Notes to financial statements

1. ORGANIZATION

Allspring Funds Trust (the "Trust"), a Delaware statutory trust organized on March 10, 1999, is an open-end management investment company registered under the Investment Company Act of 1940, as amended (the "1940 Act"). As an investment company, the Trust follows the accounting and reporting guidance in Financial Accounting Standards Board ("FASB") Accounting Standards Codification Topic 946, Financial Services - Investment Companies. These financial statements report on the Allspring Opportunity Fund (the "Fund") which is a diversified series of the Trust.

2. SIGNIFICANT ACCOUNTING POLICIES

The following significant accounting policies, which are consistently followed in the preparation of the financial statements of the Fund, are in conformity with U.S. generally accepted accounting principles ("GAAP") which require management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of income and expenses during the reporting period. Actual results could differ from those estimates.

Securities valuation

All investments are valued each business day as of the close of regular trading on the New York Stock Exchange (generally 4 p.m. Eastern Time), although the Fund may deviate from this calculation time under unusual or unexpected circumstances.

Equity securities and exchange-traded funds that are listed on a foreign or domestic exchange or market are valued at the official closing price or, if none, the last sales price.

The values of securities denominated in foreign currencies are translated into U.S. dollars at rates provided by an independent foreign currency pricing source at a time each business day specified by the Valuation Committee at Allspring Funds Management, LLC ("Allspring Funds Management").

Many securities markets and exchanges outside the U.S. close prior to the close of the New York Stock Exchange and therefore may not fully reflect trading or events that occur after the close of the principal exchange in which the foreign securities are traded, but before the close of the New York Stock Exchange. If such trading or events are expected to materially affect the value of such securities, then fair value pricing procedures implemented by Allspring Funds Management are applied. These procedures take into account multiple factors including movements in U.S. securities markets after foreign exchanges close. Foreign securities that are fair valued under these procedures are categorized as Level 2 and the application of these procedures may result in transfers between Level 1 and Level 2. Depending on market activity, such fair valuations may be frequent. Such fair value pricing may result in net asset values that are higher or lower than net asset values based on the last reported sales price or latest quoted bid price. On March 31, 2025, such fair value pricing was used in pricing certain foreign securities.

Investments in registered open-end investment companies (other than those listed on a foreign or domestic exchange or market) are valued at net asset value.

Investments which are not valued using the methods discussed above are valued at their fair value, as determined in good faith by Allspring Funds Management, which was named the valuation designee by the Board of Trustees. As the valuation designee, Allspring Funds Management is responsible for day-to-day valuation activities for the Allspring Funds. In connection with these responsibilities, Allspring Funds Management has established a Valuation Committee and has delegated to it the authority to take any actions regarding the valuation of portfolio securities that the Valuation Committee deems necessary or appropriate, including determining the fair value of portfolio securities. On a quarterly basis, the Board of Trustees receives reports of valuation actions taken by the Valuation Committee. On at least an annual basis, the Board of Trustees receives an assessment of the adequacy and effectiveness of Allspring Funds Management's process for determining the fair value of the portfolio of investments.

Foreign currency translation

The accounting records of the Fund are maintained in U.S. dollars. The values of other assets and liabilities denominated in foreign currencies are translated into U.S. dollars at rates provided by an independent foreign currency pricing source at a time each business day specified by the Valuation Committee. Purchases and sales of securities, and income and expenses are converted at the rate of exchange on the respective dates of such transactions. Net realized foreign exchange gains or losses arise from sales of foreign currencies, currency gains or losses realized between the trade and settlement dates on securities transactions, and the difference between the amounts of dividends, interest and foreign withholding taxes recorded and the U.S. dollar equivalent of the amounts actually paid or received. Net unrealized foreign exchange gains and losses arise from changes in the fair value of assets and liabilities other than investments in securities resulting from changes in exchange rates. The changes in net assets arising from changes in exchange rates of securities and the changes in net assets resulting from changes in market prices of securities are not separately presented. Such changes are included in net realized and unrealized gains or losses from investments.

Security transactions and income recognition

Securities transactions are recorded on a trade date basis. Realized gains or losses are recorded on the basis of identified cost.

Dividend income is recognized on the ex-dividend date, except for certain dividends from foreign securities, which are recorded as soon as the custodian verifies the ex-dividend date.

Interest earned on cash balances held at the custodian is recorded as interest income.

Distributions received from REIT investments may be characterized as ordinary income, capital gains, or a return of capital to the Fund based on information provided by the REIT. The proper characterization of REIT distributions is generally not known until after the end of each calendar year. As such, estimates may be used in reporting the character of income and distributions for financial statement purposes.

Distributions to shareholders

Distributions to shareholders from net investment income and any net realized gains are recorded on the ex-dividend date and paid at least annually. Such distributions are determined in accordance with income tax regulations and may differ from U.S. GAAP. Dividend sources are estimated at the time of declaration. The tax character of distributions is determined as of the Fund's fiscal year end. Therefore, a portion of the Fund's distributions made prior to the Fund's fiscal year end may be categorized as a tax return of capital at year end.

Federal and other taxes

The Fund intends to continue to qualify as a regulated investment company by distributing substantially all of its investment company taxable income and any net realized capital gains (after reduction for capital loss carryforwards) sufficient to relieve it from all, or substantially all, federal income taxes. Accordingly, no provision for federal income taxes was required.

The Fund's income and federal excise tax returns and all financial records supporting those returns for the prior three fiscal years are subject to examination by the federal and Delaware revenue authorities. Management has analyzed the Fund's tax positions taken on federal, state, and foreign tax returns, as applicable, for all open tax years and does not believe that there are any uncertain tax positions that require recognition of a tax liability.

As of March 31, 2025, the aggregate cost of all investments for federal income tax purposes was \$1,026,974,824 and the unrealized gains (losses) consisted of:

Gross unrealized gains \$781,463,923 Gross unrealized losses (50,713,296)

Net unrealized gains \$730,750,627

Class allocations

The separate classes of shares offered by the Fund differ principally in applicable sales charges, distribution, shareholder servicing, and administration fees. Class specific expenses are charged directly to that share class. Investment income, common fund-level expenses, and realized and unrealized gains (losses) on investments are allocated daily to each class of shares based on the relative proportion of net assets of each class.

3. FAIR VALUATION MEASUREMENTS

Fair value measurements of investments are determined within a framework that has established a fair value hierarchy based upon the various data inputs utilized in determining the value of the Fund's investments. The three-level hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The Fund's investments are classified within the fair value hierarchy based on the lowest level of input that is significant to the fair value measurement. The inputs are summarized into three broad levels as follows:

- Level 1—quoted prices in active markets for identical securities
- Level 2—other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)
- Level 3—significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

The inputs or methodologies used for valuing investments in securities are not necessarily an indication of the risk associated with investing in those securities.

The following is a summary of the inputs used in valuing the Fund's assets and liabilities as of March 31, 2025:

	QUOTED PRICES (LEVEL 1)	OTHER SIGNIFICANT OBSERVABLE INPUTS (LEVEL 2)	SIGNIFICANT UNOBSERVABLE INPUTS (LEVEL 3)	TOTAL

At March 31, 2025, the Fund did not have any transfers into/out of Level 3.

4. TRANSACTIONS WITH AFFILIATES

Management fee

Allspring Funds Management, a wholly owned subsidiary of Allspring Global Investments Holdings, LLC, a holding company indirectly owned by certain private funds of GTCR LLC and Reverence Capital Partners, L.P., is the manager of the Fund and provides advisory and fund-level administrative services under an investment management agreement. Under the investment management agreement, Allspring Funds Management is responsible for, among other services, implementing the investment objectives and strategies of the Fund, supervising the subadviser and providing fund-level administrative services in connection with the Fund's operations. As compensation for its services under the investment management agreement, Allspring Funds Management is entitled to receive a management fee, which is generally paid monthly, at the following annual rate based on the Fund's average daily net assets:

AVERAGE DAILY NET ASSETS	MANAGEMENT FEE
First \$500 million	0.750%
Next \$500 million	0.725
Next \$1 billion	0.700
Next \$2 billion	0.675
Next \$1 billion	0.650
Next \$5 billion	0.640
Next \$2 billion	0.630
Next \$4 billion	0.620
Over \$16 billion	0.610

For the six months ended March 31, 2025, the management fee was equivalent to an annual rate of 0.72% of the Fund's average daily net assets.

Allspring Funds Management has retained the services of a subadvisor to provide daily portfolio management to the Fund. The fee for subadvisory services is borne by Allspring Funds Management. Allspring Global Investments, LLC, an affiliate of Allspring Funds Management and a wholly owned subsidiary of Allspring Global Investments Holdings, LLC, is the subadviser to the Fund and is entitled to receive a fee from Allspring Funds Management at an annual rate starting at 0.45% and declining to 0.30% as the average daily net assets of the Fund increase.

Administration fees

Under a class-level administration agreement, Allspring Funds Management provides class-level administrative services to the Fund, which includes paying fees and expenses for services provided by the transfer agent, sub-transfer agents, omnibus account servicers and record-keepers. As

compensation for its services under the class-level administration agreement, Allspring Funds Management receives an annual fee which is calculated based on the average daily net assets of each class and generally paid monthly, as follows:

	CLASS-LEVEL ADMINISTRATION FEE
Class A	0.20%
Class C	0.20
Class R6	0.03
Administrator Class	0.13
Institutional Class	0.13

Waivers and/or expense reimbursements

Allspring Funds Management has contractually committed to waive and/or reimburse management and administration fees to the extent necessary to maintain certain net operating expense ratios for the Fund. When each class of the Fund has exceeded its expense cap, Allspring Funds Management will waive fees and/or reimbursed expenses from fund-level expenses on a proportionate basis and then from class specific expenses. When only certain classes exceed their expense caps, waivers and/or reimbursements are applied against class specific expenses before fund-level expenses. Allspring Funds Management has contractually committed through January 31, 2026 to waive fees and/or reimburse expenses to the extent necessary to cap the Fund's expenses. Prior to or after the commitment expiration date, the cap may be increased or the commitment to maintain the cap may be terminated only with the approval of the Board of Trustees. As of March 31, 2025, the contractual caps are as follows:

	EXPENSE RATIO CAPS
Class A	1.17%
Class A Class C Class R6	1.92
Class R6	0.72
Administrator Class	1.00
Institutional Class	0.75

Distribution fee

The Trust has adopted a distribution plan for Class C shares pursuant to Rule 12b-1 under the 1940 Act. A distribution fee is charged to Class C shares and paid to Allspring Funds Distributor, LLC ("Allspring Funds Distributor"), the principal underwriter, an affiliate of Allspring Funds Management, at an annual rate up to 0.75% of the average daily net assets of Class C shares. Such fees are generally paid on a monthly basis.

In addition, Allspring Funds Distributor is entitled to receive the front-end sales charge from the purchase of Class A shares and a contingent deferred sales charge on the redemption of certain Class A shares. Allspring Funds Distributor is also entitled to receive the contingent deferred sales charges from redemptions of Class C shares. For the six months ended March 31, 2025, Allspring Funds Distributor received \$1,167 from the sale of Class A shares. No contingent deferred sales charges were incurred by Class A and Class C shares for the six months ended March 31, 2025.

Shareholder servicing fees

The Trust has entered into contracts with one or more shareholder servicing agents, whereby Class A, Class C and Administrator Class are charged a fee at an annual rate up to 0.25% of the average daily net assets of each respective class. These fees are generally paid on a monthly basis. A portion of these total shareholder servicing fees were paid to affiliates of the Fund.

Interfund transactions

The Fund may purchase or sell portfolio investment securities to certain affiliates pursuant to Rule 17a-7 under the 1940 Act and under procedures adopted by the Board of Trustees. The procedures have been designed to ensure that these interfund transactions, which do not incur broker commissions, are effected at current market prices. Pursuant to these procedures, the Fund did not have any interfund transactions during the six months ended March 31, 2025.

5. INVESTMENT PORTFOLIO TRANSACTIONS

Purchases and sales of investments, excluding U.S. government obligations (if any) and short-term securities, for the six months ended March 31, 2025 were \$220,523,271 and \$329,589,670, respectively.

6. BANK BORROWINGS

The Fund, together with certain other registered Allspring funds is party to a \$275,000,000 revolving credit agreement whereby the Fund is permitted to use bank borrowings for temporary or emergency purposes, such as to fund shareholder redemption requests. Interest under the credit agreement is charged to the Fund based on a borrowing rate equal to the higher of the Federal Funds rate or the overnight bank funding rate in effect on that day plus a spread. In addition, an annual commitment fee based on the unused balance is allocated to each participating fund.

For the six months ended March 31, 2025, there were no borrowings by the Fund under the agreement.

7. CONCENTRATION RISKS

As of the end of the period, the Fund concentrated its portfolio of investments in the information technology sector. A fund that invests a substantial portion of its assets in any sector may be more affected by changes in that sector than would be a fund whose investments are not heavily weighted in any sector.

8. INDEMNIFICATION

Under the Fund's organizational documents, the officers and Trustees have been granted certain indemnification rights against certain liabilities that may arise out of performance of their duties to the Fund. The Fund has entered into a separate agreement with each Trustee that converts indemnification rights currently existing under the Fund's organizational documents into contractual rights that cannot be changed in the future without the consent of the Trustee. Additionally, in the normal course of business, the Fund may enter into contracts with service providers that contain a variety of indemnification clauses. The Fund's maximum exposure under these arrangements is dependent on future claims that may be made against the Fund and, therefore, cannot be estimated.

9. OPERATING SEGMENTS

The Fund has adopted FASB Accounting Standards Update 2023-07, Segment Reporting (Topic 280) - Improvements to Reportable Segment Disclosures ("ASU 2023-07"). Adoption of the standard impacted financial statement disclosures only and did not affect the Fund's financial position or the results of its operations. An operating segment is defined in Topic 280 as a component of a public entity that engages in business activities from which it may recognize revenues and incur expenses, has operating results that are regularly reviewed by the public entity's chief operating decision maker ("CODM") to make decisions about resources to be allocated to the segment and assess its performance, and has discrete financial information available. The President of the Fund acts as the Fund's CODM. For the periods presented, the Fund operated as a single operating segment. The CODM monitors the operating results of the Fund as a whole and the Fund's long-term strategic asset allocation from which it derives its revenue is determined as outlined in the Fund's prospectus which is executed by the Fund's portfolio management team. The portfolio composition, total return and expense ratios, and the components of total increase/decrease in net assets are used by the CODM to assess the segment's performance and to make resource allocation decisions for the Fund's single segment. This information is consistent with that presented within the Fund's financial statements. Segment assets are reflected on the accompanying Statement of assets and liabilities as "total assets" and significant segment revenue and expenses are listed on the accompanying Statement of operations.
