This annual shareholder report contains important information about Pennsylvania Tax-Free Fund for the period from July 1, 2024 to June 30, 2025. You can find additional information about the Fund at allspringglobal.com. You can also request this information by contacting us at 1-800-222-8222.

What were the Fund costs for the past year?

The table explains the costs you would have paid within the reporting period based on a hypothetical \$10,000 investment.

CLASS NAME	COSTS OF A \$10,000 INVESTMENT	COSTS PAID AS A % OF A \$10,000 INVESTMENT
Class A	\$73	0.73%

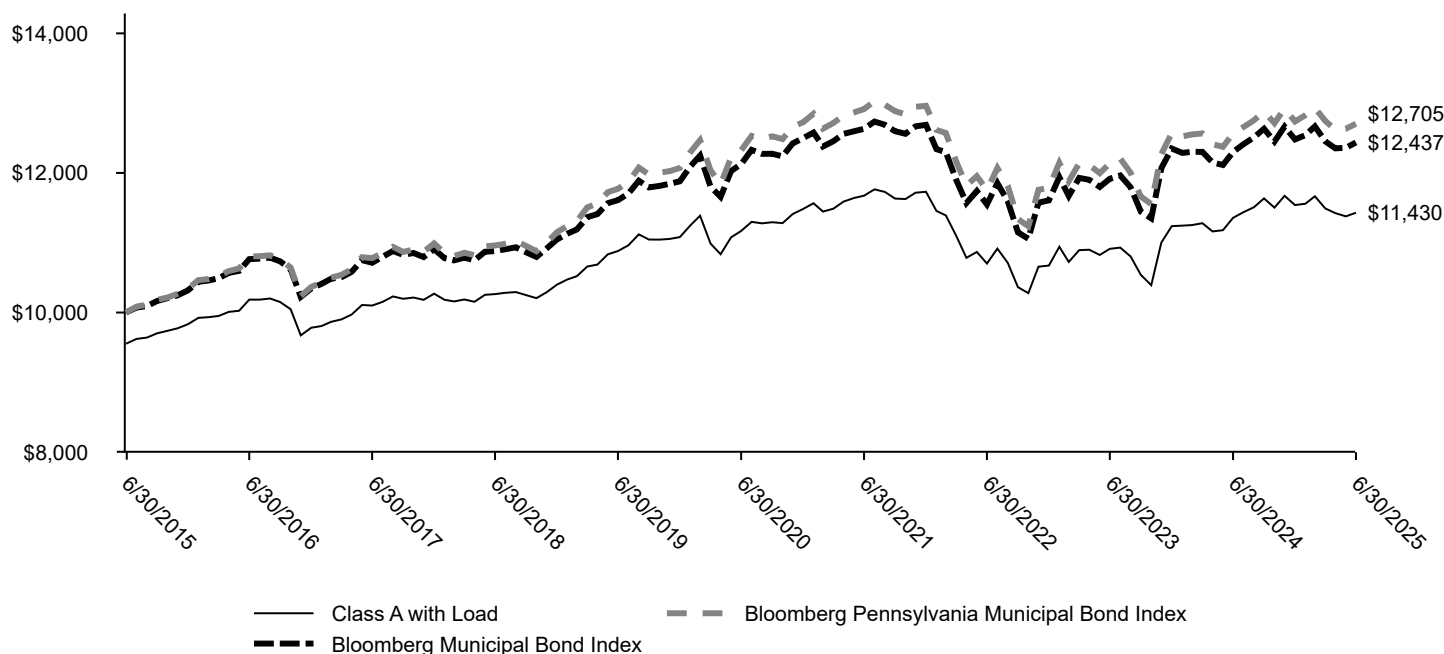

The manager has contractually committed to waive fees and/or reimburse certain expenses to the extent necessary to cap the Fund's total annual fund operating expense ratio at a specific amount. Without this cap, the costs shown above may have been higher. Please see the prospectus for the amount and the expiration date of the cap. Prior to or after the commitment expiration date, the cap may be increased or the commitment to maintain the cap may be terminated only with the approval of the Board of Trustees.

How did the Fund perform last year and what affected its performance?

The municipal market experienced periods of volatility over the last year. However, the Bloomberg Municipal Bond Index finished the one-year period ending June 30, 2025, +1.1%. The Federal Reserve has maintained a cautious approach as geopolitical uncertainty, trade tensions, and potential tariff ramifications weigh on the markets. For the period, the main contributors to fund performance were security selection and our credit allocation while our duration positioning was the primary detractor.

We believe that an active approach will continue to benefit clients as the potential for further market volatility remains and that thoughtful positioning of portfolios can help navigate uncertain markets.
