Municipal Bond Index (reflects no deduction for fees, expenses, or taxes)		3.39%	1.34%	1.09%
Bloomberg Municipal Bond Index (Regulatory Benchmark) (reflects no deduction for fees, expenses, or taxes)		6.40%	2.25%	3.03%

1. Historical performance shown for the Class A2 shares prior to their inception reflects the performance of the Class A shares, and includes the higher expenses and/or sales charges applicable to the Class A shares. If these expenses and/or sales charges had not been included, returns for the Class A2 shares would be higher.

2. Source: Allspring Funds Management LLC. The Ultra Short-Term Municipal Income Blended Index is composed 50% of the Bloomberg 1 Year Municipal Bond Index and 50% of the iMoneyNet Tax-Free National Institutional Money Market Funds Average. You cannot invest directly in an index.

After-tax returns are calculated using the historical highest individual federal marginal income tax rates and do not reflect the impact of state, local or foreign taxes. Actual after-tax returns depend on an investor’s tax situation and may differ from those shown, and after-tax returns shown are not relevant to tax-exempt investors or investors who hold

their Fund shares through tax-deferred arrangements, such as 401(k) Plans or Individual Retirement Accounts. After-tax returns are shown for only one class of shares. After-tax returns for any other class will vary.

Tax Information

The Fund's distributions normally consist of exempt-interest dividends, which are generally not taxable to you for federal income tax purposes, but may be subject to federal AMT. A portion of the Fund's distributions may not qualify as exempt-interest dividends; such distributions will generally be taxable to you as ordinary income or capital gains, unless you are investing through a tax-deferred arrangement, such as a 401(k) plan or an individual retirement account. However, subsequent withdrawals from such a tax advantaged investment plan may be subject to federal income tax. You should consult your tax adviser about your specific situation.

Payments to Intermediaries

If you purchase a Fund through an intermediary, the Fund and its related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the intermediary and your financial professional to recommend the Fund over another investment. Consult your financial professional or visit your intermediary's website for more information.

Details About the Fund

Ultra Short-Term Municipal Income Fund

Investment Objective

The Fund seeks current income exempt from federal income tax, consistent with capital preservation.

The Fund's Board of Trustees can change this investment objective without a shareholder vote.

Principal Investment Strategies

Under normal circumstances, we invest:

- at least 80% of the Fund's net assets in municipal securities whose interest is exempt from federal income tax, but not necessarily federal alternative minimum tax (AMT);
- up to 20% of the Fund's total assets in securities whose interest is subject to federal AMT; and
- up to 10% of the Fund's total assets in below investment-grade municipal securities.

We invest principally in short-term municipal securities of states, territories and possessions of the United States whose interest is exempt from federal income tax, but not necessarily federal AMT. Some of the securities may be below investment grade or may be unrated and deemed by us to be of comparable quality. We may also invest a portion of the Fund's assets in securities whose interest is subject to federal AMT. We may use futures for duration and yield curve management. While we may purchase securities of any maturity, under normal circumstances, we expect the Fund's dollar-weighted average effective maturity to be 1 year or less.

We use a combination of top-down and bottom-up research to cover the four main elements of total return: duration management, yield curve positioning, sector and credit quality allocation, and security selection. Our top-down analysis involves an evaluation of macroeconomic factors that may include, among others, the pace of economic growth, employment conditions, inflation, and monetary and fiscal policy. Our bottom-up analysis, which involves intensive research into the credit fundamentals of individual issuers and the relative value of individual issues, is used to uncover solid investment opportunities. Securities are selected based on several factors, including, among others, improving financial trends, positive industry and sector dynamics, improving economic conditions, and specific demographic trends. Securities may be sold based on relative value considerations and could be replaced with a security that presents a better value or risk/reward profile. A security may also be sold due to changes in credit characteristics or outlook, as well as changes in portfolio strategy or cash flow needs.

We may actively trade portfolio securities, which may lead to higher transaction costs that may affect the Fund's performance. In addition, active trading of portfolio securities may lead to higher taxes if your shares are held in a taxable account.

The Fund may hold some of its assets in cash or in money market instruments, including U.S. Government obligations, shares of other funds and repurchase agreements, or make other short-term investments for purposes of maintaining liquidity or for short-term defensive purposes when we believe it is in the best interests of the shareholders to do so. During such periods, the Fund may not achieve its objective.

Principal Investment Risks

The Fund is primarily subject to the risks mentioned below.

- | | |
|-----------------------------|------------------------------|
| ▪ Market Risk | ▪ Futures Contracts Risk |
| ▪ Debt Securities Risk | ▪ High Yield Securities Risk |
| ▪ Municipal Securities Risk | ▪ Management Risk |
| ▪ Derivatives Risk | |

These and other risks could cause you to lose money in your investment in the Fund and could adversely affect the Fund's net asset value, yield and total return. These risks are described in the "Description of Principal Investment Risks" section.

Description of Principal Investment Risks

Understanding the risks involved in fund investing will help you make an informed decision that takes into account your risk tolerance and preferences. The risks that are most likely to have a material effect on a particular Fund as a whole are called “principal risks.” The principal risks for the Fund have been previously identified and are described below (in alphabetical order). Additional information about the principal risks is included in the Statement of Additional Information.

Debt Securities Risk. Debt securities are subject to credit risk and interest rate risk. Credit risk is the possibility that the issuer or guarantor of a debt security may be unable, or perceived to be unable or unwilling, to pay interest or repay principal when they become due. In these instances, the value of an investment could decline and the Fund could lose money. Credit risk increases as an issuer’s credit quality or financial strength declines. The credit quality of a debt security may deteriorate rapidly and cause significant deterioration in the Fund’s net asset value. Interest rate risk is the possibility that interest rates will change over time. When interest rates rise, the value of debt securities tends to fall. The longer the terms of the debt securities held by a Fund, the more the Fund is subject to this risk. If interest rates decline, interest that the Fund is able to earn on its investments in debt securities may also decline, which could cause the Fund to reduce the dividends it pays to shareholders, but the value of those securities may increase. Some debt securities give the issuers the option to call, redeem or prepay the securities before their maturity dates. If an issuer calls, redeems or prepays a debt security during a time of declining interest rates, the Fund might have to reinvest the proceeds in a security offering a lower yield, and therefore might not benefit from any increase in value as a result of declining interest rates. Very low or negative interest rates may magnify interest rate risk. Changing interest rates, including rates that fall below zero, may have unpredictable effects on markets, may result in heightened market volatility and may detract from Fund performance to the extent the Fund is exposed to such interest rates. Interest rate changes and their impact on the Fund and its share price can be sudden and unpredictable. Changes in market conditions and government policies may lead to periods of heightened volatility in the debt securities market, reduced liquidity Fund investments and an increase in Fund redemptions.

Derivatives Risk. The use of derivatives, such as futures, options and swap agreements, presents risks different from, and possibly greater than, the risks associated with investing directly in traditional securities. The use of derivatives can lead to losses because of adverse movements in the price or value of the derivatives’ underlying assets, indexes or rates and the derivatives themselves, which may be magnified by certain features of the derivatives. These risks are heightened when derivatives are used to enhance a Fund’s return or as a substitute for a position or security, rather than solely to hedge (or mitigate) the risk of a position or security held by the Fund. The success of a derivative strategy will be affected by the portfolio manager’s ability to assess and predict market or economic developments and their impact on the derivatives’ underlying assets, indexes or reference rates, as well as the derivatives themselves. Certain derivative instruments may become illiquid and, as a result, may be difficult to sell when the portfolio manager believes it would be appropriate to do so. Certain derivatives create leverage, which can magnify the impact of a decline in the value of their underlying assets, indexes or reference rates, and increase the volatility of the Fund’s net asset value. Certain derivatives (e.g., over-the-counter swaps) are also subject to the risk that the counterparty to the derivative contract will be unwilling or unable to fulfill its contractual obligations, which may cause a Fund to lose money, suffer delays or incur costs arising from holding or selling an underlying asset. Changes in laws or regulations may make the use of derivatives more costly, may limit the availability of derivatives, or may otherwise adversely affect the use, value or performance of derivatives.

Futures Contracts Risk. A Fund that uses futures contracts, which are a type of derivative, is subject to the risk of loss caused by unanticipated market movements. In addition, there may at times be an imperfect correlation between the movement in the prices of futures contracts and the value of their underlying instruments or indexes, and there may at times not be a liquid secondary market for certain futures contracts.

High Yield Securities Risk. High yield securities and unrated securities of similar credit quality (commonly known as “junk bonds”) are considered speculative and have a much greater risk of default (or in the case of bonds currently in default, of not returning principal) and their values tend to be more volatile than higher-rated securities with similar maturities. Additionally, these securities tend to be less liquid and more difficult to value than higher-rated securities.

Management Risk. Investment decisions, techniques, analyses or models implemented by a Fund’s manager or sub-adviser in seeking to achieve the Fund’s investment objective may not produce the returns expected, may cause the Fund’s shares to lose value or may cause the Fund to underperform other funds with similar investment objectives.

Market Risk. The values of, and/or the income generated by, securities held by a Fund may decline due to general market conditions or other factors, including those directly involving the issuers of such securities. Securities markets are volatile and may decline significantly in response to adverse issuer, regulatory, political, or economic

developments. Different sectors of the market and different security types may react differently to such developments. Political, geopolitical, natural and other events, including war, terrorism, trade disputes, government shutdowns, market closures, inflation, natural and environmental disasters, epidemics, pandemics and other public health crises and related events have led, and in the future may lead, to economic uncertainty, decreased economic activity, increased market volatility and other disruptive effects on U.S. and global economies and markets. Such events may have significant adverse direct or indirect effects on a Fund and its investments. In addition, economies and financial markets throughout the world are becoming increasingly interconnected, which increases the likelihood that events or conditions in one country or region will adversely impact markets or issuers in other countries or regions.

Municipal Securities Risk. Municipal securities may be fully or partially backed or enhanced by the taxing authority of a local government, by the current or anticipated revenues from a specific project or specific assets, or by the credit of, or liquidity enhancement provided by, a private issuer. Municipal securities may be difficult to obtain because of limited supply, which may increase the cost to a Fund of purchasing such securities and effectively reduce the Fund's yield. Typically, less information is available about a municipal issuer than is available about other types of issuers. Various types of municipal securities are often related in such a way that political, economic or business developments affecting one obligation could affect other municipal securities held by the Fund. The value and liquidity of municipal securities backed by the revenue from a particular project or other source may decline if the project or other source fails to generate expected revenue. Although the Fund may strive to invest in municipal securities and other securities that pay interest that is exempt from certain taxes (such as federal taxes, federal alternative minimum tax and/or state taxes as applicable), some income earned by Fund investments may be subject to such taxes. Certain issuers of municipal securities may have the ability to call or redeem a security prior to its maturity date, which could impair Fund performance.

Portfolio Holdings Information

A description of the Allspring Funds' policies and procedures with respect to disclosure of the Fund's portfolio holdings is available in the Fund's Statement of Additional Information.

Pricing Fund Shares

The Fund's net asset value ("NAV") is the value of a single share. The NAV is calculated as of the close of regular trading on the New York Stock Exchange ("NYSE") (generally 4:00 p.m. Eastern time) on each day that the NYSE is open, although the Fund may deviate from this calculation time under unusual or unexpected circumstances. The NAV is calculated separately for each class of shares of a multiple-class Fund. The most recent NAV for each class of a Fund is available at allspringglobal.com. To calculate the NAV of the Fund's shares, the Fund's assets are valued and totaled, liabilities are subtracted, and the balance, called net assets, is divided by the number of shares outstanding. The price at which a purchase or redemption request is processed is based on the next NAV calculated after the request is received in good order. Generally, NAV is not calculated, and purchase and redemption requests are not processed, on days that the NYSE is closed for trading; however, under unusual or unexpected circumstances, the Fund may elect to remain open even on days that the NYSE is closed or closes early. To the extent that the Fund's assets are traded in various markets on days when the Fund is closed, the value of the Fund's assets may be affected on days when you are unable to buy or sell Fund shares. Conversely, trading in some of the Fund's assets may not occur on days when the Fund is open.

With respect to any portion of the Fund's assets that may be invested in other investment companies, the value of the Fund's shares is based on the NAV of the shares of the other investment companies in which the Fund invests. The valuation methods used by investment companies in pricing their shares, including the circumstances under which they will use fair value pricing and the effects of using fair value pricing, are included in the prospectuses of such funds. To the extent the Fund invests a portion of its assets in non-registered investment vehicles, the Fund's interests in the non-registered vehicles are fair valued at NAV.

With respect to the Fund's assets invested directly in securities, the Fund's investments are generally valued at current market prices. Equity securities, options and futures are generally valued at the official closing price or, if none, the last reported sales price on the primary exchange or market on which they are listed (closing price). Equity securities that are not traded primarily on an exchange are generally valued at the quoted bid price obtained from a broker-dealer.

Debt securities are valued at the evaluated bid price provided by an independent pricing service or, if a reliable price is not available, the quoted bid price from an independent broker-dealer.

We are required to depart from these general valuation methods and use fair value pricing methods to determine the values of certain investments if we believe that the closing price or the quoted bid price of a security, including a security that trades primarily on a foreign exchange, does not accurately reflect its current market value as of the time the Fund calculates its NAV. The closing price or the quoted bid price of a security may not reflect its current market value if, among other things, a significant event occurs after the closing price or quoted bid price are made available, but before the time as of which the Fund calculates its NAV, that materially affects the value of the security. We use various criteria, including a systemic evaluation of U.S. market moves after the close of foreign markets, in deciding whether a foreign security's market price is still reliable and, if not, what fair market value to assign to the security. In addition, we use fair value pricing to determine the value of investments in securities and other assets, including illiquid securities, for which current market quotations or evaluated prices from a pricing service or broker-dealer are not readily available.

The fair value of the Fund's securities and other assets is determined in good faith pursuant to policies and procedures adopted by the Fund's Board of Trustees. Pursuant to such policies and procedures, the Board has appointed the Manager as the Fund's valuation designee (the "Valuation Designee") to perform all fair valuations of the Fund's portfolio investments, subject to the Board's oversight. As the Valuation Designee, the Manager has established procedures for its fair valuation of the Fund's portfolio investments. These procedures address, among other things, determining when market quotations are not readily available or reliable and the methodologies to be used for determining the fair value of investments, as well as the use and oversight of third-party pricing services for fair valuation. In light of the judgment involved in making fair value decisions, there can be no assurance that a fair value assigned to a particular security is accurate or that it reflects the price that the Fund could obtain for such security if it were to sell the security at the time as of which fair value pricing is determined. Such fair value pricing may result in NAVs that are higher or lower than NAVs based on the closing price or quoted bid price. See the Statement of Additional Information for additional details regarding the determination of NAVs.

Management of the Funds

The Manager

Allspring Funds Management, LLC (“Allspring Funds Management”), headquartered at 1415 Vantage Park Drive, 3rd Floor, Charlotte, NC 28203, provides advisory and Fund level administrative services to the Fund pursuant to an investment management agreement (the “Management Agreement”). Allspring Funds Management is a wholly owned subsidiary of Allspring Global Investments Holdings, LLC, a holding company indirectly owned by certain private funds of GTCR LLC and Reverence Capital Partners, L.P. Allspring Funds Management is a registered investment adviser that provides advisory services for registered mutual funds, closed-end funds and other funds and accounts.

Allspring Funds Management is responsible for implementing the investment objectives and strategies of the Fund. Allspring Funds Management’s investment professionals review and analyze the Fund’s performance, including relative to peer funds, and monitor the Fund’s compliance with its investment objectives and strategies. Allspring Funds Management is responsible for reporting to the Board on investment performance and other matters affecting the Fund. When appropriate, Allspring Funds Management recommends to the Board enhancements to Fund features, including changes to Fund investment objectives, strategies and policies. Allspring Funds Management also communicates with shareholders and intermediaries about Fund performance and features.

Allspring Funds Management is also responsible for providing Fund-level administrative services to the Fund, which include, among others, providing such services in connection with the Fund’s operations; developing and implementing procedures for monitoring compliance with regulatory requirements and compliance with the Fund’s investment objectives, policies and restrictions; and providing any other Fund-level administrative services reasonably necessary for the operation of the Fund, other than those services that are provided by the Fund’s transfer and dividend disbursing agent, custodian and fund accountant.

To assist Allspring Funds Management in implementing the investment objectives and strategies of the Fund, Allspring Funds Management may contract with one or more sub-advisers to provide day-to-day portfolio management services to the Fund. Allspring Funds Management employs a team of investment professionals who identify and recommend the initial hiring of any sub-adviser and oversee and monitor the activities of any sub-adviser on an ongoing basis. Allspring Funds Management retains overall responsibility for the investment activities of the Fund.

A discussion regarding the basis for the Board’s approval of the Management Agreement and any applicable sub-advisory agreements for the Fund is available in the Fund’s Form N-CSR filing for the period ended June 30th.

For the Fund’s most recent fiscal year end, the management fee paid to Allspring Funds Management pursuant to the Management Agreement, net of any applicable waivers and reimbursements, was as follows:

Management Fees Paid

	As a % of average daily net assets
Ultra Short-Term Municipal Income Fund	0.16%

The Sub-Adviser and Portfolio Managers

The following sub-adviser and portfolio managers provide day-to-day portfolio management services to the Fund. These services include making purchases and sales of securities and other investment assets for the Fund, selecting broker-dealers, negotiating brokerage commission rates and maintaining portfolio transaction records. The sub-adviser is compensated for its services by Allspring Funds Management from the fees Allspring Funds Management receives for its services as manager to the Fund. The Statement of Additional Information provides additional information about the portfolio managers' compensation, other accounts managed by the portfolio managers and the portfolio managers' ownership of securities in the Fund.

Allspring Global Investments, LLC ("Allspring Investments") is a registered investment adviser located at 1415 Vantage Park Drive, 3rd Floor, Charlotte, NC 28203. Allspring Investments, an affiliate of Allspring Funds Management and wholly owned subsidiary of Allspring Global Investments Holdings, LLC, is a multi-boutique asset management firm committed to delivering superior investment services to institutional clients, including investment companies.

Bruce R. Johns Ultra Short-Term Municipal Income Fund	Mr. Johns joined Allspring Investments or one of its predecessor firms in 1998, where he currently serves as a Senior Portfolio Manager for the Municipal Fixed Income team.
James Randazzo Ultra Short-Term Municipal Income Fund	Mr. Randazzo joined Allspring Investments or one of its predecessor firms in 2000, where he currently serves as a Senior Portfolio Manager for the Municipal Fixed Income team.
Nicholos Venditti, CFA Ultra Short-Term Municipal Income Fund	Mr. Venditti joined Allspring Investments or one of its predecessor firms in 2020, where he currently serves as a Senior Portfolio Manager for the Municipal Fixed Income team. Prior to joining Allspring, Nick spent 10 years at Thornburg Investment Management, most recently as a Senior Portfolio Manager and Head of the Municipal Bond Group.

Multi-Manager Arrangement

The Fund and Allspring Funds Management have obtained an exemptive order from the SEC that permits Allspring Funds Management, subject to Board approval, to select certain sub-advisers and enter into or amend sub-advisory agreements with them, without obtaining shareholder approval. The SEC order extends to sub-advisers that are not otherwise affiliated with Allspring Funds Management or the Fund, as well as sub-advisers that are wholly-owned subsidiaries of Allspring Funds Management or of a company that wholly owns Allspring Funds Management. In addition, the SEC staff, pursuant to no-action relief, has extended multi-manager relief to any affiliated sub-adviser, such as affiliated sub-advisers that are not wholly-owned subsidiaries of Allspring Funds Management or of a company that wholly owns Allspring Funds Management, provided certain conditions are satisfied (all such sub-advisers covered by the order or relief, "Multi-Manager Sub-Advisers").

As such, Allspring Funds Management, with Board approval, may hire or replace Multi-Manager Sub-Advisers for each Fund that is eligible to rely on the order or relief. Allspring Funds Management, subject to Board oversight, has the responsibility to oversee Multi-Manager Sub-Advisers and to recommend their hiring, termination and replacement. If a new sub-adviser is hired for a Fund pursuant to the order or relief, the Fund is required to notify shareholders within 90 days. The Fund is not required to disclose the individual fees that Allspring Funds Management pays to a Multi-Manager Sub-Adviser.

Account Information

Share Class Eligibility

Please see the section entitled “Purchase and Sale of Fund Shares” in the Fund Summary for a schedule of minimum investment amounts. Purchases made through a customer account at an intermediary may be subject to different minimum investment amounts. Please contact your financial professional for additional information.

We allow reduced minimum initial and subsequent investment amounts if you sign up for an automatic investment plan. For additional information regarding available automatic plans, please see the section entitled “Account Policies” below.

Your Fund may offer other classes of shares in addition to those offered through this Prospectus. You may be eligible to invest in one or more of these other classes of shares. Each share class bears varying expenses and may differ in other features. Consult your financial professional for more information regarding a Fund’s available share classes.

The information in this Prospectus is not intended for distribution to, or use by, any person or entity in any non-U.S. jurisdiction or country where such distribution or use would be contrary to any law or regulation, or which would subject Fund shares to any registration requirement within such jurisdiction or country.

Share Class Features

The table below summarizes the key features of the share classes offered through this Prospectus.

	Class A2
Front-End Sales Charge	None
Contingent Deferred Sales Charge (“CDSC”)	None
Ongoing Distribution (“12b-1”) Fees	None
Shareholder Servicing Fee	0.25% ¹
Purchase Maximum	None
Conversion Feature	None

1. The Fund’s shareholder servicing plan authorizes the Class A2 shares to charge a maximum of 0.25% in shareholder servicing fees, but the Class A2 shares will not charge greater than 0.15% for shareholder servicing without prior approval by the Board of Trustees.

Information regarding sales charges, breakpoint levels, reductions and waivers is also available free of charge on our website at allspringglobal.com. You may wish to discuss your choice of share class with your financial professional.

Compensation to Financial Professionals and Intermediaries

Shareholder Servicing Plan

The Fund has adopted a shareholder servicing plan (“Servicing Plan”). The Servicing Plan authorizes the Fund to enter into agreements with the Fund’s distributor, manager, or any of their affiliates to provide or engage other entities to provide certain shareholder services, including establishing and maintaining shareholder accounts, processing and verifying purchase, redemption and exchange transactions, and providing such other shareholder liaison or related services as may reasonably be requested. Under the Servicing Plan, fees are paid up to the following amounts:

Fund	Class A2
Ultra Short-Term Municipal Income Fund	0.25% ¹

1. The Fund’s shareholder servicing plan authorizes the Class A2 shares to charge a maximum of 0.25% in shareholder servicing fees, but the Class A2 shares will not charge greater than 0.15% for shareholder servicing without prior approval by the Board of Trustees.

Additional Payments to Financial Professionals and Intermediaries

In addition to dealer reallowances and payments made by certain classes of the Fund for distribution and shareholder servicing, the Fund's manager, the distributor or their affiliates make additional payments ("Additional Payments") to certain financial professionals and intermediaries for selling shares and providing shareholder services, which include broker-dealers and 401(k) service providers and record keepers. These Additional Payments, which may be significant, are paid by the Fund's manager, the distributor or their affiliates, out of their revenues, which generally come directly or indirectly from Fund fees.

In return for these Additional Payments, the Fund's manager and distributor expect the Fund to receive certain marketing or servicing considerations that are not generally available to mutual funds whose sponsors do not make such payments. Such considerations are expected to include, without limitation, placement of the Fund on a list of mutual funds offered as investment options to the intermediary's clients (sometimes referred to as "Shelf Space"); access to the intermediary's financial professionals; and/or the ability to assist in training and educating the intermediary's financial professionals.

The Additional Payments may create potential conflicts of interest between an investor and a financial professional or intermediary who is recommending or making available a particular mutual fund over other mutual funds. Before investing, you should consult with your financial professional and review carefully any disclosure by the intermediary as to what compensation the intermediary receives from mutual fund sponsors, as well as how your financial professional is compensated.

The Additional Payments are typically paid in fixed dollar amounts, based on the number of customer accounts maintained by an intermediary, or based on a percentage of sales and/or assets under management, or a combination of the above. The Additional Payments are either up-front or ongoing or both and differ among intermediaries. In a given year, Additional Payments to an intermediary that is compensated based on its customers' assets typically range between 0.02% and 0.25% of assets invested in a Fund by the intermediary's customers. Additional Payments to an intermediary that is compensated based on a percentage of sales typically range between 0.10% and 0.25% of the gross sales of a Fund attributable to the financial intermediary.

Notwithstanding the foregoing, the Conservative Income Fund, Ultra Short-Term Municipal Income Fund, and Ultra Short-Term Income Fund may each pay a maximum shareholder servicing fee of up to 0.25% of the average daily net assets of the Fund's Class A2 shares, each such Fund will incur or pay up to 0.15% of the maximum 0.25% shareholder servicing fee for Class A2 shares. Class A2 Shares of such Funds will not incur or pay shareholder servicing fees that exceeds 0.15% until such time as approved by the Funds' Board of Trustees.

More information on the FINRA member firms that have received the Additional Payments described in this section is available in the Statement of Additional Information, which is on file with the SEC and is also available on the Allspring Funds website at allspringglobal.com.

Buying and Selling Fund Shares

For more information regarding buying and selling Fund shares, please visit allspringglobal.com. You may buy (purchase) and sell (redeem) Fund shares as follows:

	Opening an Account	Adding to an Account or Selling Fund Shares
Through Your Financial Professional	Contact your financial professional. Transactions will be subject to the terms of your account with your intermediary.	Contact your financial professional. Transactions will be subject to the terms of your account with your intermediary.
Through Your Retirement Plan	Contact your retirement plan administrator. Transactions will be subject to the terms of your retirement plan account.	Contact your retirement plan administrator. Transactions will be subject to the terms of your retirement plan account.

	Opening an Account	Adding to an Account or Selling Fund Shares
Online	New accounts cannot be opened online. Contact your financial professional or retirement plan administrator, or refer to the section on opening an account by mail.	Visit allspringglobal.com. Online transactions are limited to a maximum of \$100,000. You may be eligible for an exception to this maximum. Please call Investor Services at 1-800-222-8222 for more information.
By Telephone	Call Investor Services at 1-800-222-8222. Available only if you have another Allspring Fund account with your bank information on file.	Call Investor Services at 1-800-222-8222. Redemption requests may not be made by phone if the address on your account was changed in the last 15 days. In this event, you must request your redemption by mail. For joint accounts, telephone requests generally require only one of the account owners to call unless you have instructed us otherwise.
By Mail	Complete an account application and submit it according to the instructions on the application. Account applications are available online at allspringglobal.com or by calling Investor Services at 1-800-222-8222.	Send the items required under “Requests in Good Order” below to: <u>Regular Mail</u> Allspring Funds P.O. Box 219967 Kansas City, MO 64121-9967 <u>Overnight Only</u> Allspring Funds 430 W 7th Street STE 219967 Kansas City, MO 64105-1407

Requests in “Good Order”. All purchase and redemption requests must be received in “good order.” This means that a request generally must include:

- The Fund name(s), share class(es) and account number(s);
- The amount (in dollars or shares) and type (purchase or redemption) of the request;
- If by mail, the signature of each registered owner as it appears in the account application;
- For purchase requests, payment of the full amount of the purchase request (see “Payment” below);
- For redemption requests, a Medallion Guarantee if required (see “Medallion Guarantee” below); and
- Any supporting legal documentation that may be required.

Purchase and redemption requests in good order will be processed at the next NAV calculated after the Fund’s transfer agent or an authorized intermediary¹ receives your request. If your request is not received in good order, additional documentation may be required to process your transaction. We reserve the right to waive any of the above requirements.

1. The Fund’s shares may be purchased through an intermediary that has entered into a dealer agreement with the Fund’s distributor. The Fund has approved the acceptance of a purchase or redemption request effective as of the time of its receipt by such an authorized intermediary or its designee, as long as the request is received by one of those entities prior to the Fund’s closing time. These intermediaries may charge transaction fees. We reserve the right to adjust the closing time in certain circumstances.

Medallion Guarantee. A Medallion Guarantee is only required for a mailed redemption request under the following circumstances: (1) if the address on your account was changed within the last 15 days; (2) if the amount of the redemption request exceeds \$100,000 and is to be paid to a bank account that is not currently on file with Allspring Funds or if all of the owners of your Allspring Fund account are not included in the registration of the bank account provided; or (3) if the redemption request proceeds are to be paid to a third party. You can get a Medallion Guarantee at a financial institution such as a bank or brokerage house. We do not accept notarized signatures.

Payment. Payment for Fund shares may be made as follows:

By Wire	Purchases into a new or existing account may be funded by using the following wire instructions: State Street Bank & Trust Boston, MA Bank Routing Number: ABA 011000028 Wire Purchase Account: 9905-437-1 Attention: Allspring Funds (Name of Fund, Account Number and any applicable share class) Account Name: Provide your name as registered on the Fund account or as included in your account application.
By Check	Make checks payable to Allspring Funds.
By Exchange	Identify an identically registered Allspring Fund account from which you wish to exchange (see “Exchanging Fund Shares” below for restrictions on exchanges).
By Electronic Funds Transfer (“EFT”)	Additional purchases for existing accounts may be funded by EFT using your linked bank account.

All payments must be in U.S. dollars, and all checks and EFTs must be drawn on U.S. banks. You will be charged a \$25.00 fee for every check or EFT that is returned to us as unpaid.

Form of Redemption Proceeds. You may request that your redemption proceeds be sent to you by check, by EFT into a linked bank account, or by wire to a linked bank account. Please call Investor Services at 1-800-222-8222 regarding the requirements for linking bank accounts or for wiring funds. Under normal circumstances, we expect to meet redemption requests either by using uninvested cash or cash equivalents or by using the proceeds from the sale of portfolio securities, at the discretion of the portfolio manager(s). The Allspring Funds may also borrow through a bank line of credit for the purpose of meeting redemption requests, although we do not expect to draw funds from this source on a regular basis. In lieu of making cash payments, we reserve the right to determine in our sole discretion, including under stressed market conditions, whether to satisfy one or more redemption requests by making payments in securities. In such cases, we may meet all or part of a redemption request by making payment in securities (“redemptions in-kind”) equal in value to the amount of the redemption payable to you as permitted under the 1940 Act, and the rules thereunder, in which case the redeeming shareholder should expect to incur transaction costs upon the disposition of any securities received. Generally, such redemptions in-kind will be effected through a pro rata distribution of all portfolio securities in the relevant Fund, except that cash will be paid for that portion of the in-kind distribution that would be represented by certain assets.

Timing of Redemption Proceeds. We normally will send out redemption proceeds within one business day after we accept your request to redeem. We reserve the right to delay payment for up to seven days. If you wish to redeem shares purchased by check, by EFT or through the Automatic Investment Plan within seven days of purchase, you may be asked to resubmit your redemption request if your payment has not yet cleared. Payment of redemption proceeds may be delayed for longer than seven days under extraordinary circumstances or as permitted by the SEC in order to protect remaining shareholders. Such extraordinary circumstances are discussed further in the Statement of Additional Information.

Retirement Plans and Other Products. If you purchased shares through a packaged investment product or retirement plan, read the directions for redeeming shares provided by the product or plan. There may be special requirements that supersede or are in addition to the requirements in this Prospectus.

Exchanging Fund Shares

Exchanges between two funds involve two transactions: (1) the redemption of shares of one fund; and (2) the purchase of shares of another. In general, the same rules and procedures described under “Buying and Selling Fund Shares” apply to exchanges. There are, however, additional policies and considerations you should keep in mind while making or considering an exchange:

- In general, exchanges may be made between like share classes of any fund in the Allspring Funds complex offered to the general public for investment (i.e., a fund not closed to new accounts), with the following exceptions: (1) Class A shares of non-money market funds may also be exchanged for Service Class shares of any retail or government money market fund; (2) Service Class shares may be exchanged for Class A shares of any non-money market fund; and (3) no exchanges are allowed into institutional money market funds.
- If you make an exchange between Class A shares of a money market fund or Class A2 or Class A shares of a

non-money market fund, you will buy the shares at the public offering price of the new fund, unless you are otherwise eligible to buy shares at NAV.

- Same-fund exchanges between share classes are permitted subject to the following conditions: (1) the shareholder must meet the eligibility guidelines of the class being purchased in the exchange; (2) exchanges out of Class A and Class C shares would not be allowed if shares are subject to a CDSC; and (3) for non-money market funds, in order to exchange into Class A shares, the shareholder must be able to qualify to purchase Class A shares at NAV based on current Prospectus guidelines.
- An exchange request will be processed on the same business day, provided that both funds are open at the time the request is received. If one or both funds are closed, the exchange will be processed on the following business day.
- You should carefully read the Prospectus for the Fund into which you wish to exchange.
- Every exchange involves redeeming fund shares, which may produce a capital gain or loss for tax purposes.
- If you are making an initial investment into a fund through an exchange, you must exchange at least the minimum initial investment amount for the new fund, unless your balance has fallen below that amount due to investment performance.
- If you are making an additional investment into a fund that you already own through an exchange, you must exchange at least the minimum subsequent investment amount for the fund you are exchanging into.
- Class A and Class C share exchanges will not trigger a CDSC. The new shares received in the exchange will continue to age according to the original shares' CDSC schedule and will be charged the CDSC applicable to the original shares upon redemption.

Generally, we will notify you at least 60 days in advance of any changes in the above exchange policies.

Frequent Purchases and Redemptions of Fund Shares

Allspring Funds reserves the right to reject any purchase or exchange order for any reason. If a shareholder redeems \$20,000 or more (including redemptions that are part of an exchange transaction) from a Covered Fund (as defined below), that shareholder is "blocked" from purchasing shares of that Covered Fund (including purchases that are part of an exchange transaction) for 30 calendar days after the redemption.

Excessive trading by Fund shareholders can negatively impact a Fund and its long-term shareholders in several ways, including disrupting Fund investment strategies, increasing transaction costs, decreasing tax efficiency, and diluting the value of shares held by long-term shareholders. Excessive trading in Fund shares can negatively impact a Fund's long-term performance by requiring it to maintain more assets in cash or to liquidate portfolio holdings at a disadvantageous time. Certain Funds may be more susceptible than others to these negative effects. For example, Funds that have a greater percentage of their investments in non-U.S. securities may be more susceptible than other Funds to arbitrage opportunities resulting from pricing variations due to time zone differences across international financial markets. Similarly, Funds that have a greater percentage of their investments in small company securities may be more susceptible than other Funds to arbitrage opportunities due to the less liquid nature of small company securities. Both types of Funds also may incur higher transaction costs in liquidating portfolio holdings to meet excessive redemption levels. Fair value pricing may reduce these arbitrage opportunities, thereby reducing some of the negative effects of excessive trading.

Allspring Funds, other than the Adjustable Rate Government Fund, Conservative Income Fund, Ultra Short-Term Income Fund and Ultra Short-Term Municipal Income Fund ("Ultra-Short Funds") and the money market funds, (the "Covered Funds"). The Covered Funds are not designed to serve as vehicles for frequent trading. The Covered Funds actively discourage and take steps to prevent the portfolio disruption and negative effects on long-term shareholders that can result from excessive trading activity by Covered Fund shareholders. The Board has approved the Covered Funds' policies and procedures, which provide, among other things, that Allspring Funds Management may deem trading activity to be excessive if it determines that such trading activity would likely be disruptive to a Covered Fund by increasing expenses or lowering returns. In this regard, the Covered Funds take steps to avoid accommodating frequent purchases and redemptions of shares by Covered Fund shareholders. Allspring Funds Management monitors available shareholder trading information across all Covered Funds on a daily basis. If a shareholder redeems \$20,000 or more (including redemptions that are part of an exchange transaction) from a Covered Fund, that shareholder is "blocked" from purchasing shares of that Covered Fund (including purchases that are part of an exchange transaction) for 30 calendar days after the redemption. This policy does not apply to:

- Money market funds;
- Ultra-Short Funds;
- Dividend reinvestments;

- Systematic investments or exchanges where the financial intermediary maintaining the shareholder account identifies the transaction as a systematic redemption or purchase at the time of the transaction;
- Rebalancing transactions within certain asset allocation or “wrap” programs where the financial intermediary maintaining a shareholder account is able to identify the transaction as part of an asset allocation program approved by Allspring Funds Management;
- Rebalancing transactions by an institutional client of Allspring Funds Management or its affiliate following a model portfolio offered by Allspring Funds Management or its affiliate;
- Transactions initiated by a “fund of funds” or Section 529 Plan into an underlying fund investment;
- Permitted exchanges between share classes of the same Fund;
- Certain transactions involving participants in employer-sponsored retirement plans, including: participant withdrawals due to mandatory distributions, rollovers and hardships, withdrawals of shares acquired by participants through payroll deductions, and shares acquired or sold by a participant in connection with plan loans;
- Purchases below \$20,000 (including purchases that are part of an exchange transaction); and
- Purchases effected in connection with in-kind redemptions in accordance with the Funds’ Policies and Procedures for Disclosure of Fund Portfolio Holdings.

The money market funds and the Ultra-Short Funds. Because the money market funds and Ultra-Short Funds are often used for short-term investments, they are designed to accommodate more frequent purchases and redemptions than the Covered Funds. As a result, the money market funds and Ultra-Short Funds do not anticipate that frequent purchases and redemptions, under normal circumstances, will have significant adverse consequences to the money market funds or Ultra-Short Funds or their shareholders. Although the money market funds and Ultra-Short Funds do not prohibit frequent trading, Allspring Funds Management will seek to prevent an investor from utilizing the money market funds and Ultra-Short Funds to facilitate frequent purchases and redemptions of shares in the Covered Funds in contravention of the policies and procedures adopted by the Covered Funds.

All Allspring Funds. In addition, Allspring Funds Management reserves the right to accept purchases, redemptions and exchanges made in excess of applicable trading restrictions in designated accounts held by Allspring Funds Management or its affiliate that are used at all times exclusively for addressing operational matters related to shareholder accounts, such as testing of account functions, and are maintained at low balances that do not exceed specified dollar amount limitations.

In the event that an asset allocation or “wrap” program is unable to implement the policy outlined above, Allspring Funds Management may grant a program-level exception to this policy. A financial intermediary relying on the exception is required to provide Allspring Funds Management with specific information regarding its program and ongoing information about its program upon request.

A financial intermediary through whom an investor may purchase shares of the Fund may independently attempt to identify excessive trading and take steps to deter such activity. As a result, a financial intermediary may on its own limit or permit trading activity of its customers who invest in Fund shares using standards different from the standards used by Allspring Funds Management and discussed in the applicable Fund’s Prospectus. Allspring Funds Management may permit a financial intermediary to enforce its own internal policies and procedures concerning frequent trading rather than the policies set forth above in instances where Allspring Funds Management reasonably believes that the intermediary’s policies and procedures effectively discourage disruptive trading activity. If an investor purchases Fund shares through a financial intermediary, the investor should be instructed to contact the intermediary for more information about whether and how restrictions or limitations on trading activity will be applied to the investor’s account.

Account Policies

Automatic Plans. These plans help you conveniently purchase and/or redeem shares each month. Once you select a plan, tell us the day of the month you would like the transaction to occur. If you do not specify a date, we will process the transaction on or about the 25th day of the month. It generally takes about ten business days to establish a plan once we have received your instructions and it generally takes about five business days to change or cancel participation in a plan. We may automatically cancel your plan if the linked bank account you specified is closed, or for other reasons. Call Investor Services at 1-800-222-8222 for more information.

- Automatic Investment Plan — With this plan, you can regularly purchase shares of a Allspring Fund with money automatically transferred from a linked bank account.
- Automatic Exchange Plan — With this plan, you can regularly exchange shares of a Allspring Fund you own for shares of another Allspring Fund. See the section “Exchanging Fund Shares” of this Prospectus for the policies that apply to

exchanges. In addition, each transaction in an Automatic Exchange Plan must be for a minimum of \$100. This feature may not be available for certain types of accounts.

- **Systematic Withdrawal Plan** — With this plan, you can regularly redeem shares and receive the proceeds by check or by transfer to a linked bank account. To participate in this plan, you:
 - must have a Fund account valued at \$10,000 or more;
 - must request a minimum redemption of \$100;
 - must have your distributions reinvested; and
 - may not simultaneously participate in the Automatic Investment Plan, except for investments in a Money Market Fund or an Ultra Short-Term Bond Fund (Ultra Short-Term Income Fund or Ultra Short-Term Municipal Income Fund).
- **Payroll Direct Deposit Plan** — With this plan, you may regularly transfer all or a portion of your paycheck, social security check, military allotment, or annuity payment for investment into the Fund of your choice.

Householding. To help keep Fund expenses low, a single copy of a Prospectus or shareholder report may be sent to shareholders of the same household. If your household currently receives a single copy of a Prospectus or shareholder report and you would prefer to receive multiple copies, please call Investor Services at 1-800-222-8222 or contact your financial professional.

Retirement Accounts. We offer a variety of retirement account types for individuals and small businesses. There may be special distribution requirements for a retirement account, such as required distributions or mandatory Federal income tax withholdings. For more information about the retirement accounts listed below, including any distribution requirements, call Investor Services at 1-800-222-8222. For retirement accounts held directly with a Fund, certain fees may apply, including an annual account maintenance fee.

The retirement accounts available for individuals and small businesses are:

- Individual Retirement Accounts, including Traditional IRAs and Roth IRAs.
- Small business retirement accounts, including Simple IRAs and SEP IRAs.

Small Account Redemptions. We reserve the right to redeem accounts that have values that fall below a Fund's minimum initial investment amount due to shareholder redemptions (as opposed to market movement). Before doing so, we will give you approximately 60 days to bring your account value above the Fund's minimum initial investment amount. Please call Investor Services at 1-800-222-8222 or contact your financial professional for further details.

Transaction Authorizations. We may accept telephone, electronic, and clearing agency transaction instructions from anyone who represents that he or she is a shareholder and provides reasonable confirmation of his or her identity. Neither we nor Allspring Funds will be liable for any losses incurred if we follow such instructions we reasonably believe to be genuine. For transactions through our website, we may assign personal identification numbers (PINs) and you will need to create a login ID and password for account access. To safeguard your account, please keep these credentials confidential. Contact us immediately if you believe there is a discrepancy on your confirmation statement or if you believe someone has obtained unauthorized access to your online access credentials.

Identity Verification. We are required by law to obtain from you certain personal information that will be used to verify your identity. If you do not provide the information, we will not be able to open your account. In the rare event that we are unable to verify your identity as required by law, we reserve the right to redeem your account at the current NAV of the Fund's shares. You will be responsible for any losses, taxes, expenses, fees, or other results of such a redemption.

Right to Freeze Accounts, Suspend Account Services or Reject or Terminate an Investment. We reserve the right, to the extent permitted by law and/or regulations, to freeze any account or suspend account services when we have received reasonable notice (written or otherwise) of a dispute between registered or beneficial account owners or when we believe a fraudulent transaction may occur or has occurred. Additionally, we reserve the right to reject any purchase or exchange request and to terminate a shareholder's investment, including closing the shareholder's account.

Advance Notice of Large Transactions. We strongly urge you to make all purchases and redemptions of Fund shares as early in the day as possible and to notify us or your intermediary at least one day in advance of transactions in Fund shares in excess of \$1 million. This will help us manage the Funds most effectively. When you give this advance notice, please provide your name and account number.

Distributions

The Fund declares distributions of any net investment income daily, and pays such distributions monthly. The Fund generally makes distributions of any realized net capital gains annually. Please note, distributions have the effect of reducing the NAV per share by the amount distributed.

We offer the following distribution options. To change your current option for payment of distributions, please call Investor Services at 1-800-222-8222.

- **Automatic Reinvestment Option**—Allows you to use distributions to buy new shares of the same class of the Fund that generated the distributions. The new shares are purchased at NAV generally on the day the distribution is paid. This option is automatically assigned to your account unless you specify another option.
- **Check Payment Option**—Allows you to receive distributions via checks mailed to your address of record or to another name and address which you have specified in written instructions. A Medallion Guarantee may also be required. If checks remain uncashed for six months or are undeliverable by the Post Office, we will reinvest the distributions at the earliest date possible, and future distributions will be automatically reinvested.
- **Bank Account Payment Option**—Allows you to receive distributions directly in a checking or savings account through EFT. The bank account must be linked to your Allspring Fund account. Any distribution returned to us due to an invalid banking instruction will be sent to your address of record by check at the earliest date possible, and future distributions will be automatically reinvested.
- **Directed Distribution Purchase Option**—Allows you to buy shares of a different Allspring Fund of the same share class. The new shares are purchased at NAV generally on the day the distribution is paid. In order to use this option, you need to identify the Fund and account the distributions are coming from, and the Fund and account to which the distributions are being directed. You must meet any required minimum investment amounts in both Funds prior to using this option.

You are eligible to earn distributions beginning on the business day after the Fund's transfer agent or an authorized intermediary receives your purchase request in good order.

Taxes

The following discussion regarding federal income taxes is based on laws that were in effect as of the date of this Prospectus and summarizes only some of the important federal income tax considerations affecting the Funds and you as a shareholder. It does not apply to foreign or tax-exempt shareholders or those holding Fund shares through a tax-advantaged account, such as a 401(k) Plan or IRA. This discussion is not intended as a substitute for careful tax planning. You should consult your tax adviser about your specific tax situation. Please see the Statement of Additional Information for additional federal income tax information.

The Fund elected to be treated and intends to qualify each year as a regulated investment company ("RIC") under the Internal Revenue Code of 1986, as amended. A RIC is not subject to tax at the corporate level on income and gains from investments that are distributed in a timely manner to shareholders. However, the Fund's failure to qualify as a RIC would result in corporate level taxation, and consequently, a reduction in income available for distribution to you as a shareholder.

We will pass on to a Fund's shareholders substantially all of the Fund's net investment income and realized net capital gains, if any. It is intended that distributions from the Fund's net interest income from municipal obligations generally will not be subject to federal income tax, although a portion of such distributions could be subject to federal AMT for individual shareholders. Individual shareholders should consult their tax advisers regarding their specific tax situation. For the state-specific Funds, it is intended that distributions attributable to tax-exempt securities of a state and its subdivisions will also not be subject to that particular state's individual income taxes if the Fund primarily invests in such securities. Distributions from a Fund's ordinary income and net short-term capital gain, if any, generally will be taxable to you as ordinary income. Distributions from a Fund's net long-term capital gain, if any, generally will be taxable to you as long-term capital gain.

Corporate shareholders should not expect to deduct a portion of their distributions when determining their taxable income.

Individual taxpayers are subject to a maximum tax rate of 37% on ordinary income and a maximum tax rate on long-term capital gains and qualified dividends of 20%. For U.S. individuals with income exceeding \$200,000 (\$250,000 if married and filing jointly), a 3.8% Medicare contribution tax will apply on "net investment income," including interest, dividends, and capital gains. Corporations are subject to tax on all income and gains at a tax rate of 21%.

To the extent a distribution from a Fund is taxable, such distribution generally will be taxable to you when paid, whether you take distributions in cash or automatically reinvest them in additional Fund shares. Following the end of each year, we will notify you of the federal income tax status of your distributions for the year.

If you buy shares of a Fund shortly before it makes a taxable distribution, your distribution will, in effect, be a taxable return of part of your investment. Similarly, if you buy shares of a Fund when it holds appreciated securities, you will receive a taxable return of part of your investment if and when the Fund sells the appreciated securities and distributes the gain. The Funds have built up, or have the potential to build up, high levels of unrealized appreciation.

Your redemptions (including redemptions in-kind) and exchanges of Fund shares ordinarily will result in a taxable capital gain or loss, depending on the amount you receive for your shares (or are deemed to receive in the case of exchanges) and the amount you paid (or are deemed to have paid) for them. Such capital gain or loss generally will be long-term capital gain or loss if you have held your redeemed or exchanged Fund shares for more than one year at the time of redemption or exchange. In certain circumstances, losses realized on the redemption or exchange of Fund shares may be disallowed.

When you receive a distribution from a Fund or redeem shares, you may be subject to backup withholding.

Financial Highlights

The following table is intended to help you understand a Fund's financial performance for the past five years (or since inception, if shorter). Certain information reflects financial results for a single Fund share. Total returns represent the rate you would have earned (or lost) on an investment in the Fund (assuming reinvestment of all distributions). The information in the following table has been derived from the Fund's financial statements which have been audited by KPMG LLP, the Fund's independent registered public accounting firm, whose report, along with the Fund's financial statements, is included in the Fund's filing on Form N-CSR, a copy of which is available upon request.

Ultra Short-Term Municipal Income Fund

For a share outstanding throughout each period

FOR MORE INFORMATION

More information on a Fund is available free upon request, including the following documents:

Statement of Additional Information (“SAI”)

Supplements the disclosures made by this Prospectus.

The SAI, which has been filed with the SEC, is incorporated by reference into this Prospectus and therefore is legally part of this Prospectus.

Annual/Semi-Annual Reports and Long Form Financial Statements

Additional information about a Fund’s investments is available in the Fund’s annual and semi-annual reports to shareholders and in the annual and semi-annual long form financial statements filed on Form N-CSR. In the Fund’s annual report, you will find a discussion of the market conditions and investment strategies that significantly affected the Fund’s performance during its last fiscal year.
