**ANDREW OWEN**

President
Allspring Funds

Dear Shareholder:

We are pleased to offer you this semi-annual report for the Allspring California Tax-Free Fund for the six-month period that ended December 31, 2023. Globally, stocks and bonds experienced high levels of volatility during the period but gained overall. The market was focused on the impact of ongoing aggressive central bank rate hikes on persistently high inflation. As inflation finally gradually declined, anticipation rose over an end to the central bank monetary tightening cycle. For the six-month period, domestic U.S. and global stocks and bonds had positive overall results, with U.S. stocks leading the way. After suffering deep and broad losses through 2022, bonds now benefit from a base of higher yields that can help generate higher income.

For the period, U.S. stocks, based on the S&P 500 Index,¹ returned 8.04%. International stocks, as measured by the MSCI ACWI ex USA Index (Net),² gained 5.61% while the MSCI EM Index (Net) (USD)³ returned 4.71%. Among bond indexes, the Bloomberg U.S. Aggregate Bond Index⁴ returned 3.37%, the Bloomberg Global Aggregate ex-USD Index (unhedged)⁵ gained 4.85%, the Bloomberg Municipal Bond Index⁶ returned 3.63%, and the ICE BofA U.S. High Yield Index⁷ returned 7.67%.

Still focused on high inflation and elevated central bank rates, markets were volatile.

The six-month period began on a positive note in July for stocks as well as bonds. Riskier sectors and regions tended to do well, as investors grew more optimistic regarding economic prospects. With strong second quarter gross domestic product (GDP) growth—initially estimated at 2.4%—and U.S. annual inflation easing steadily to 3.2% in July, hopes for a soft economic landing grew. The Federal Reserve (Fed), the European Central Bank (ECB), and the Bank of England (BoE) all raised their respective key interest rates by 0.25% in July. In the Fed's case, speculation grew that it could be very close to the end of its tightening cycle. Meanwhile, China's economy showed signs of stagnation, renewing concerns of global fallout.

Stocks retreated in August while monthly bond returns were flat overall. Increased global market volatility reflected unease over the Chinese property market being stressed along with weak Chinese economic data. However, speculation grew over a possible end to the Fed's campaign of interest rate increases or at least a pause in September. U.S. economic data generally remained solid, with resilient job market data and inflation ticking up slightly in August, as the annual Consumer Price Index (CPI)⁸ rose 3.7%. However, the three-month trend for Core CPI⁹, stood at an annualized 2.4%.

“ With strong second-quarter gross domestic product growth—initially estimated at 2.4%—and U.S. annual inflation easing steadily to 3.2% in July, hopes for a soft economic landing grew. ”

¹ The S&P 500 Index consists of 500 stocks chosen for market size, liquidity, and industry group representation. It is a market-value-weighted index with each stock's weight in the index proportionate to its market value. You cannot invest directly in an index.

² The Morgan Stanley Capital International (MSCI) All Country World Index (ACWI) ex USA Index (Net) is a free-float-adjusted market-capitalization-weighted index that is designed to measure the equity market performance of developed and emerging markets, excluding the U.S. Source: MSCI. MSCI makes no express or implied warranties or representations and shall have no liability whatsoever with respect to any MSCI data contained herein. The MSCI data may not be further redistributed or used as a basis for other indexes or any securities or financial products. This report is not approved, reviewed, or produced by MSCI. You cannot invest directly in an index.

³ The MSCI Emerging Markets (EM) Index (Net) (USD) is a free-float-adjusted market-capitalization-weighted index that is designed to measure the equity market performance of emerging markets. You cannot invest directly in an index.

⁴ The Bloomberg U.S. Aggregate Bond Index is a broad-based benchmark that measures the investment-grade, U.S.-dollar-denominated, fixed-rate taxable bond market, including Treasuries, government-related and corporate securities, mortgage-backed securities (agency fixed-rate and hybrid adjustable-rate mortgage pass-throughs), asset-backed securities, and commercial mortgage-backed securities. You cannot invest directly in an index.

⁵ The Bloomberg Global Aggregate ex-USD Index (unhedged) is an unmanaged index that provides a broad-based measure of the global investment-grade fixed income markets excluding the U.S.-dollar-denominated debt market. You cannot invest directly in an index.

⁶ The Bloomberg Municipal Bond Index is an unmanaged index composed of long-term tax-exempt bonds with a minimum credit rating of Baa. You cannot invest directly in an index.

⁷ The ICE BofA U.S. High Yield Index is a market-capitalization-weighted index of domestic and Yankee high yield bonds. The index tracks the performance of high yield securities traded in the U.S. bond market. You cannot invest directly in an index. Copyright 2024. ICE Data Indices, LLC. All rights reserved.

⁸ The Consumer Price Index (CPI) is a measure of the average change over time in the prices paid by urban consumers for a market basket of consumer goods and services. You cannot invest directly in an index.

⁹ The Core CPI is a measure of the average change over time in the prices paid by urban consumers for a market basket of consumer goods and services excluding energy and food prices. You cannot invest directly in an index.

Stocks and bonds both had negative overall returns in September as investors reluctantly recited the new chorus of “higher for longer,” led by the Fed’s determination not to lower interest rates until it knows it has vanquished its pesky opponent—higher-than-targeted inflation. As of September, the two primary gauges of U.S. inflation—the annual Core Personal Consumption Expenditures Price Index¹ and the CPI—both stood at roughly 4%, twice as high as the Fed’s oft-stated 2% target. The month ended with the prospect of yet another U.S. government shutdown, averted at least temporarily but looming in the coming months.

October was a tough month for financial markets overall. Key global indexes were pushed down by rising geopolitical tensions—particularly the Israel-Hamas conflict, and concerns over the Fed’s “higher for longer” monetary policy. The U.S. 10-year Treasury yield rose above 5% for the first time since 2007. Commodity prices did well as oil prices rallied in response to the prospect of oil supply disruptions from the Middle East. U.S. annualized third quarter GDP was estimated at a healthier-than-anticipated 4.9%. China’s GDP indicated surprisingly strong industrial production and retail sales, offset by ongoing weakness in its real estate sector.

In November, the market mood turned positive as cooling inflation inspired confidence that central banks could hold off on further rate hikes. Overall annual inflation in the U.S. fell to 3.1% in November while 12-month inflation in the U.K. and eurozone eased to 4.6% and 2.4%, respectively—far below their peak levels of mid-2022. Third quarter annualized U.S. GDP growth was raised to an estimated 5.2% while U.S. job totals rose by just below 200,000 in November, indicating a slight cooling of the labor market. All of this fresh evidence added to confidence for a U.S. soft economic landing, leading to a more buoyant mood heading into winter as the Federal Open Market Committee held rates steady at its December meeting.

The broad year-end rally among stocks and bonds that began in November continued through December as investors became more confident that monetary policy would ease in 2024. Supporting the bubbly market mood were a series of reports confirming lower inflationary trends in the U.S. and Europe. During the period, it appeared more likely that the U.S. economy could achieve a soft landing, cooling enough to lower inflation without the pain of a recession. However, by year-end, an expectations gap developed. Capital markets priced in a total of 1.50 percentage points in federal funds rate cuts in 2024, twice as much as the three cuts of 0.25% hinted at by Fed officials.

¹ The Core Personal Consumption Expenditures Price Index (PCE) is a measure of prices that people living in the United States, or those buying on their behalf, pay for goods and services. It is sometimes called the core PCE price index, because two categories that can have price swings – food and energy – are left out to make underlying inflation easier to see. You cannot invest directly in an index.

For further information about your fund, contact your investment professional, visit our website at allspringglobal.com, or call us directly at **1-800-222-8222**.

Don't let short-term uncertainty derail long-term investment goals.

Periods of investment uncertainty can present challenges, but experience has taught us that maintaining long-term investment goals can be an effective way to plan for the future. To help you create a sound strategy based on your personal goals and risk tolerance, Allspring Funds offers more than 100 mutual funds spanning a wide range of asset classes and investment styles. Although diversification cannot guarantee an investment profit or prevent losses, we believe it can be an effective way to manage investment risk and potentially smooth out overall portfolio performance. We encourage investors to know their investments and to understand that appropriate levels of risk-taking may unlock opportunities.

Thank you for choosing to invest with Allspring Funds. We appreciate your confidence in us and remain committed to helping you meet your financial needs.

Sincerely,

Andrew Owen
President
Allspring Funds

Notice to Shareholders

Beginning in July 2024, the Fund will be required by the Securities and Exchange Commission to send shareholders a paper copy of a new tailored shareholder report in place of the full shareholder report that you are now receiving. The tailored shareholder report will contain concise information about the Fund, including certain expense and performance information and fund statistics. If you wish to receive this new tailored shareholder report electronically, please follow the instructions on the back cover of this report.

Other information that is currently included in the shareholder report, such as the Fund's financial statements, will be available online and upon request, free of charge, in paper or electronic format.

Performance highlights

Investment objective The Fund seeks current income exempt from federal income tax and California individual income tax.

Portfolio managers Terry J. Goode, Kim Nakahara, Adrian Van Poppel

AVERAGE ANNUAL TOTAL RETURNS (%) AS OF DECEMBER 31, 2023

	INCEPTION DATE	INCLUDING SALES CHARGE			EXCLUDING SALES CHARGE			EXPENSE RATIOS ¹ (%)	
		1 YEAR	5 YEAR	10 YEAR	1 YEAR	5 YEAR	10 YEAR	GROSS	NET ²
Class A (SCTAX)	10-6-1988	0.78	0.47	2.22	5.49	1.39	2.69	0.82	0.75
Class C (SCTCX)	7-1-1993	3.76	0.63	2.08	4.76	0.63	2.08	1.57	1.50
Administrator Class (SGCAX)	12-15-1997	–	–	–	5.69	1.60	2.88	0.77	0.55
Institutional Class (SGTIX) ³	10-31-2014	–	–	–	5.77	1.65	2.95	0.50	0.48
Bloomberg Municipal Bond Index ⁴	–	–	–	–	6.40	2.25	3.03	–	–
Bloomberg California Municipal Bond Index ⁵	–	–	–	–	6.22	2.25	3.10	–	–

Figures quoted represent past performance, which is no guarantee of future results, and do not reflect taxes that a shareholder may pay on an investment in a fund. Investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Performance shown without sales charges would be lower if sales charges were reflected. Current performance may be lower or higher than the performance data quoted, which assumes the reinvestment of dividends and capital gains. Current month-end performance is available on the Fund's website, allspringglobal.com.

Index returns do not include transaction costs associated with buying and selling securities, any mutual fund fees or expenses, or any taxes. It is not possible to invest directly in an index.

For Class A shares, the maximum front-end sales charge is 4.50%. For Class C shares, the maximum contingent deferred sales charge is 1.00%. Performance including a contingent deferred sales charge assumes the sales charge for the corresponding time period. Administrator Class and Institutional Class shares are sold without a front-end sales charge or contingent deferred sales charge.

¹ Reflects the expense ratios as stated in the most recent prospectuses. The expense ratios shown are subject to change and may differ from the annualized expense ratios shown in the Financial Highlights of this report.

² The manager has contractually committed through October 31, 2024, to waive fees and/or reimburse expenses to the extent necessary to cap total annual fund operating expenses after fee waivers at 0.75% for Class A, 1.50% for Class C, 0.55% for Administrator Class and 0.48% for Institutional Class. Brokerage commissions, stamp duty fees, interest, taxes, acquired fund fees and expenses (if any), and extraordinary expenses are excluded from the expense caps. Prior to or after the commitment expiration date, the caps may be increased or the commitment to maintain the caps may be terminated only with the approval of the Board of Trustees. Without these caps, the Fund's returns would have been lower. The expense ratio paid by an investor is the net expense ratio (the total annual fund operating expenses after fee waivers) as stated in the prospectuses.

³ Historical performance shown for the Institutional Class shares prior to their inception reflects the performance of the Administrator Class shares, and includes the higher expenses applicable to the Administrator Class shares. If these expenses had not been included, returns for the Institutional Class shares would be higher.

⁴ The Bloomberg Municipal Bond Index is an unmanaged index composed of long-term tax-exempt bonds with a minimum credit rating of Baa. You cannot invest directly in an index.

⁵ The Bloomberg California Municipal Bond Index is the California component of the Bloomberg Municipal Bond Index. You cannot invest directly in an index.

Bond values fluctuate in response to the financial condition of individual issuers, general market and economic conditions, and changes in interest rates. Changes in market conditions and government policies may lead to periods of heightened volatility in the bond market and reduced liquidity for certain bonds held by the Fund. In general, when interest rates rise, bond values fall and investors may lose principal value. Interest rate changes and their impact on the Fund and its share price can be sudden and unpredictable. The use of derivatives may reduce returns and/or increase volatility. Certain investment strategies tend to increase the total risk of an investment (relative to the broader market). This fund is exposed to California municipal securities risk, high-yield securities risk, and non-diversification risk. Consult the Fund's prospectus for additional information on these and other risks. A portion of the Fund's income may be subject to federal, state, and/or local income taxes or the Alternative Minimum Tax (AMT). Any capital gains distributions may be taxable.

CREDIT QUALITY AS OF DECEMBER 31, 2023¹

¹ The credit quality distribution of portfolio holdings reflected in the chart is based on ratings from Standard & Poor's, Moody's Investors Service, and/or Fitch Ratings Ltd. Credit quality ratings apply to the underlying holdings of the Fund and not to the Fund itself. The percentages of the portfolio with the ratings depicted in the chart are calculated based on the market value of fixed income securities held by the Fund. If a security was rated by all three rating agencies, the middle rating was utilized. If rated by two of the three rating agencies, the lower rating was utilized, and if rated by one of the rating agencies, that rating was utilized. Standard & Poor's rates the creditworthiness of bonds, ranging from AAA (highest) to D (lowest). Ratings from A to CCC may be modified by the addition of a plus (+) or minus (-) sign to show relative standing within the rating categories. Standard & Poor's rates the creditworthiness of short-term notes from SP-1 (highest) to SP-3 (lowest). Moody's rates the creditworthiness of bonds, ranging from Aaa (highest) to C (lowest). Ratings Aa to B may be modified by the addition of a number 1 (highest) to 3 (lowest) to show relative standing within the ratings categories. Moody's rates the creditworthiness of short-term U.S. tax-exempt municipal securities from MIG 1/VMIG 1 (highest) to SG (lowest). Fitch rates the creditworthiness of bonds, ranging from AAA (highest) to D (lowest). Credit quality distribution is subject to change and may have changed since the date specified.

EFFECTIVE MATURITY DISTRIBUTION AS OF DECEMBER 31, 2023¹

¹ Figures represent the percentage of the Fund's long-term investments. Allocations are subject to change and may have changed since the date specified.

Fund expenses

As a shareholder of the Fund, you incur two types of costs: (1) transaction costs, including sales charges (loads) on purchase payments and contingent deferred sales charges (if any) on redemptions and (2) ongoing costs, including management fees, distribution (12b-1) and/or shareholder servicing fees, and other Fund expenses. This example is intended to help you understand your ongoing costs (in dollars) of investing in the Fund and to compare these costs with the ongoing costs of investing in other mutual funds.

The example is based on an investment of \$1,000 invested at the beginning of the six-month period and held for the entire period from July 1, 2023 to December 31, 2023.

Actual expenses

The "Actual" line of the table below provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the "Actual" line under the heading entitled "Expenses paid during period" for your applicable class of shares to estimate the expenses you paid on your account during this period.

Hypothetical example for comparison purposes

The "Hypothetical" line of the table below provides information about hypothetical account values and hypothetical expenses based on the Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as sales charges (loads) and contingent deferred sales charges. Therefore, the "Hypothetical" line of the table is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

	BEGINNING ACCOUNT VALUE 7-1-2023	ENDING ACCOUNT VALUE 12-31-2023	EXPENSES PAID DURING THE PERIOD ¹	ANNUALIZED NET EXPENSE RATIO
Class A				
Actual	\$ 1,000.00	\$ 1,034.50	\$ 3.81	0.75%
Hypothetical (5% return before expenses)	\$ 1,000.00	\$ 1,021.25	\$ 3.79	0.75%
Class C				
Actual	\$ 1,000.00	\$ 1,030.30	\$ 7.61	1.50%
Hypothetical (5% return before expenses)	\$ 1,000.00	\$ 1,017.50	\$ 7.57	1.50%
Administrator Class				
Actual	\$ 1,000.00	\$ 1,035.50	\$ 2.80	0.55%
Hypothetical (5% return before expenses)	\$ 1,000.00	\$ 1,022.25	\$ 2.78	0.55%
Institutional Class				
Actual	\$ 1,000.00	\$ 1,035.90	\$ 2.44	0.48%
Hypothetical (5% return before expenses)	\$ 1,000.00	\$ 1,022.60	\$ 2.43	0.48%

¹ Expenses paid is equal to the annualized net expense ratio of each class multiplied by the average account value over the period, multiplied by 183 divided by 366 (to reflect the one-half-year period).

144A The security may be resold in transactions exempt from registration, normally to qualified institutional buyers, pursuant to Rule 144A under the Securities Act of 1933.

- ☐ The security is issued in zero coupon form with no periodic interest payments.
- ø Variable rate demand notes are subject to a demand feature which reduces the effective maturity. The maturity date shown represents the final maturity date of the security. The interest rate is determined and reset by the issuer daily, weekly, or monthly depending upon the terms of the security. The rate shown is the rate in effect at period end.
- øø The interest rate is determined and reset by the issuer periodically depending upon the terms of the security. The rate shown is the rate in effect at period end.
- ♣ The issuer of the security is an affiliated person of the Fund as defined in the Investment Company Act of 1940.
- ∞ The rate represents the 7-day annualized yield at period end.

Abbreviations:

AGC	Assured Guaranty Corporation
AGM	Assured Guaranty Municipal
Ambac	Ambac Financial Group Incorporated
AMT	Alternative minimum tax
BAM	Build America Mutual Assurance Company
CAB	Capital appreciation bond
CDA	Community Development Authority

FHLMC	Federal Home Loan Mortgage Corporation
GO	General obligation
HFFA	Health Facilities Financing Authority
LOC	Letter of credit
NPFGC	National Public Finance Guarantee Corporation
PCFA	Pollution Control Financing Authority
PFA	Public Finance Authority

Investments in affiliates

An affiliated investment is an investment in which the Fund owns at least 5% of the outstanding voting shares of the issuer or as a result of other relationships, such as the Fund and the issuer having the same investment manager. Transactions with issuers that were affiliates of the Fund at the end of the period were as follows:

	VALUE, BEGINNING OF PERIOD	PURCHASES	SALES PROCEEDS	NET REALIZED GAINS (LOSSES)	NET CHANGE IN UNREALIZED GAINS (LOSSES)	VALUE, END OF PERIOD	SHARES, END OF PERIOD	INCOME FROM AFFILIATED SECURITIES

Notes to financial statements

1. ORGANIZATION

Allspring Funds Trust (the "Trust"), a Delaware statutory trust organized on March 10, 1999, is an open-end management investment company registered under the Investment Company Act of 1940, as amended (the "1940 Act"). As an investment company, the Trust follows the accounting and reporting guidance in Financial Accounting Standards Board ("FASB") Accounting Standards Codification Topic 946, *Financial Services – Investment Companies*. These financial statements report on the Allspring California Tax-Free Fund (the "Fund") which is a non-diversified series of the Trust.

2. SIGNIFICANT ACCOUNTING POLICIES

The following significant accounting policies, which are consistently followed in the preparation of the financial statements of the Fund, are in conformity with U.S. generally accepted accounting principles which require management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of income and expenses during the reporting period. Actual results could differ from those estimates.

Securities valuation

All investments are valued each business day as of the close of regular trading on the New York Stock Exchange (generally 4 p.m. Eastern Time), although the Fund may deviate from this calculation time under unusual or unexpected circumstances.

Debt securities are valued at the evaluated bid price provided by an independent pricing service (e.g. taking into account various factors, including yields, maturities, or credit ratings) or, if a reliable price is not available, the quoted bid price from an independent broker-dealer.

Futures contracts that are listed on a foreign or domestic exchange or market are valued at the official closing price or, if none, the last sales price.

Investments in registered open-end investment companies (other than those listed on a foreign or domestic exchange or market) are valued at net asset value.

Investments which are not valued using the methods discussed above are valued at their fair value, as determined in good faith by Allspring Funds Management, LLC ("Allspring Funds Management"), which was named the valuation designee by the Board of Trustees. As the valuation designee, Allspring Funds Management is responsible for day-to-day valuation activities for the Allspring Funds. In connection with these responsibilities, Allspring Funds Management has established a Valuation Committee and has delegated to it the authority to take any actions regarding the valuation of portfolio securities that the Valuation Committee deems necessary or appropriate, including determining the fair value of portfolio securities. On a quarterly basis, the Board of Trustees receives reports of valuation actions taken by the Valuation Committee. On at least an annual basis, the Board of Trustees receives an assessment of the adequacy and effectiveness of Allspring Funds Management's process for determining the fair value of the portfolio of investments.

Futures contracts

Futures contracts are agreements between the Fund and a counterparty to buy or sell a specific amount of a commodity, financial instrument or currency at a specified price and on a specified date. The Fund may buy and sell futures contracts in order to gain exposure to, or protect against, changes in interest rates and is subject to interest rate risk. The primary risks associated with the use of futures contracts are the imperfect correlation between changes in market values of securities held by the Fund and the prices of futures contracts, and the possibility of an illiquid market. Futures contracts are generally entered into on a regulated futures exchange and cleared through a clearinghouse associated with the exchange. With futures contracts, there is minimal counterparty risk to the Fund since futures contracts are exchange-traded and the exchange's clearinghouse, as the counterparty to all exchange-traded futures, guarantees the futures contracts against default.

Upon entering into a futures contracts, the Fund is required to deposit either cash or securities (initial margin) with the broker in an amount equal to a certain percentage of the contract value. Subsequent payments (variation margin) are paid to or received from the broker each day equal to the daily changes in the contract value. Such payments are recorded as unrealized gains or losses and, if any, shown as variation margin receivable (payable) in the Statement of Assets and Liabilities. Should the Fund fail to make requested variation margin payments, the broker can gain access to the initial margin to satisfy the Fund's payment obligations. When the contracts are closed, a realized gain or loss is recorded in the Statement of Operations.

Security transactions and income recognition

Securities transactions are recorded on a trade date basis. Realized gains or losses are recorded on the basis of identified cost.

Interest income is accrued daily and bond discounts are accreted and premiums are amortized daily. To the extent debt obligations are placed on non-accrual status, any related interest income may be reduced by writing off interest receivables when the collection of all or a portion of interest has been determined to be doubtful based on consistently applied procedures and the fair value has decreased. If the issuer subsequently resumes interest payments or when the collectability of interest is reasonably assured, the debt obligation is removed from non-accrual status.

Interest earned on cash balances held at the custodian is recorded as interest income.

Distributions to shareholders

Distributions to shareholders from net investment income are declared daily and paid monthly. Distributions from net realized gains, if any, are recorded on the ex-dividend date and paid at least annually. Such distributions are determined in accordance with income tax regulations and may differ from U.S. generally accepted accounting principles. Dividend sources are estimated at the time of declaration. The tax character of distributions is determined as of the Fund's fiscal year end. Therefore, a portion of the Fund's distributions made prior to the Fund's fiscal year end may be categorized as a tax return of capital at year end.

Federal and other taxes

The Fund intends to continue to qualify as a regulated investment company by distributing substantially all of its investment company taxable and tax-exempt income and any net realized capital gains (after reduction for capital loss carryforwards) sufficient to relieve it from all, or substantially all, federal income taxes. Accordingly, no provision for federal income taxes was required.

The Fund's income and federal excise tax returns and all financial records supporting those returns for the prior three fiscal years are subject to examination by the federal and Delaware revenue authorities. Management has analyzed the Fund's tax positions taken on federal, state, and foreign tax returns, as applicable, for all open tax years and does not believe that there are any uncertain tax positions that require recognition of a tax liability.

As of December 31, 2023, the aggregate cost of all investments for federal income tax purposes was \$692,051,993 and the unrealized gains (losses) consisted of:

Gross unrealized gains	\$ 18,809,342
Gross unrealized losses	(18,076,062)
Net unrealized gains	\$ 733,280

As of June 30, 2023, the Fund had capital loss carryforwards which consisted of \$47,829,369 in short-term capital losses and \$33,723,516 in long-term capital losses.

Class allocations

The separate classes of shares offered by the Fund differ principally in applicable sales charges, distribution, shareholder servicing, and administration fees. Class specific expenses are charged directly to that share class. Investment income, common fund-level expenses, and realized and unrealized gains (losses) on investments are allocated daily to each class of shares based on the relative proportion of net assets of each class.

3. FAIR VALUATION MEASUREMENTS

Fair value measurements of investments are determined within a framework that has established a fair value hierarchy based upon the various data inputs utilized in determining the value of the Fund's investments. The three-level hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The Fund's investments are classified within the fair value hierarchy based on the lowest level of input that is significant to the fair value measurement. The inputs are summarized into three broad levels as follows:

- Level 1—quoted prices in active markets for identical securities
- Level 2—other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)
- Level 3—significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

The inputs or methodologies used for valuing investments in securities are not necessarily an indication of the risk associated with investing in those securities.

The following is a summary of the inputs used in valuing the Fund's assets and liabilities as of December 31, 2023:

	QUOTED PRICES (LEVEL 1)	OTHER SIGNIFICANT OBSERVABLE INPUTS (LEVEL 2)	SIGNIFICANT UNOBSERVABLE INPUTS (LEVEL 3)	TOTAL
Assets				
Investments in:				
Municipal obligations	\$ 0	\$691,592,983	\$0	\$691,592,983
Short-term investments				
<i>Investment companies</i>	591,455	0	0	591,455
	\$ 591,455	\$691,592,983	\$0	\$692,184,438
Futures contracts	600,835	0	0	600,835
Total assets	\$1,192,290	\$691,592,983	\$0	\$692,785,273

Futures contracts are reported at their cumulative unrealized gains (losses) at measurement date as reported in the table following the Portfolio of Investments. For futures contracts, the current day's variation margin is reported on the Statement of Assets and Liabilities. All other assets and liabilities are reported at their market value at measurement date.

Additional sector, industry or geographic detail, if any, is included in the Portfolio of Investments.

At December 31, 2023, the Fund did not have any transfers into/out of Level 3.

4. TRANSACTIONS WITH AFFILIATES

Management fee

Allspring Funds Management, a wholly owned subsidiary of Allspring Global Investments Holdings, LLC, a holding company indirectly owned by certain private funds of GTCR LLC and Reverence Capital Partners, L.P., is the manager of the Fund and provides advisory and fund-level administrative services under an investment management agreement. Under the investment management agreement, Allspring Funds Management is responsible for, among other services, implementing the investment objectives and strategies of the Fund, supervising the subadviser and providing fund-level administrative services in connection with the Fund's operations. As compensation for its services under the investment management agreement, Allspring Funds Management is entitled to receive a management fee at the following annual rate based on the Fund's average daily net assets:

AVERAGE DAILY NET ASSETS	MANAGEMENT FEE
First \$500 million	0.400%
Next \$500 million	0.375
Next \$2 billion	0.350
Next \$2 billion	0.325
Next \$5 billion	0.290
Over \$10 billion	0.280

For the six months ended December 31, 2023, the management fee was equivalent to an annual rate of 0.39% of the Fund's average daily net assets.

Allspring Funds Management has retained the services of a subadviser to provide daily portfolio management to the Fund. The fee for subadvisory services is borne by Allspring Funds Management. Allspring Global Investments, LLC, an affiliate of Allspring Funds Management and a wholly owned subsidiary of Allspring Global Investments Holdings, LLC, is the subadviser to the Fund and is entitled to receive a fee from Allspring Funds Management at an annual rate starting at 0.20% and declining to 0.10% as the average daily net assets of the Fund increase.

Administration fees

Under a class-level administration agreement, Allspring Funds Management provides class-level administrative services to the Fund, which includes paying fees and expenses for services provided by the transfer agent, sub-transfer agents, omnibus account servicers and record-keepers. As compensation for its services under the class-level administration agreement, Allspring Funds Management receives an annual fee which is calculated based on the average daily net assets of each class as follows:

	CLASS-LEVEL ADMINISTRATION FEE
Class A	0.15%
Class C	0.15
Administrator Class	0.10
Institutional Class	0.08

Waivers and/or expense reimbursements

Allspring Funds Management has contractually committed to waive and/or reimburse management and administration fees to the extent necessary to maintain certain net operating expense ratios for the Fund. When each class of the Fund has exceeded its expense cap, Allspring Funds Management will waive fees and/or reimburse expenses from fund-level expenses on a proportionate basis and then from class specific expenses. When only certain classes exceed their expense caps, waivers and/or reimbursements are applied against class specific expenses before fund-level expenses. Allspring Funds Management has contractually committed through October 31, 2024 to waive fees and/or reimburse expenses to the extent necessary to cap the Fund's expenses. Prior to or after the commitment expiration date, the cap may be increased or the commitment to maintain the cap may be terminated only with the approval of the Board of Trustees. As of December 31, 2023, the contractual expense caps are as follows:

	EXPENSE RATIO CAPS
Class A	0.75%
Class C	1.50
Administrator Class	0.55
Institutional Class	0.48

Distribution fee

The Trust has adopted a distribution plan for Class C shares pursuant to Rule 12b-1 under the 1940 Act. A distribution fee is charged to Class C shares and paid to Allspring Funds Distributor, LLC (“Allspring Funds Distributor”), the principal underwriter, an affiliate of Allspring Funds Management, at an annual rate up to 0.75% of the average daily net assets of Class C shares.

In addition, Allspring Funds Distributor is entitled to receive the front-end sales charge from the purchase of Class A shares and a contingent deferred sales charge on the redemption of certain Class A shares. Allspring Funds Distributor is also entitled to receive the contingent deferred sales charges from redemptions of Class C shares. For the six months ended December 31, 2023, Allspring Funds Distributor received \$900 from the sale of Class A shares. No contingent deferred sales charges were incurred by Class A and Class C shares for the six months ended December 31, 2023.

Shareholder servicing fees

The Trust has entered into contracts with one or more shareholder servicing agents, whereby Class A, Class C, and Administrator Class are charged a fee at an annual rate up to 0.25% of the average daily net assets of each respective class. A portion of these total shareholder servicing fees were paid to affiliates of the Fund.

Interfund transactions

The Fund may purchase or sell portfolio investment securities to certain affiliates pursuant to Rule 17a-7 under the 1940 Act and under procedures adopted by the Board of Trustees. The procedures have been designed to ensure that these interfund transactions, which do not incur broker commissions, are effected at current market prices. Pursuant to these procedures, the Fund had \$15,000,000, \$8,000,000 and \$0 in interfund purchases, sales and net realized gains (losses), respectively, during the six months ended December 31, 2023.

5. INVESTMENT PORTFOLIO TRANSACTIONS

Purchases and sales of investments, excluding U.S. government obligations (if any) and short-term securities, for the six months ended December 31, 2023 were \$57,196,188 and \$95,037,689, respectively.

6. DERIVATIVE TRANSACTIONS

During the six months ended December 31, 2023, the Fund entered into futures contracts as a tactical move to take advantage of dislocation in the market. The Fund had an average notional amount of \$50,604,745 in long futures contracts during the six months ended December 31, 2023.

The fair value, realized gains or losses and change in unrealized gains or losses, if any, on derivative instruments are reflected in the corresponding financial statement captions.

7. BANK BORROWINGS

The Trust (excluding the money market funds), Allspring Master Trust and Allspring Variable Trust are parties to a \$350,000,000 revolving credit agreement whereby the Fund is permitted to use bank borrowings for temporary or emergency purposes, such as to fund shareholder redemption requests. Interest under the credit agreement is charged to the Fund based on borrowing rate equal to the higher of the Federal Funds rate or the overnight bank funding rate in effect on that day plus a spread. In addition, an annual commitment fee based on the unused balance is allocated to each participating fund.

For the six months ended December 31, 2023, there were no borrowings by the Fund under the agreement.

8. CONCENTRATION RISK

The Fund invests a substantial portion of its assets in issuers of municipal debt securities located in a single state or territory of the U.S. Therefore, it may be more affected by economic and political developments in that state or region than would be a comparable general tax-exempt fund. As of the end of the period, the Fund’s investments were concentrated in the state of California.

9. INDEMNIFICATION

Under the Fund’s organizational documents, the officers and Trustees have been granted certain indemnification rights against certain liabilities that may arise out of performance of their duties to the Fund. The Fund has entered into a separate agreement with each Trustee that converts indemnification rights currently existing under the Fund’s organizational documents into contractual rights that cannot be changed in the future without the consent of the Trustee. Additionally, in the normal course of business, the Fund may enter into contracts with service providers that contain a variety of indemnification clauses. The Fund’s maximum exposure under these arrangements is dependent on future claims that may be made against the Fund and, therefore, cannot be estimated.

Other information

Proxy voting information

A description of the policies and procedures used to determine how to vote proxies relating to portfolio securities is available without charge, upon request, by calling **1-866-259-3305**, visiting our website at **allspringglobal.com**, or visiting the SEC website at sec.gov. Information regarding how the proxies related to portfolio securities were voted during the most recent 12-month period ended June 30 is available on the website at **allspringglobal.com** or by visiting the SEC website at sec.gov.

Quarterly portfolio holdings information

The Fund files its complete schedule of portfolio holdings with the SEC for the first and third quarters of each fiscal year as an exhibit to its reports on Form N-PORT. Shareholders may view the filed Form N-PORT by visiting the SEC website at sec.gov.

Board of trustees and officers

Each of the Trustees and Officers listed in the table below acts in identical capacities for each fund in the Allspring family of funds, which consists of 117 mutual funds comprising the Allspring Funds Trust, Allspring Variable Trust, Allspring Master Trust and four closed-end funds (collectively the “Fund Complex”). This table should be read in conjunction with the Prospectus and the Statement of Additional Information[†]. The mailing address of each Trustee and Officer is 1415 Vantage Park Drive, 3rd Floor, Charlotte, NC 28203. Each Trustee and Officer serves an indefinite term, however, each Trustee serves such term until reaching the mandatory retirement age established by the Trustees.

Independent Trustees

NAME AND YEAR OF BIRTH	POSITION HELD AND LENGTH OF SERVICE*	PRINCIPAL OCCUPATIONS DURING PAST FIVE YEARS OR LONGER	CURRENT OTHER PUBLIC COMPANY OR INVESTMENT COMPANY DIRECTORSHIPS
WILLIAM R. EBSWORTH (Born 1957)	Trustee, since 2015	Retired.
