Before you invest, you may want to review the Fund's prospectus, which contains more information about the Fund and its risks. You can find the Fund's prospectus, reports to shareholders and other information about the Fund online at allspringglobal.com/reports. You can also get information at no cost by calling 1-800-222-8222, or by sending an email request to fundliterature@allspring-global.com. The current prospectus ("Prospectus") and statement of additional information ("SAI"), dated September 1, 2024, as supplemented from time to time, are incorporated by reference into this summary prospectus. The Fund's SAI may be obtained, free of charge, in the same manner as the Prospectus.

Investment Objective

The Fund seeks maximum long-term total return (current income and capital appreciation), consistent with minimizing risk to principal.

Fees and Expenses

These tables are intended to help you understand the various costs and expenses you will pay if you buy, hold and sell shares of the Fund.

Shareholder Fees (fees paid directly from your investment)

Maximum sales charge (load) imposed on purchases (as a percentage of offering price)	None
Maximum deferred sales charge (load) (as a percentage of offering price)	None

Annual Fund Operating Expenses (expenses that you pay each year as a percentage of the value of your investment)¹

Management Fees ²	0.70%
Distribution (12b-1) Fees	0.00%
Other Expenses	0.19%
Total Annual Fund Operating Expenses³	0.89%
Fee Waivers	(0.39)%
Total Annual Fund Operating Expenses After Fee Waivers⁴	0.50%

- Expenses have been adjusted as necessary from amounts incurred during the Fund's most recent fiscal year to reflect current fees and expenses.
- Includes the fees charged by the Manager for providing advisory services to the master portfolio in which the Fund invests substantially all of its assets.
- Includes other expenses allocated from the master portfolio in which the Fund invests.
- The Manager has contractually committed through August 31, 2025, to waive fees and/or reimburse expenses to the extent necessary to cap Total Annual Fund Operating Expenses After Fee Waivers at 0.50% for Institutional Class. Brokerage commissions, stamp duty fees, interest, taxes, acquired fund fees and expenses (if any) from funds in which the underlying affiliated master portfolios and funds invest and from money market funds, and extraordinary expenses are excluded from the expense cap. All other acquired fund fees and expenses from the affiliated master portfolios and funds are included in the expense cap. Prior to or after the commitment expiration date, the cap may be increased or the commitment to maintain the cap may be terminated only with the approval of the Board of Trustees.

Example of Expenses

The example below is intended to help you compare the costs of investing in the Fund with the costs of investing in other funds. The example assumes a \$10,000 initial investment, 5% annual total return, and that fees and expenses remain the same as in the tables above. To the extent that the Manager is waiving fees or reimbursing expenses, the example assumes that such waiver or reimbursement will only be in place through the date noted above. Although your actual costs may be higher or lower, based on these assumptions, your costs would be:

After:	
1 Year	\$51
3 Years	\$245
5 Years	\$455
10 Years	\$1,060

Portfolio Turnover

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or “turns over” its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in annual fund operating expenses or in the example, affect the Fund’s performance. During the most recent fiscal year, the Fund’s portfolio turnover rate was 98%¹ of the average value of its portfolio.

1. The Fund changed its fiscal year-end from May 31 to April 30. The information shown for the Fund is for this shortened period.

Principal Investment Strategies

Under normal circumstances, we invest:

- at least 80% of the Fund’s total assets in equity securities of large-capitalization companies; and
- up to 20% of the Fund’s total assets in equity securities of foreign issuers, through ADRs and similar investments

The Fund is a feeder fund that invests substantially all of its assets in the Large Cap Value Portfolio, a master portfolio with a substantially identical investment objective and substantially similar investment strategies. We may invest in additional master portfolios, in other Allspring Funds, or directly in a portfolio of securities.

We invest principally in equity securities of approximately 30 to 50 large-capitalization companies, which we define as companies with market capitalizations within the range of the Russell 1000® Index at the time of purchase. The market capitalization range of the Russell 1000® Index was approximately \$477.59 million to \$3.38 trillion, as of July 31, 2024, and is expected to change frequently. We may also invest in equity securities of foreign issuers through ADRs and similar investments.

We look for undervalued companies that we believe have the potential for above average capital appreciation with below average risk. Rigorous fundamental research drives our search for companies with favorable reward-to-risk ratios and that possess, a long-term competitive advantage provided by a durable asset base, strong balance sheets, and sustainable and superior cash flows. Typical investments include stocks of companies that are generally out of favor in the marketplace, or are undergoing reorganization or other corporate action that may create above-average price appreciation. We regularly review the investments of the portfolio and may sell a portfolio holding when a stock nears its price target, downside risks increase considerably, the company’s fundamentals have deteriorated, or we identify a more attractive investment opportunity.

Principal Investment Risks

Because the Fund invests substantially all of its assets in a master portfolio with a substantially identical investment objective and substantially similar investment strategies, the following principal risks include those risks that result from the Fund’s investment in the master portfolio. In this section, references to the Fund should be read to include the Fund and the master portfolio, as appropriate.

The Fund’s performance will not correlate perfectly with that of the master portfolio due to the impact of the Fund’s fees and expenses and to the timing and magnitude of cash flows into and out of the Fund, which will create cash balances that cause the Fund’s performance to deviate from the performance of the master portfolio.

An investment in the Fund may lose money, is not a deposit of a bank or its affiliates, is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other governmental agency, and is primarily subject to the risks briefly summarized below.

Market Risk. The values of, and/or the income generated by, securities held by the Fund may decline due to general market conditions or other factors, including those directly involving the issuers of such securities. Securities markets are volatile and may decline significantly in response to adverse issuer, regulatory, political, or economic developments. Different sectors of the market and different security types may react differently to such developments.

Equity Securities Risk. The values of equity securities may experience periods of substantial price volatility and may decline significantly over short time periods. In general, the values of equity securities are more volatile than those of debt securities. Equity securities fluctuate in value and price in response to factors specific to the issuer of the security, such as management performance, financial condition, and market demand for the issuer's products or services, as well as factors unrelated to the fundamental condition of the issuer, including general market, economic and political conditions. Different parts of a market, industry and sector may react differently to adverse issuer, market, regulatory, political, and economic developments.

Focused Portfolio Risk. Changes in the value of a small number of issuers are likely to have a larger impact on a Fund's net asset value than if the Fund held a greater number of issuers.

Growth/Value Investing Risk. Securities that exhibit growth or value characteristics tend to perform differently and shift into and out of favor with investors depending on changes in market and economic sentiment and conditions.

Management Risk. Investment decisions, techniques, analyses or models implemented by a Fund's manager or sub-adviser in seeking to achieve the Fund's investment objective may not produce expected returns, may cause the Fund's shares to lose value or may cause the Fund to underperform other funds with similar investment objectives.

Performance

The following information provides some indication of the risks of investing in the Fund by showing changes in the Fund's performance from year to year. The Fund's average annual total returns are compared to the performance of one or more indices. The Fund's Regulatory Benchmark is a broad-based index that represents the overall securities markets relative to the Fund's asset category while the Fund's Strategy Benchmark is most closely aligned with the Fund's investment universe based on its investment strategy. Past performance before and after taxes is no guarantee of future results. Current month-end performance is available on the Fund's website at allspringglobal.com.

Calendar Year Total Returns for Institutional Class as of 12/31 each year

Average Annual Total Returns for the periods ended 12/31/2023

	Inception Date of Share Class	1 Year	5 Year	10 Year
Institutional Class (before taxes)	7/26/2004	15.39%	13.59%	9.50%
Institutional Class (after taxes on distributions)	7/26/2004	12.11%	10.42%	7.25%
Institutional Class (after taxes on distributions and the sale of Fund Shares)	7/26/2004	11.13%	10.51%	7.34%
Russell 1000® Value Index (Strategy Benchmark) (reflects no deduction for fees, expenses, or taxes)		11.46%	10.91%	8.40%
Russell 3000® Index (Regulatory Benchmark) (reflects no deduction for fees, expenses, or taxes)		25.96%	15.16%	11.48%

After-tax returns are calculated using the historical highest individual federal marginal income tax rates and do not reflect the impact of state, local or foreign taxes. Actual after-tax returns depend on an investor's tax situation and may differ from those shown, and after-tax returns shown are not relevant to tax-exempt investors or investors who hold their Fund shares through tax-deferred arrangements, such as 401(k) Plans or Individual Retirement Accounts.

Fund Management

Manager	Sub-Adviser ¹	Portfolio Manager, Title/Managed Since ¹
Allspring Funds Management, LLC	Allspring Global Investments, LLC	James M. Tringas, CFA , Portfolio Manager / 2024 Bryant VanCronkhite, CFA, CPA , Portfolio Manager / 2024 Shane Zweck, CFA , Portfolio Manager / 2024

1. The sub-adviser and portfolio managers listed above are the sub-adviser and portfolio managers of the master portfolio in which the Fund invests substantially all of its assets. The Fund itself does not have a sub-adviser or portfolio managers.

Purchase and Sale of Fund Shares

Institutional Class shares are generally available through intermediaries for the accounts of their customers and directly to institutional investors and individuals. Institutional investors may include corporations; private banks and trust companies; endowments and foundations; defined contribution, defined benefit and other employer sponsored retirement plans; institutional retirement plan platforms; insurance companies; registered investment advisor firms; bank trusts; 529 college savings plans; family offices; and funds of funds, including those managed by Allspring Funds Management. In general, you can buy or sell shares of the Fund online or by mail, phone or wire, on any day the New York Stock Exchange is open for regular trading. You also may buy and sell shares through a financial professional.

Minimum Investments	To Buy or Sell Shares
Minimum Initial Investment Institutional Class: \$1 million (this amount may be reduced or eliminated for certain eligible investors)	Mail: Allspring Funds P.O. Box 219967 Kansas City, MO 64121-9967 Online: allspringglobal.com Phone or Wire: 1-800-222-8222 Contact your financial professional.
Minimum Additional Investment Institutional Class: None	

Tax Information

Any distributions you receive from the Fund may be taxable as ordinary income or capital gains, except when your investment is in an IRA, 401(k) or other tax-advantaged investment plan. However, subsequent withdrawals from such a tax-advantaged investment plan may be subject to federal income tax. You should consult your tax adviser about your specific tax situation.

Payments to Intermediaries

If you purchase a Fund through an intermediary, the Fund and its related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the intermediary and your financial professional to recommend the Fund over another investment. Consult your financial professional or visit your intermediary's website for more information.
