Andrew Owen
President
Allspring Funds

Dear Shareholder:

We are pleased to offer you this semi-annual report for the Allspring Common Stock Fund for the six-month period that ended March 31, 2023. Globally, stocks and bonds rebounded strongly despite ongoing volatility. While navigating persistently high inflation and the impact of ongoing aggressive central bank rate hikes, markets rallied on signs of declining inflation, anticipation of an end to the central bank monetary tightening cycle, and the stimulating impact of China removing its strict COVID-19 lockdowns in December. For the six-month period, domestic U.S. and global stocks and bonds had strong results. After suffering deep and broad losses through 2022, recent fixed income performance benefited from a base of higher yields that can now generate higher income.

For the period, U.S. stocks, based on the S&P 500 Index,¹ returned 15.62%. International stocks, as measured by the MSCI ACWI ex USA Index (Net),² returned 22.13%, while the MSCI EM Index (Net) (USD)³ returned 14.04%. Among bond indexes, the Bloomberg U.S. Aggregate Bond Index⁴ returned 4.89%, the Bloomberg Global Aggregate ex-USD Index (unhedged)⁵ returned 10.07%, the Bloomberg Municipal Bond Index⁶ gained 7.00%, and the ICE BofA U.S. High Yield Index⁷ returned 7.89%.

Despite high inflation and central bank rate hikes, markets rally.

Equities had a reprieve in October. Value stocks and small caps fared best. Globally, developed markets outpaced emerging market equities, which were hurt by weakness among Chinese stocks. Central banks continued to try to curtail high inflation with aggressive interest rate hikes. Geopolitical risks persisted, including the ongoing Russia-Ukraine war and economic, financial market, and political turmoil in the U.K. Concerns over Europe's energy crisis eased thanks to unseasonably warm weather and plentiful gas on hand. The U.S. labor market continued its resilience against rising prices as unemployment remained near a record low.

Stocks and bonds rallied in November. Economic news was encouraging, driven by U.S. labor market strength. Although central banks kept raising rates, hopes rose for an easing in the pace of rate hikes and a possible end to central bank monetary tightening in 2023. Although inflation remained at record highs in the eurozone, we began to see signs of a possible decline in inflationary pressures as U.S. inflation moderated, with a 7.1% annual price rise in November and a monthly price increase of just 0.1%. China's economic data remained weak, reflecting its zero-COVID-19 policy.

¹ The S&P 500 Index consists of 500 stocks chosen for market size, liquidity, and industry group representation. It is a market-value-weighted index with each stock's weight in the index proportionate to its market value. You cannot invest directly in an index.

² The Morgan Stanley Capital International (MSCI) All Country World Index (ACWI) ex USA Index (Net) is a free-float-adjusted market-capitalization-weighted index that is designed to measure the equity market performance of developed and emerging markets, excluding the U.S. Source: MSCI. MSCI makes no express or implied warranties or representations and shall have no liability whatsoever with respect to any MSCI data contained herein. The MSCI data may not be further redistributed or used as a basis for other indexes or any securities or financial products. This report is not approved, reviewed, or produced by MSCI. You cannot invest directly in an index.

³ The MSCI Emerging Markets (EM) Index (Net) (USD) is a free-float-adjusted market-capitalization-weighted index that is designed to measure equity market performance of emerging markets. You cannot invest directly in an index.

⁴ The Bloomberg U.S. Aggregate Bond Index is a broad-based benchmark that measures the investment-grade, U.S.-dollar-denominated, fixed-rate taxable bond market, including Treasuries, government-related and corporate securities, mortgage-backed securities (agency fixed-rate and hybrid adjustable-rate mortgage pass-throughs), asset-backed securities, and commercial mortgage-backed securities. You cannot invest directly in an index.

⁵ The Bloomberg Global Aggregate ex-USD Index (unhedged) is an unmanaged index that provides a broad-based measure of the global investment-grade fixed-income markets excluding the U.S.-dollar-denominated debt market. You cannot invest directly in an index.

⁶ The Bloomberg Municipal Bond Index is an unmanaged index composed of long-term tax-exempt bonds with a minimum credit rating of Baa. You cannot invest directly in an index.

⁷ The ICE BofA U.S. High Yield Index is a market-capitalization-weighted index of domestic and Yankee high-yield bonds. The index tracks the performance of high-yield securities traded in the U.S. bond market. You cannot invest directly in an index. Copyright 2023. ICE Data Indices, LLC. All rights reserved.

Financial markets cooled in December, with U.S. equities posting negative overall results in response to a weakening U.S. dollar. Fixed income securities ended one of their worst years ever with flat overall monthly returns as markets weighed the hopes for an end to the monetary tightening cycle with the reality that central banks had not completed their jobs yet. U.S. Consumer Price Index (CPI)¹ data showed a strong consistent trend downward, which brought down the 12-month CPI to 6.5% in December from 9.1% in June. Other countries and regions reported still-high but declining inflation rates as the year winded down.

The year 2023 began with a rally across global equities and fixed income securities. Investor optimism rose in response to data indicating declining inflation rates and the reopening of China's economy with the abrupt end to its zero-COVID-19 policy. The U.S. reported surprisingly strong job gains—employers added more than 500,000 jobs—and unemployment fell to 3.4%, the lowest level since 1969. Meanwhile, wage growth, seen as a potential contributor to ongoing high inflation, continued to moderate. All eyes remained fixed on the Federal Reserve (Fed) and on how many more rate hikes remain in this tightening cycle. The 0.25% federal funds rate hike announced in January was the Fed's smallest rate increase since March 2022.

Financial markets declined in February as investors responded unfavorably to resilient economic data. The takeaway: Central banks will likely continue their monetary tightening cycle for longer than markets had priced in. In this environment—where strong economic data is seen as bad news—the resilient U.S. labor market was seen as a negative while the inflation rate has not been falling quickly enough for the Fed, which raised interest rates by 0.25% in early February. Meanwhile, the Bank of England and the European Central Bank both raised rates by 0.50%. At this stage in the economic cycle, the overriding question remained: “What will central banks do?” In February, the answer appeared to be: “Move rates higher for longer.”

The collapse of Silicon Valley Bank in March, the second-largest banking failure in U.S. history, led to a classic bank run that spread to Europe, where Switzerland's Credit Suisse was taken over by its rival, UBS. The sudden banking industry uncertainty led some clients of regional banks to transfer deposits to a handful of U.S. banking giants while bank shareholders sold stock. The banking industry turmoil could make the job of central banks more challenging as they weigh inflationary concerns against potential economic weakening. Meanwhile, recent data pointed to economic strength in the U.S., Europe, and China. The U.S. labor market remained resilient. The euro-area composite Purchasing Managers' Index² rose to 53.70, indicating expansion, for March. And China's economy continued to rebound after the removal of its COVID-19 lockdown. Inflation rates in the U.S., the U.K., and Europe all remained higher than central bank targets, leading to additional rate hikes in March.

“The banking industry turmoil could make the job of central banks more challenging as they weigh inflationary concerns against potential economic weakening. Meanwhile, recent data pointed to economic strength in the U.S., Europe, and China.”

¹ The U.S. Consumer Price Index (CPI) is a measure of the average change over time in the prices paid by urban consumers for a market basket of consumer goods and services. You cannot invest directly in an index.

² The Purchasing Managers' Index (PMI) is an index of the prevailing direction of economic trends in the manufacturing and service sectors. You cannot invest directly in an index.

For further information about your fund, contact your investment professional, visit our website at allspringglobal.com, or call us directly at 1-800-222-8222.

Don't let short-term uncertainty derail long-term investment goals.

Periods of investment uncertainty can present challenges, but experience has taught us that maintaining long-term investment goals can be an effective way to plan for the future. To help you create a sound strategy based on your personal goals and risk tolerance, Allspring Funds offers more than 100 mutual funds spanning a wide range of asset classes and investment styles. Although diversification cannot guarantee an investment profit or prevent losses, we believe it can be an effective way to manage investment risk and potentially smooth out overall portfolio performance. We encourage investors to know their investments and to understand that appropriate levels of risk-taking may unlock opportunities.

Thank you for choosing to invest with Allspring Funds. We appreciate your confidence in us and remain committed to helping you meet your financial needs.

Sincerely,

Andrew Owen
President
Allspring Funds

Investment objective The Fund seeks long-term capital appreciation.

Institutional Class (SCNSX)	7-30-2010	–	–	–	-4.38	7.61	9.15	0.93	0.85
Russell 2500™ Index ⁴	–	–	–	–	-10.39	6.65	9.07	–	–

Figures quoted represent past performance, which is no guarantee of future results, and do not reflect taxes that a shareholder may pay on an investment in a fund. Investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Performance shown without sales charges would be lower if sales charges were reflected. Current performance may be lower or higher than the performance data quoted, which assumes the reinvestment of dividends and capital gains. Current month-end performance is available on the Fund's website, allspringglobal.com.

Index returns do not include transaction costs associated with buying and selling securities, any mutual fund fees or expenses, or any taxes. It is not possible to invest directly in an index.

For Class A shares, the maximum front-end sales charge is 5.75%. For Class C shares, the maximum contingent deferred sales charge is 1.00%. Performance including a contingent deferred sales charge assumes the sales charge for the corresponding time period. Class R6, Administrator Class and Institutional Class shares are sold without a front-end sales charge or contingent deferred sales charge.

¹ Reflects the expense ratios as stated in the most recent prospectuses. The expense ratios shown are subject to change and may differ from the annualized expense ratios shown in the financial highlights of this report.

² The manager has contractually committed through January 31, 2024, to waive fees and/or reimburse expenses to the extent necessary to cap total annual fund operating expenses after fee waivers at 1.26% for Class A, 2.01% for Class C, 0.83% for Class R6, 1.10% for Administrator Class, and 0.85% for Institutional Class. Brokerage commissions, stamp duty fees, interest, taxes, acquired fund fees and expenses (if any), and extraordinary expenses are excluded from the expense caps. Prior to or after the commitment expiration date, the caps may be increased or the commitment to maintain the caps may be terminated only with the approval of the Board of Trustees. Without these caps, the Fund's returns would have been lower. The expense ratio paid by an investor is the net expense ratio (the total annual fund operating expenses after fee waivers) as stated in the prospectuses.

³ Historical performance shown for the Class R6 shares prior to their inception reflects the performance of the Institutional Class shares, and includes the higher expenses applicable to the Institutional Class shares. If these expenses had not been included, returns for the Class R6 shares would be higher.

⁴ The Russell 2500™ Index measures the performance of the 2,500 smallest companies in the Russell 3000® Index, which represents approximately 16% of the total market capitalization of the Russell 3000® Index. You cannot invest directly in an index.

Stock values fluctuate in response to the activities of individual companies and general market and economic conditions. Smaller-company stocks tend to be more volatile and less liquid than those of larger companies. Certain investment strategies tend to increase the total risk of an investment (relative to the broader market). This fund is exposed to foreign investment risk. Consult the Fund's prospectus for additional information on these and other risks.

Ten largest holdings (%) as of March 31, 2023 ¹

Pagerduty Incorporated	1.80

¹ Figures represent the percentage of the Fund's net assets. Holdings are subject to change and may have changed since the date specified.

¹ Figures represent the percentage of the Fund's long-term investments. Allocations are subject to change and may have changed since the date specified.

As a shareholder of the Fund, you incur two types of costs: (1) transaction costs, including sales charges (loads) on purchase payments and contingent deferred sales charges (if any) on redemptions and (2) ongoing costs, including management fees, distribution (12b-1) and/or shareholder servicing fees, and other Fund expenses. This example is intended to help you understand your ongoing costs (in dollars) of investing in the Fund and to compare these costs with the ongoing costs of investing in other mutual funds.

The example is based on an investment of \$1,000 invested at the beginning of the six-month period and held for the entire period from October 1, 2022 to March 31, 2023.

Actual expenses

The “Actual” line of the table below provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the “Actual” line under the heading entitled “Expenses paid during period” for your applicable class of shares to estimate the expenses you paid on your account during this period.

Hypothetical example for comparison purposes

The “Hypothetical” line of the table below provides information about hypothetical account values and hypothetical expenses based on the Fund’s actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund’s actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as sales charges (loads) and contingent deferred sales charges. Therefore, the “Hypothetical” line of the table is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

	Beginning account value 10-1-2022	Ending account value 3-31-2023	Expenses paid during the period ¹	Annualized net expense ratio
Class A				
Actual	\$1,000.00	\$1,175.01	\$ 6.83	1.26%
Hypothetical (5% return before expenses)	\$1,000.00	\$1,018.65	\$ 6.34	1.26%
Class C				
Actual	\$1,000.00	\$1,171.12	\$10.50	1.94%
Hypothetical (5% return before expenses)	\$1,000.00	\$1,015.26	\$ 9.75	1.94%
Class R6				
Actual	\$1,000.00	\$1,177.71	\$ 4.51	0.83%
Hypothetical (5% return before expenses)	\$1,000.00	\$1,020.79	\$ 4.18	0.83%
Administrator Class				
Actual	\$1,000.00	\$1,175.52	\$ 5.97	1.10%
Hypothetical (5% return before expenses)	\$1,000.00	\$1,019.45	\$ 5.54	1.10%
Institutional Class				
Actual	\$1,000.00	\$1,177.45	\$ 4.61	0.85%
Hypothetical (5% return before expenses)	\$1,000.00	\$1,020.69	\$ 4.28	0.85%

¹ Expenses paid is equal to the annualized net expense ratio of each class multiplied by the average account value over the period, multiplied by 182 divided by 365 (to reflect the one-half-year period).

† Non-income-earning security

♣ The issuer of the security is an affiliated person of the Fund as defined in the Investment Company Act of 1940.

∞ The rate represents the 7-day annualized yield at period end.

Abbreviations:

REIT Real estate investment trust

The accompanying notes are an integral part of these financial statements.

Investments in affiliates

An affiliated investment is an investment in which the Fund owns at least 5% of the outstanding voting shares of the issuer or as a result of other relationships, such as the Fund and the issuer having the same investment manager. Transactions with issuers that were affiliates of the Fund at the end of the period were as follows:

	Value, beginning of period	Purchases	Sales proceeds	Net realized gains (losses)	Net change in unrealized gains (losses)	Value, end of period	Shares, end of period	Income from affiliated securities
Short-term investments								
Allspring Government Money Market Fund Select Class	\$11,844,758	\$82,699,238	\$ (82,510,607)	\$ 0	\$0	<u>\$12,033,389</u>	12,033,389	\$163,734
Investments in affiliates no longer held at end of period								
Securities Lending Cash Investments LLC	30,992,000	92,887,953	(123,880,963)	<u>1,010</u>	<u>0</u>	<u>0</u>	0	<u>332,430[#]</u>
				<u>\$1,010</u>	<u>\$0</u>	<u>\$12,033,389</u>		<u>\$496,164</u>

[#] Amount shown represents income before fees and rebates.

The accompanying notes are an integral part of these financial statements.

Assets

Investments in unaffiliated securities, at value (cost \$705,220,377).....	\$849,046,611
Investments in affiliated securities, at value (cost \$12,033,389)	12,033,389

¹ Calculated based upon average shares outstanding² Returns for periods of less than one year are not annualized.

The accompanying notes are an integral part of these financial statements.

1. ORGANIZATION

Allspring Funds Trust (the "Trust"), a Delaware statutory trust organized on March 10, 1999, is an open-end management investment company registered under the Investment Company Act of 1940, as amended (the "1940 Act"). As an investment company, the Trust follows the accounting and reporting guidance in Financial Accounting Standards Board ("FASB") Accounting Standards Codification Topic 946, *Financial Services – Investment Companies*. These financial statements report on the Allspring Common Stock Fund (the "Fund") which is a diversified series of the Trust.

2. SIGNIFICANT ACCOUNTING POLICIES

The following significant accounting policies, which are consistently followed in the preparation of the financial statements of the Fund, are in conformity with U.S. generally accepted accounting principles which require management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of income and expenses during the reporting period. Actual results could differ from those estimates.

Securities valuation

All investments are valued each business day as of the close of regular trading on the New York Stock Exchange (generally 4 p.m. Eastern Time), although the Fund may deviate from this calculation time under unusual or unexpected circumstances.

Equity securities and exchange-traded funds that are listed on a foreign or domestic exchange or market are valued at the official closing price or, if none, the last sales price.

The values of securities denominated in foreign currencies are translated into U.S. dollars at rates provided by an independent foreign currency pricing source at a time each business day specified by the Valuation Committee established by Allspring Funds Management, LLC ("Allspring Funds Management").

Many securities markets and exchanges outside the U.S. close prior to the close of the New York Stock Exchange and therefore may not fully reflect trading or events that occur after the close of the principal exchange in which the foreign securities are traded, but before the close of the New York Stock Exchange. If such trading or events are expected to materially affect the value of such securities, then fair value pricing procedures implemented by Allspring Funds Management are applied. These procedures take into account multiple factors including movements in U.S. securities markets after foreign exchanges close. Foreign securities that are fair valued under these procedures are categorized as Level 2 and the application of these procedures may result in transfers between Level 1 and Level 2. Depending on market activity, such fair valuations may be frequent. Such fair value pricing may result in net asset values that are higher or lower than net asset values based on the last reported sales price or latest quoted bid price. On March 31, 2023, such fair value pricing was used in pricing certain foreign securities.

Investments in registered open-end investment companies (other than those listed on a foreign or domestic exchange or market) are valued at net asset value. Interests in non-registered investment companies that are redeemable at net asset value are fair valued normally at net asset value.

Investments which are not valued using the methods discussed above are valued at their fair value, as determined in good faith by Allspring Funds Management, which was named the valuation designee by the Board of Trustees. As the valuation designee, Allspring Funds Management is responsible for day-to-day valuation activities for the Allspring Funds. In connection with these responsibilities, Allspring Funds Management has established a Valuation Committee and has delegated to it the authority to take any actions regarding the valuation of portfolio securities that the Valuation Committee deems necessary or appropriate, including determining the fair value of portfolio securities. On a quarterly basis, the Board of Trustees receives reports of valuation actions taken by the Valuation Committee. On at least an annual basis, the Board of Trustees receives an assessment of the adequacy and effectiveness of Allspring Funds Management's process for determining the fair value of the portfolio of investments.

Foreign currency translation

The accounting records of the Fund are maintained in U.S. dollars. The values of other assets and liabilities denominated in foreign currencies are translated into U.S. dollars at rates provided by an independent foreign currency pricing source at a time each business day specified by the Valuation Committee. Purchases and sales of securities, and income and expenses are converted at the rate of exchange on the respective dates of such transactions. Net realized foreign exchange gains or losses arise from sales of foreign currencies, currency gains or losses realized between the trade and settlement dates on securities transactions, and the difference between the amounts of dividends, interest and foreign withholding taxes recorded and the U.S. dollar equivalent of the amounts actually paid or received. Net unrealized foreign exchange gains and losses arise from changes in the fair value of assets and liabilities other than investments in securities resulting from changes in exchange rates.

The changes in net assets arising from changes in exchange rates of securities and the changes in net assets resulting from changes in market prices of securities are not separately presented. Such changes are included in net realized and unrealized gains or losses from investments.

Securities lending

During the period, the Fund participated in a program to lend its securities from time to time in order to earn additional income in the form of fees or interest on securities received as collateral or the investment of any cash received as collateral. When securities were on loan, the Fund received interest or dividends on those securities. Cash collateral received in connection with its securities lending transactions was invested in Securities Lending Cash Investments, LLC (the "Securities Lending Fund"), an affiliated non-registered investment company. Effective at the close of business on March 29, 2023, the Fund is no longer participating in the securities lending program and the Securities Lending Fund was liquidated. Securities Lending Fund was managed by Allspring Funds Management and was subadvised by Allspring Global Investments, LLC ("Allspring Investments"), an affiliate of Allspring Funds Management and wholly owned subsidiary of Allspring Global Investments Holdings, LLC. Allspring Funds Management received an advisory fee starting at 0.05% and declining to 0.01% as the average daily net assets of the Securities Lending Fund increased. All of the fees received by Allspring Funds Management were paid to Allspring Investments for its services as subadviser.

Investments in Securities Lending Fund were valued at the evaluated bid price provided by an independent pricing service. Income earned from investment in the Securities Lending Fund (net of fees and rebates), if any, is included in income from affiliated securities on the Statement of Operations.

In a securities lending transaction, the net asset value of the Fund is affected by an increase or decrease in the value of the securities loaned and by an increase or decrease in the value of the instrument in which collateral is invested. The amount of securities lending activity undertaken by the Fund fluctuates from time to time. The Fund has the right under the lending agreement to recover the securities from the borrower on demand. In the event of default or bankruptcy by the borrower, the Fund may be prevented from recovering the loaned securities or gaining access to the collateral or may experience delays or costs in doing so. In such an event, the terms of the agreement allow the unaffiliated securities lending agent to use the collateral to purchase replacement securities on behalf of the Fund or pay the Fund the market value of the loaned securities. The Fund bears the risk of loss with respect to depreciation of its investment of the cash collateral.

Security transactions and income recognition

Securities transactions are recorded on a trade date basis. Realized gains or losses are recorded on the basis of identified cost.

Dividend income is recognized on the ex-dividend date, except for certain dividends from foreign securities, which are recorded as soon as the custodian verifies the ex-dividend date.

Income dividends and capital gain distributions from investment companies are recorded on the ex-dividend date. Capital gain distributions from investment companies are treated as realized gains.

Distributions to shareholders

Distributions to shareholders from net investment income and any net realized gains are recorded on the ex-dividend date and paid at least annually. Such distributions are determined in accordance with income tax regulations and may differ from U.S. generally accepted accounting principles. Dividend sources are estimated at the time of declaration. The tax character of distributions is determined as of the Fund's fiscal year end. Therefore, a portion of the Fund's distributions made prior to the Fund's fiscal year end may be categorized as a tax return of capital at year end.

Federal and other taxes

The Fund intends to continue to qualify as a regulated investment company by distributing substantially all of its investment company taxable income and any net realized capital gains (after reduction for capital loss carryforwards) sufficient to relieve it from all, or substantially all, federal income taxes. Accordingly, no provision for federal income taxes was required.

The Fund's income and federal excise tax returns and all financial records supporting those returns for the prior three fiscal years are subject to examination by the federal and Delaware revenue authorities. Management has analyzed the Fund's tax positions taken on federal, state, and foreign tax returns, as applicable, for all open tax years and does not believe that there are any uncertain tax positions that require recognition of a tax liability.

As of March 31, 2023, the aggregate cost of all investments for federal income tax purposes was \$715,041,604 and the unrealized gains (losses) consisted of:

Gross unrealized gains	\$227,024,866
Gross unrealized losses	(80,986,470)
Net unrealized gains	\$146,038,396

Class allocations

The separate classes of shares offered by the Fund differ principally in applicable sales charges, distribution, shareholder servicing, and administration fees. Class specific expenses are charged directly to that share class. Investment income, common fund-level expenses, and realized and unrealized gains (losses) on investments are allocated daily to each class of shares based on the relative proportion of net assets of each class.

3. FAIR VALUATION MEASUREMENTS

Fair value measurements of investments are determined within a framework that has established a fair value hierarchy based upon the various data inputs utilized in determining the value of the Fund's investments. The three-level hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The Fund's investments are classified within the fair value hierarchy based on the lowest level of input that is significant to the fair value measurement. The inputs are summarized into three broad levels as follows:

- Level 1 – quoted prices in active markets for identical securities
- Level 2 – other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)
- Level 3 – significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

The inputs or methodologies used for valuing investments in securities are not necessarily an indication of the risk associated with investing in those securities.

The following is a summary of the inputs used in valuing the Fund's assets and liabilities as of March 31, 2023:

	Quoted prices (Level 1)	Other significant observable inputs (Level 2)	Significant unobservable inputs (Level 3)	Total
Assets				
Investments in:				
Common stocks				
<i>Communication services</i>	\$ 7,452,949	\$ 0	\$0	\$ 7,452,949
<i>Consumer discretionary</i>	101,442,695	0	0	101,442,695
<i>Consumer staples</i>	23,317,782	0	0	23,317,782
<i>Financials</i>	91,780,136	0	0	91,780,136
<i>Health care</i>	102,175,811	0	0	102,175,811
<i>Industrials</i>	200,352,098	20,395,038	0	220,747,136
<i>Information technology</i>	139,167,864	0	0	139,167,864
<i>Materials</i>	68,353,649	0	0	68,353,649
<i>Real estate</i>	84,256,146	0	0	84,256,146
Investment companies	10,352,443	0	0	10,352,443
Short-term investments				
<i>Investment companies</i>	12,033,389	0	0	12,033,389
Total assets	\$840,684,962	\$20,395,038	\$0	\$861,080,000

Additional sector, industry or geographic detail, if any, is included in the Portfolio of Investments.

For the six months ended March 31, 2023, the Fund did not have any transfers into/out of Level 3.

4. TRANSACTIONS WITH AFFILIATES

Management fee

Allspring Funds Management, a wholly owned subsidiary of Allspring Global Investments Holdings, LLC, a holding company indirectly owned by certain private funds of GTCR LLC and Reverence Capital Partners, L.P., is the manager of the Fund and provides advisory and fund-level administrative services under an investment management agreement. Under the investment management agreement, Allspring Funds Management is responsible for, among other services, implementing the investment objectives and strategies of the Fund, supervising the subadviser and providing fund-level administrative services in connection with the Fund's operations. As compensation for its services under the investment management agreement, Allspring Funds Management is entitled to receive a management fee at the following annual rate based on the Fund's average daily net assets:

Average daily net assets	Management fee
First \$500 million	0.800%
Next \$500 million	0.750
Next \$1 billion	0.700
Next \$2 billion	0.675
Next \$1 billion	0.650
Next \$5 billion	0.640
Over \$10 billion	0.630

For the six months ended March 31, 2023, the management fee was equivalent to an annual rate of 0.78% of the Fund's average daily net assets.

Allspring Funds Management has retained the services of a subadviser to provide daily portfolio management to the Fund. The fee for subadvisory services is borne by Allspring Funds Management. Allspring Investments is the subadviser to the Fund and is entitled to receive a fee from Allspring Funds Management at an annual rate starting at 0.45% and declining to 0.30% as the average daily net assets of the Fund increase.

Administration fees

Under a class-level administration agreement, Allspring Funds Management provides class-level administrative services to the Fund, which includes paying fees and expenses for services provided by the transfer agent, sub-transfer agents, omnibus account servicers and record-keepers. As compensation for its services under the class-level administration agreement, Allspring Funds Management receives an annual fee which is calculated based on the average daily net assets of each class as follows:

	Class-level administration fee
Class A	0.21%
Class C	0.21
Class R6	0.03
Administrator Class	0.13
Institutional Class	0.13

Waivers and/or expense reimbursements

Allspring Funds Management has contractually committed to waive and/or reimburse management and administration fees to the extent necessary to maintain certain net operating expense ratios for the Fund. When each class of the Fund has exceeded its expense cap, Allspring Funds Management will waive fees and/or reimburse expenses from fund-level expenses on a proportionate basis and then from class specific expenses. When only certain classes exceed their expense caps, waivers and/or reimbursements are applied against class specific expenses before fund-level expenses. Allspring Funds Management has contractually committed through January 31, 2024 to waive fees and/or reimburse expenses to the extent necessary to cap expenses. Prior to or after the commitment expiration date, the caps may be increased or the commitment to maintain the caps may be terminated only with the approval of the Board of Trustees. As of March 31, 2023, the contractual expense caps are as follows:

	Expense ratio caps
Class A	1.26%
Class C	2.01
Class R6	0.83
Administrator Class	1.10
Institutional Class	0.85

Distribution fee

The Trust has adopted a distribution plan for Class C shares pursuant to Rule 12b-1 under the 1940 Act. A distribution fee is charged to Class C shares and paid to Allspring Funds Distributor, LLC ("Allspring Funds Distributor"), the principal underwriter, an affiliate of Allspring Funds Management, at an annual rate up to 0.75% of the average daily net assets of Class C shares.

In addition, Allspring Funds Distributor is entitled to receive the front-end sales charge from the purchase of Class A shares and a contingent deferred sales charge on the redemption of certain Class A shares. Allspring Funds Distributor is also entitled to receive the contingent deferred sales charges from redemptions of Class C shares. For the six months ended March 31, 2023, Allspring Funds Distributor received \$135 from the sale of Class A shares. No contingent deferred sales charges were incurred by Class A and Class C shares for the six months ended March 31, 2023.

Shareholder servicing fees

The Trust has entered into contracts with one or more shareholder servicing agents, whereby Class A, Class C and Administrator Class are charged a fee at an annual rate up to 0.25% of the average daily net assets of each respective class. A portion of these total shareholder servicing fees were paid to affiliates of the Fund.

Interfund transactions

The Fund may purchase or sell portfolio investment securities to certain affiliates pursuant to Rule 17a-7 under the 1940 Act and under procedures adopted by the Board of Trustees. The procedures have been designed to ensure that these interfund transactions, which do not incur broker commissions, are effected at current market prices.

5. INVESTMENT PORTFOLIO TRANSACTIONS

Purchases and sales of investments, excluding U.S. government obligations (if any) and short-term securities, for the six months ended March 31, 2023 were \$151,472,265 and \$215,922,601, respectively.

6. BANK BORROWINGS

The Trust (excluding the money market funds), Allspring Master Trust and Allspring Variable Trust are parties to a \$350,000,000 revolving credit agreement whereby the Fund is permitted to use bank borrowings for temporary or emergency purposes, such as to fund shareholder redemption requests. Interest under the credit agreement is charged to the Fund based on a borrowing rate equal to the higher of the Federal Funds rate or the overnight bank funding rate in effect on that day plus a spread. In addition, an annual commitment fee based on the unused balance is allocated to each participating fund.

For the six months ended March 31, 2023, there were no borrowings by the Fund under the agreement.

7. CONCENTRATION RISKS

As of the end of the period, the Fund concentrated its portfolio of investments in the industrials sector. A fund that invests a substantial portion of its assets in any sector may be more affected by changes in that sector than would be a fund whose investments are not heavily weighted in any sector.

8. INDEMNIFICATION

Under the Fund's organizational documents, the officers and Trustees have been granted certain indemnification rights against certain liabilities that may arise out of performance of their duties to the Fund. The Fund has entered into a separate agreement with each Trustee that converts indemnification rights currently existing under the Fund's organizational documents into contractual rights that cannot be changed in the future without the consent of the Trustee. Additionally, in the normal course of business, the Fund may enter into contracts with service providers that contain a variety of indemnification clauses. The Fund's maximum exposure under these arrangements is dependent on future claims that may be made against the Fund and, therefore, cannot be estimated.

PROXY VOTING INFORMATION

A description of the policies and procedures used to determine how to vote proxies relating to portfolio securities is available without charge, upon request, by calling **1-800-222-8222**, visiting our website at **allspringglobal.com**, or visiting the SEC website at sec.gov. Information regarding how the proxies related to portfolio securities were voted during the most recent 12-month period ended June 30 is available on the website at **allspringglobal.com** or by visiting the SEC website at sec.gov.

QUARTERLY PORTFOLIO HOLDINGS INFORMATION

The Fund files its complete schedule of portfolio holdings with the SEC for the first and third quarters of each fiscal year as an exhibit to its reports on Form N-PORT. Shareholders may view the filed Form N-PORT by visiting the SEC website at sec.gov.

BOARD OF TRUSTEES AND OFFICERS

Each of the Trustees and Officers listed in the table below acts in identical capacities for each fund in the Allspring family of funds, which consists of 127 mutual funds comprising the Allspring Funds Trust, Allspring Variable Trust, Allspring Master Trust and four closed-end funds (collectively the “Fund Complex”). This table should be read in conjunction with the Prospectus and the Statement of Additional Information¹. The mailing address of each Trustee and Officer is 1415 Vantage Park Drive, 3rd Floor, Charlotte, NC 28203. Each Trustee and Officer serves an indefinite term, however, each Trustee serves such term until reaching the mandatory retirement age established by the Trustees.

Independent Trustees
