

Precious Metals Fund

Class C

EKWCX

This annual shareholder report contains important information about Precious Metals Fund for the period from April 1, 2024 to March 31, 2025. You can find additional information about the Fund at allspringglobal.com. You can also request this information by contacting us at 1-800-222-8222.

What were the Fund consolidated costs for the past year?

The table explains the consolidated costs you would have paid within the reporting period based on a hypothetical \$10,000 investment.

CLASS NAME	CONSOLIDATED COSTS OF A \$10,000 INVESTMENT	COSTS PAID AS A % OF A \$10,000 INVESTMENT
Class C	\$236	1.84%

The manager has contractually committed to waive fees and/or reimburse certain expenses to the extent necessary to cap the Fund's total annual fund operating expense ratio at a specific amount. Without this cap, the costs shown above may have been higher. Please see the prospectus for the amount and the expiration date of the cap. Prior to or after the commitment expiration date, the cap may be increased or the commitment to maintain the cap may be terminated only with the approval of the Board of Trustees.

How did the Fund perform last year and what affected its performance?

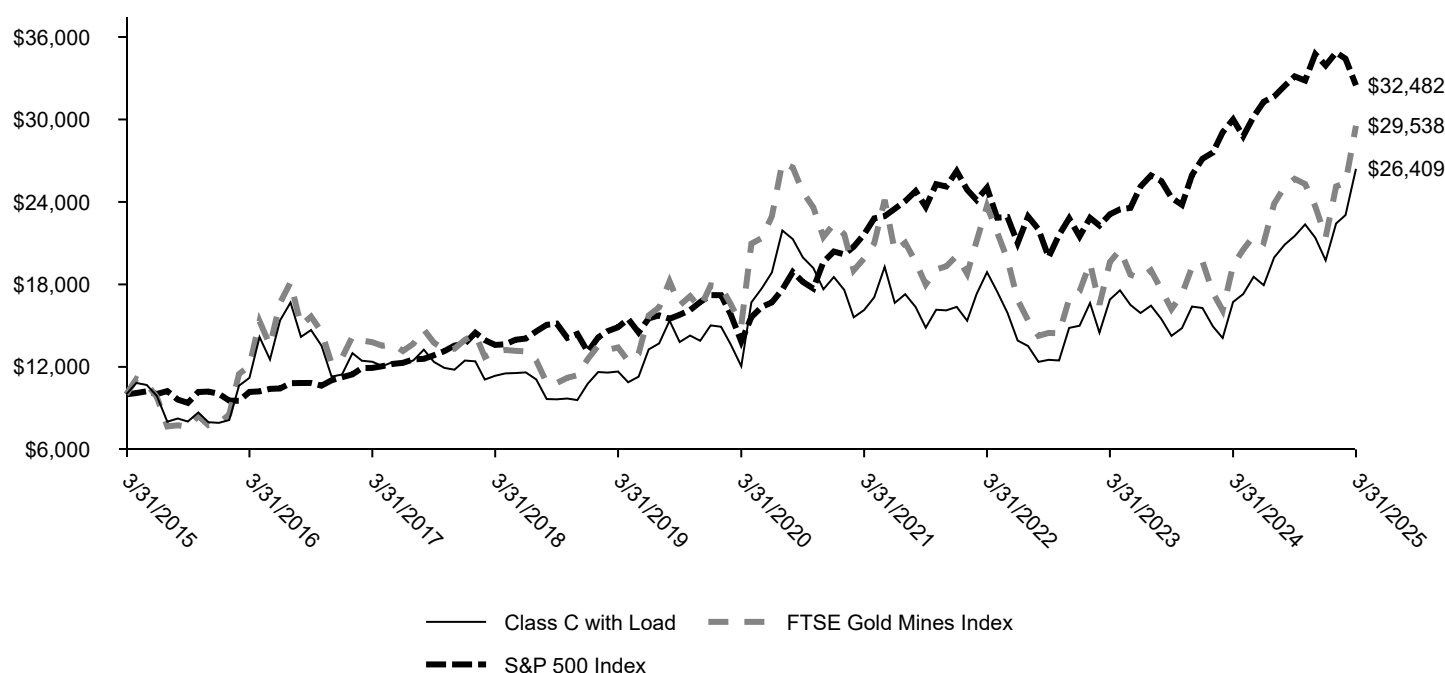

The price of gold rose 40.1% during the period while gold-mining stocks outperformed the price of gold. Increased tariffs, rising trade tensions, stronger inflation, and increased risks to economic growth caused U.S. Treasury yields to fall by 60 basis points (bps; 100 bps equal 1.00%) and the trade-weighted U.S. dollar to weaken by 5% during the last quarter of the reporting period.

Two of the Fund's top contributors were Lundin Gold, Inc. and Torex Gold Resources, Inc. Lundin outperformed on news of better-than-expected operating results. Torex outperformed on news that construction of its Media Luna Mine in Mexico was completed on budget. The Fund's underweights to Barrick Gold Corp. and Newmont Corp. significantly enhanced results, as both companies provided disappointing 2025 operating outlooks.

One of the Fund's top detractors was Endeavour Mining PLC. Endeavour underperformed on news that the commissioning of its Massawa Mine in Senegal was being delayed. The Fund's underweights to Agnico Eagle Mines Ltd. and Evolution Mining PLC also detracted from results.

While we adjusted individual holdings, we did not make material changes to the portfolio.

Total return based on a \$10,000 investment

AVERAGE ANNUAL TOTAL RETURNS (%)
